Strange Names of God Sangkeun Kim, 2004 One of the most precarious and daunting tasks for sixteenth century European missionaries in the cross cultural mission frontiers was translating the name of God Deus into the local language When the Italian Jesuit Matteo Ricci 1552-1610 introduced the Chinese term Shangti as the semantic equivalent of Deus he made one of the most innovative cross cultural missionary translations Ricci's employment of Shangti was neither a simple rewording of a Chinese term nor the use of a loan word but was indeed a risk taking identification of the Christian God with the Confucian Most High Shangti

Strange Names of God investigates the historical progress of the semantic configuration of Shangti as the divine name of the Christian God in China by focusing on Chinese intellectuals' reaction to the strangely translated Chinese name of God

*Historical Linguistics 1995* Richard M. Hogg, Linda van Bergen, 1998-09-15 The Twelfth International Conference on Historical Linguistics which is the major forum for the presentation of work in progress in the field of diachronic linguistics took place at the University of Manchester in August 1995 The quality and breadth of the

abstracts submitted for the general programme was such that four parallel sessions were needed throughout the conference. The present volume contains selected papers which deal with the Germanic languages. A companion volume edited by J. C. Smith and Delia Bentley contains papers on general problems in historical linguistics and studies of non-Germanic languages. The conference reflected the current health of diachronic linguistics. There were more papers and more participants than at past conferences and the discussion covered a broader range of languages than hitherto. Sometimes it has been possible to isolate a particular preoccupation which has dominated much of the conference but the overall impression to be gained from the Manchester meeting was one of stimulating diversity: the discipline appears to be moving forward on many fronts simultaneously yet without losing focus. This stimulating diversity is well reflected in this important collection.
