Social Class And The Comprehensive School Hardcover:

Social Class and the Comprehensive School Julianne Ford, 1998 Using the great wealth of knowledge from educational theorists and practitioners the volumes in this book explore the important relationship between society and education Useful for actual and intending teachers **Routledge Library Editions: Education Mini-Set L Sociology of Education**

Various, 2021-06-23 Mini set L Sociology of Education re issues 48 volumes originally published between 1928 and 1990 The books in this mini set discuss Teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization **The 1960s** Philip Tew, James Riley, Melanie Seddon, 2018-07-26 How did social cultural and political events

in Britain during and leading up to the 1960s shape modern British fiction The 1960s were the swinging decade a newly energised youth culture went hand in hand with new technologies expanding educational opportunities new social attitudes and profound political differences between the generations This volume explores the ways in which these apparently seismic changes were reflected in British fiction of the decade Chapters cover feminist writing that fused the personal and the political gay lesbian and immigrant voices and the work of visionary experimental and science fiction writers A major critical re evaluation of the decade this volume covers such writers as J G Ballard Anthony Burgess A S Byatt Angela Carter John Fowles Christopher Isherwood Doris Lessing Michael Moorcock and V S Naipaul Research Handbook on Curriculum and Education Elizabeth Rata, 2024-04-12 This incisive Handbook brings together a wealth of innovative research from

international curriculum and education experts to ask the question what knowledge should be taught in school how should it be taught and for what purpose *Pupil Disaffection in Schools* Sarah Swann, 2016-04-15 Sarah Swann provides a fresh approach to examining the long standing debates over disaffection and in particular social class differences in educational achievement through a mixed methods methodology and the showcasing of new research By observing pupils as they engage with peers and teachers in school Swann allows disaffection to be seen and heard in real events which constructs disaffection differently from objective statistical evidence on school exclusions Rather than a homogenous identity this book illustrates disaffection as layered and resting on a series of issues located on the crossroads between the cultural context of the neighbourhood and the public sphere of the school It plots in a detailed way how these structures interact and mesh to create disaffected identities Disaffection does not emerge in a vacuum or without a cause Pupils arrive at school with a wide variety of experiences and it is from these that they interpret understand and act out their identities Whilst the study in part seeks to describe and understand the social world of the school in terms of the pupils interpretations of the situation it analytically frames the perceptions of pupils within a wider social context In particular it focuses on the relationships between schooling and the wider macro structures and social relations that underpin disaffection This approach makes the research both critical and interpretative and also able to shed new light on educational policy across England based on an understanding of the

role of disaffection **Contrasting Dynamics in Education Politics of Extremes** ,2015-01-01 This book aims to enhance understanding of school choice as a supra national travelling policy explored in two strikingly different societies Latin American Chile and North European Finland Chile was among the first countries to implement school choice as a policy which it did comprehensively in the early 1980s through the creation of a market environment Finland introduced parental choice of a school on a very moderate scale and without the market elements in the mid 1990s Predominant aspects of Chilean basic schooling include provision by for profit and non profit private and municipal organisations voucher system parental co payment and ranking lists Finland persists in keeping education under public authority governance and free of charge and in prohibiting profit making and rankings The wide range of sociologists of education contributing to this book offer novel analyses and perspectives on the operation of school choice in Chile the trailblazer and Finland the European PISA leader Agn s van Zanten s description of how school choice operates as a major dimension of social reproduction sets the scene After that Chilean and Finnish authors explore how the policy is displayed and used explicitly for very different societal purposes although implicitly following similar patterns in the two countries with their histories politics and cultures Empirically the focus is on how families view and act on school choice The research material includes large surveys interviews and ethnographic data gathered in urban Chile and Finland Capitalising on the concept of dynamics the book concludes with some insights into how this globally travelling education policy has materialised in two apparently dissimilar societies and their localities Social Class, Gender and Exclusion from School Jean Kane,2013-10-14 Rising exclusion rates indicate the continuing marginalisation of many young people in education in the UK Working class boys children living in poverty and children with additional special educational needs are among those experiencing a disproportionate rate of exclusion This book traces the processes of exclusion and alienation from school and relates this to a changing social and economic context Jean Kane argues that policy on schooling including curricular reform needs to be re connected to the broad political pursuit of social justice and presents compelling case studies of excluded pupils showing the multi faceted identities of pupils with a particular focus on masculine and feminine identities This invaluable contribution to the literature offers an alternative analysis where the social identities of pupils are shown to be tied up with their exclusion from school Themes investigated include the meanings of school exclusions social class gender and schooling social identities of excluded pupils negotiating identities in school moving towards exclusion exclusions and young people s lives improving participation in schooling Providing fascinating reading for teachers social workers researchers and policy makers this book considers how educational disadvantage might be addressed through recognition of the gender and class identities of pupils AQA Sociology for A-level Book 1 David Bown,Laura Pountney,Tomislav Maric,2015-10-16 Exam Board AQA Level AS A level Subject Sociology First Teaching September 2015 First Exam June 2016 Build students understanding with this concept driven approach to the 2015 AQA A level Sociology specification written by a team of leading subject authors and approved

Middle class School Choice in Urban Spaces examines government funded public schools from a range of perspectives and scholarship in order to examine the historical political and economic conditions of public schooling within a globalized post welfare context In this book Rowe argues that post welfare policy conditions are detrimental to government funded public schools as they engender consistent pressure in rearticulating the public school in alignment with the market produce tensions in serving the more historical conceptualizations of public schooling and are preoccupied by contemporary profit driven concerns Chapters focus on public schooling from different global perspectives with examples from Chile and the US to examine how various social movements encapsulate ideologies around public schooling Rowe also draws upon a rich five year ethnographic study of campaigns lobbying the Victorian State Government in Australia for a brand new local specific public school Critical attention is paid to the public school as a means to achieve empowerment and overcome discrimination and both a local and global lens are used to identify how parents choose the public school the values they attach to it and the strategies they use to obtain it Also considered however are how quality gaps distances and differences between public schools threaten to undermine the democracy of education as a means for individuals to be socially mobile and escape poverty This book makes an important contribution to our understanding of global social movements and activism around public education As such it will be of key interest to researchers academics and postgraduate students in the field of education specifically those working on school choice class and identity as well as educational geography **The**

Bloomsbury Handbook of Rural Education in the United States Amy Price Azano,Karen Eppley,Catharine Biddle,2021-09-09 This handbook begins with a foundational overview of rural education examining the ways in which definitions histories policies and demographic changes influence rural schools This foundational approach includes how corporatization population changes poverty and the role of data affect everyday learning in rural schools In following sections the contributors consider how school closures charter schools and district governance influence decision making in rural schooling while also examining the influence of these structures on higher education attainment rural school partnerships and school leadership They explore curriculum studies in rural education including place based and trauma informed pedagogies rural literacies rural stereotype threat and achievement Finally they engage with issues of identity and equity in rural schools by providing an overview of the literature related to diverse populations in rural places including Indigenous Black and Latinx communities and exceptional learners Importantly this handbook applies theoretical tools to rural classroom experiences demonstrating the potential of work centered at the intersection of theory rurality and classroom practice Each section concludes with a response by an international scholar situating the topics covered within the broader global context
