Implementing IT governance in the public sector by use of bootstrap algorithms Petter Ogland,2017-11-29 It has been argued that the reason seventy percent of all IT projects fail is due to lack of a formal system for guiding and monitoring IT decisions Organisations having explicit IT governance systems are generally twice as successful as those with poor governance given the same strategic objectives but implementing IT governance can be difficult In this book Dr Ogland looks at the public sector and argues that the implementation of IT governance has to be done through bootstrapping The bootstrap algorithm BA is a time tested approach that is known to work but it is an approach that breaks with much of the logic of the public sector bureaucracy and is expected to be met with resistance By analysing patterns in a study of trying to convince a Norwegian public sector organisation to implement IT governance through the use of the BA the book is able to provide rich insights on what causes failure and how to make the implementation process succeed

Cline, 2014-02-05 This book argues that information communication technologies are not creating new forms of social structure but rather altering long standing institutions and amplifying existing trends of social change that have their origins in ancient times Using a comparative historical perspective it analyzes the applications of information communication technologies in relation to changes in norms and values education institutions the socialization of children new forms of deviant and criminal behaviors enhanced participation in religious activities patterns of knowledge creation and use the expansion of consumerism and changing experiences of distance and time *Mobile Computer Usability* Gamel O. Wiredu, 2013-11-19 This book explains how mobile computer usability is shaped by the increasing integration of personal

circumstances in organization It represents an attempt to conceptualize an alternative model of mobile computer usability It is motivated by the author's conviction that we do not yet have an adequate understanding of this concept because we have not taken seriously the transformation of human personality by the co evolution of organization and ICTs The author argues that the transformation has resulted in a human personality whose personal and organizational activities are characterized by strong continuities between them This characterization reflects a new kind of personality of the worker and is a critical determinant of mobile computer usability The word organizational is used to describe this kind of personality hence an alternative organizational personality perspective on mobile computer usability This perspective suggests that a mobile computer is more usable to a person than another one because of its satisfaction of both his personal and organizational motives which are in turn shaped by the co evolution of organization technology and personality

Social Theory and Communication Technology Terje Rasmussen,2019-06-11 This title was first published in 2001 An investigation of new forms of interaction and communication The essays address theoretical contributions and insights which may assist us in the understanding of modern society inhabited by a wide range of new media In order to answer questions on this subject the text suggests a structural hermeneutic a view on the public as agents embedded in their lifeworlds rather than as consumers and receivers who play a large part in reproducing structural and distanced processes of meaning The essays explore the implications of such daily practices as making a telephone call or sending an email receiving money from a bank machine using a credit card or retrieving information from a Web site Each of these practices reproduce patterns of information and communication practices which reshape communication processes in society The essays examine the relationship between media change and social change with particular emphasis on their contribution to social interaction in everyday life and in the reproduction of social systems
