

SOCIAL STUDIES – INTERNET MARKETING ON SOCIAL

Social media has become prominent in the 21st century. Companies are persistently looking for ways to utilize this new platform within their marketing strategies to increase business growth. Since social media is a networking and communication platform, it is important

for companies to create a voice to humanize the business and maintain foot traffic. Although there are studies on how to use social media marketing within a business, there is minimal corroboration available of how social media marketing activities influence a consumer's buying

behavior. This study investigated the effects of social media on consumer attitudes of social media marketing and purchasing behavior from the perspective of Northern Virginia (NOVA) Community College students. A survey that inquired about the perceptions toward social media

marketing were given to 20 participants from Northern Virginia (NOVA) Community College. Responses to the survey showed that 95% of the participants use social media platforms on a daily basis. The most used social media platforms are Facebook and Snapchat with 22.7%

of participants having an account in these platforms, and 70% of participants indicating using more than 3 social media platforms. The results showed that 55% of the respondents say that online visibility would affect their purchase. The most important factor for a business using social media was customer engagement and the least important factor was the timing of posts.

The survey also revealed that only 55% of the respondents post about products or services a business. However, 95% of the respondents believe that a business will receive better results when it comes to customer loyalty and profits if social media is integrated into marketing and 75% of the respondents believe that social media is the best way to reach a business's targeted

audience. The results also suggest that people are more likely to share and experience they have had with a business rather than sharing sales or promotions a business is offering.

According to the results from this study, purchasing behavior is more likely to have a positive effect for a business when using social media platforms for marketing strategies.

A Year of Social Studies on the Internet Teaching Technology, Inc, 1996 Toward Assessing Internet Use in the Social Studies Classroom James M. Shiveley, Phillip J. VanFossen, 2005 This study conducted a review of the literature related to the use of the Internet for general classroom teaching and more specifically for the teaching of social studies The study first focused on three questions what research is being conducted on defining best practice related to the use of the Internet what is the impact of various types of Internet use on K 12 student learning and what is the impact of various types of Internet use on powerful social studies teaching and learning The answers to these questions then served as a starting point for describing a set of holistic guidelines for Internet use in social studies classrooms The literature review on the use of the Internet both for general classroom teaching and in the social studies classroom found that while much is said about the potential of the Internet and various examples described in which it can be utilized little research has been conducted on its impact on student learning and on the in service use of the Internet use in social studies classrooms The study also indicated that many teachers do not use the Internet on a regular basis and for those teachers who do use the Internet it is employed without changing their traditional approach to teaching The recommendation from this study was to utilize the NCSS Position Statement on Powerful Teaching and Learning in the Social Studies as a guide to assist in developing a more structured and intentional use of this medium To this end an inventory of Internet use based on the tenets of Powerful Teaching and Learning was provided along with examples on how each domain of the inventory could be used in the social studies classroom
