Sons Of The Soil:

Sons of the Soil Dr. Ross Gordon Cooper, 2019-09-15 When the Dutch and the British settled in the Rhodesias they found a country with weather and climate like no other The rich soil and abundant rainfall was very favourable Topography varied from the Lowveld with grass and semi scrub land suitable for cattle farming to the Midlands and Highveld suitable for cultivation of crops and smaller livestock The mountainous areas of Maseru, Chimanmani and Vumba provided ideal areas for the cultivation of coffee and tea Agriculture became the backbone of the economy The abundance of harvest and meat made Rhodesia completely self sufficient and the industrial manufacturing sector rapidly expanded and boomed During the war 1964-1980 Agricultural output did not slump In spite of the reassurances for the white farmers after independence their prominence was doomed from the year 2000 when they were attacked killed and their land grabbed The economy has not recovered from that onslaught To fight for what is right has been a long battle and many have tired *Son of the Soil*
