Soulside Ulf Hannerz, 1969 *Soulside* Ulf Hannerz, 1971 *Soulside; inquiries into ghetto culture and community*, New York, Columbia University Press, 1969 Ulf Hannerz, The Poverty of the Ethnography of Poverty Loïc

Wacquant, 2025-07-02 In *The Poverty of the Ethnography of Poverty* Loïc Wacquant dissects how sociologists who carry out field studies of the poor write about race class and morality in the city's underbelly the blinders and biases that affect their research and how to overcome them and how to become aware of these biases and develop a better meshing of theory and research

Community Action against Racism in West Las Vegas Robert J. McKee, 2014-02-27 This book chronicles Robert J. McKee's active participation in a successful protest action led primarily by black females in the historically African American community of West Las Vegas Nevada from 2008-2013. The residents protested the closure of a main street F Street in their community for the expansion of Interstate 15. The community felt the street closure was racially motivated with the intent of further alienating and isolating this already marginalized community. The street closure was one of many instances in a protracted history of events that further exacerbated race relations in Las Vegas. With only minimal support from the black church, courageous women mobilized their community from a neighborhood coalition into a successful community protest group despite resistance from city officials and a racist backlash from some Las Vegas residents. The key players in this work were then Mayor Oscar Goodman, State Senator and now U.S. Congressman Steven Horsford and a host of local and state leaders. The closing of F Street creates an environment for McKee to discuss the current problems of race relations, urban sociology, city planning, social action, ethnography, and institutionalized racism.

The Public Realm Lyn H. Lofland, 2017-07-12 This book is about the public realm defined as a particular kind of social territory that is found almost exclusively in large settlements. This particular form of social psychological space comes into being whenever a piece of actual physical space is dominated by relationships between and among persons who are strangers to one another as often occurs in urban bars, buses, plazas, parks, coffee houses, streets, and so forth. More specifically, the book is about the social life that occurs in such social psychological spaces: the normative patterns and principles that shape it, the relationships that characterize it, the aesthetic and interactional pleasures that enliven it, and the forces anti-urbanism, privatism, post-war

planning and architecture that threaten it The data upon which the book s analysis is based are diverse direct observation interviews contemporary photographs historic etchings prints and photographs and historical maps histories of specific urban public spaces or spatial types and the relevant scholarly literature from sociology environmental psychology geography history anthropology and architecture and urban planning and design Its central argument is that while the existing body of accomplished work in the social sciences can be reinterpreted to make it relevant to an understanding of the public realm this quintessential feature of city life deserves much more u it deserves to be the object of direct scholarly interest in its own right Choice noted that The author s writing style is unusually accessible and the often fascinating narrative is generously supported by well chosen photos

Black Corona Steven Gregory,2011-03-28 In *Black Corona* Steven Gregory examines political culture and activism in an African American neighborhood in New York City Using historical and ethnographic research he challenges the view that black urban communities are socially disorganized Gregory demonstrates instead how working class and middle class African Americans construct and negotiate complex and deeply historical political identities and institutions through struggles over the built environment and neighborhood quality of life With its emphasis on the lived experiences of African Americans *Black Corona* provides a fresh and innovative contribution to the study of the dynamic interplay of race class and space in contemporary urban communities It questions the accuracy of the widely used trope of the dysfunctional black ghetto which the author asserts has often been deployed to depoliticize issues of racial and economic inequality in the United States By contrast Gregory argues that the urban experience of African Americans is more diverse than is generally acknowledged and that it is only by attending to the history and politics of black identity and community life that we can come to appreciate this complexity This is the first modern ethnography to focus on black working class and middle class life and politics Unlike books that enumerate the ways in which black communities have been rendered powerless by urban political processes and by changing urban economies *Black Corona* demonstrates the range of ways in which African Americans continue to organize and struggle for social justice and community empowerment Although it discusses the experiences of one community its implications resonate far more widely Some images inside the book are unavailable due to digital copyright restrictions
