JG Myers

That All May Be One Perceptions And Models Of Ecumenicity:

That All May be One Harding Meyer, 1999 *That All May Be One* provides the first and only comprehensive study of the goal of church unity from the beginning of the ecumenical movement to the present day Harding Meyer critically analyzes the perceptions and models of unity that have emerged over the years taking into account the specific convictions of the individual churches and denominations and offers his own provocative vision for the path ahead **Koinonia and the Quest for an Ecumenical Ecclesiology** Lorelei F. Fuchs, 2008 The word koinonia has gained prominence in recent ecumenical discussions In this original and substantial work Lorelei Fuchs proposes the theological idea of koinonia commonly translated as communion or fellowship as the key to moving fractured churches toward a future unity Fuchs challenges churches to move beyond mere dialogue and to apply ecumenical insights at the local level She begins by relating the exegetical meaning of koinonia to its ecumenical meaning tracing the place of koinonia both within the churches and between the churches She then examines the concept of koinonia in the extensive and fruitful dialogues that have taken place between Lutherans Anglicans and Roman Catholics finally articulating a symbolic competence for communiality that provides a rich and workable way forward for church unity at all levels Encompassing the latest in ecumenical thought *Koinonia and the Quest for an Ecumenical Ecclesiology* provides a broad thoughtful framework for realizing Christ's prayer that all may be one so that the world may believe **Wounded Visions** Jonas Jonson, 2013-01-07 Jonas Jonson who was directly involved with the ecumenical movement for forty years offers in this book an inside perspective on an ever changing global Christianity Reviewing developments in ecumenism from the 1960s to the present Jonson discusses the decolonization of mission interreligious relations God's preferential option for the poor and unity in diversity He also maps the global ecumenical landscape and presents the Fourth Church comprising charismatic Pentecostal and evangelical movements of the twentieth century How did the ecumenical movement respond to the fall of communism the opening of China and the globalization of financial markets Why did so many big churches caught in the whirlwind of change retreat from their ecumenical commitments in order to promote and protect their own interests Jonson addresses these questions and more in this comprehensive review of global Christianity and the ecumenical movement *The Zondervan Encyclopedia of the Bible, Volume 2* Zondervan, 2010-08-10 Revised edition Volume 2 of 5 The Zondervan Encyclopedia of the Bible has been a classic Bible study resource for more than thirty years Now thoroughly revised this new five volume edition provides up to date entries based on the latest scholarship Beautiful full color pictures supplement the text which includes new articles in addition to thorough updates and improvements of existing topics Different viewpoints of scholarship permit a wellrounded perspective on significant issues relating to doctrines themes and biblical interpretation The goal remains the same to provide pastors teachers students and devoted Bible readers a comprehensive and reliable library of information More than 5 000 pages of vital information on Bible lands and people More than 7 500 articles alphabetically arranged for easy reference

Hundreds of full color and black and white illustrations charts and graphs 32 pages of full color maps and hundreds of black and white outline maps for ready reference Scholarly articles ranging across the entire spectrum of theological and biblical topics backed by the most current body of archaeological research 238 contributors from around the world Ruptured Bodies Eugene R. Schlesinger, 2024-05-28 The divided church is withering on the vine Crises of its own making ranging from clergy sexual abuse and its cover up to the church's complicity in colonialism empire and patriarchy coupled with societal shifts beyond the church's control have eroded its credibility A much deserved decline is well underway And yet churches remain content to continue with business as usual The causes of this state of crisis are manifold and complex and no one solution could resolve them all But so long as the church remains in a state of division no solutions will be forthcoming Division is no mere regrettable shortcoming or inconvenience it is a contradiction of the church's foundation After all Jesus prayed that his followers would be one so the world could believe he was sent by God Faced with a crisis of credibility the church finds no way forward because a divided church renders the gospel message not credible Ruptured Bodies is a systematic theological account of the divided church It argues that no adequate ecclesiology can ignore division because in doing so it will fail to describe the church that actually is Such an understanding must integrate the reality of division while also refusing to blunt its sharp edge neither dismissing excusing nor minimizing it What must the church be given the fact of its division Schlesinger presents a systematic ecclesiology of the divided church despite that idea's seeming impossibility because such an ecclesiology is precisely what we need *Pro Ecclesia* Vol 18-N2 *Pro Ecclesia*, 2009-06-16 *Pro Ecclesia* is a quarterly journal of theology published by the Center for Catholic and Evangelical Theology It seeks to give contemporary expression to the one apostolic faith and its classic traditions working for and manifesting the church's unity by research theological construction and free exchange of opinion Members of its advisory council represent communities committed to the authority of Holy Scripture ecumenical dogmatic teaching and the structural continuity of the church and are themselves dedicated to maintaining and invigorating these commitments The journal publishes biblical liturgical historical and doctrinal articles that promote or illumine its purposes Ways to subscribe Call toll free 800 273 2223 Email journals rowman com For back issues please contact journals rowman com Editorial inquiries Joseph Mangina joseph.mangina@utoronto.ca Submissions should be sent by email attachment in Microsoft Word double spaced with identifying marks removed for the purposes of blind peer review Book review inquiries Chad Pecknold pecknold@cua.edu Advertising inquiries Charles Roth Jr charlie.spireads.com Subscription inquiries journals rowman com ISSN 1063 8512 *Toward a Common Future* William G. Rusch, 2019-05-20 This book provides a specific proposal for churches divided by centuries long disputes and disagreements to move toward a vision of the unity of the church It seeks to offer a way for divided churches to move beyond the present quagmire that challenges much of the modern ecumenical movement Building upon the theological dialogues between the churches this volume identifies and supplies a way for churches to regain a momentum that seems recently to have been lost

in the ecumenical movement Between Congregation and Church Barry A. Ensign-George, 2017-12-14 Denominations are one of the primary ways in which Christians attempt to live in a community based around God Yet there is very little careful theological analysis of denomination available today Between Congregation and Church offers a constructive theological understanding of denomination showing its role as an intermediary structure between congregation and church It places denomination and other intermediary structures within the doctrine of the church Barry Ensign George reviews work by theologians and church historians that can contribute to a constructive theological understanding of denomination The book highlights particular developments in the history of the church that established preconditions for the emergence of denomination Exploration of unity and diversity is central to this analysis and individual chapters offer theological analyses of the unity and the diversity to which the Christians are called Finally denomination has often been a vehicle for sin and the relationship between denomination and sin is considered Between Congregation and Church addresses a major gap in contemporary theology the failure to offer substantive theological analysis of denomination a major way Christians together live their faith today Spirit Flowing Like Water Nausikaa Haupt, Olle Kristenson, Michael Nausner, Gregory Ryan, 2025-06-19 What if churches focused less on wanting other Christian traditions to become more like theirs and more on exploring what they might learn from them Might this not only help churches to deepen faith mission and service but also revitalize the ecumenical landscape with new possibilities This is the provocative and inspiring vision presented by Receptive Ecumenism a movement which has crossed denominations and continents engaging church leaders ecumenists scholars and Christians in their everyday lives Spirit Flowing Like Water presents the latest conversations in this field It not only engages leading scholars and practitioners of Receptive Ecumenism between churches but also explores the possibility of learning from difference within a church community Internal Receptive Ecumenism and adapting the approach to a wider ecumenism beyond the visible church Church leaders ecumenists and theologians from five continents have contributed chapters on transforming ecumenism practicing mission in context and broadening the horizon They write not only for those already engaged in ecumenical work but with an invitation to all communities leaders and individuals to take a fresh look at what walking together in Christ means in our polarized world **Sustaining the Hope for Unity** Erin Brigham, 2012 What is unity and how does it serve as a goal for ecumenical dialogue How can churches ecumenical organizations ministers and theologians effectively approach this goal in the twenty first century Sustaining the Hope for Unity offers a methodological reflection on these questions using insights of contemporary critical theory With particular attention to the work of Jürgen Habermas the book develops a framework for exchanging religious narratives in a postmodern context marked by pluralism and ambiguity Using this framework to address questions that have emerged out of the life of the World Council of Churches Sustaining the Hope for Unity argues that unity must be imagined eschatologically in order to achieve inclusive and non coercive dialogue between diverse Christian communities Looking ahead to ecumenism in the twenty first century it makes a

case for the role of the WCC as a public space for the exchange of religious narratives
