United States Congressional Serial Set, Serial No. 15016, Senate Reports Nos. 332-355 , *The Good Samaritan and the Law* James M. Ratcliffe,1966 Adam Smith Michael Emmett Brady,2015-12-17 Adam Smiths original path breaking work on decision making uncertainty and public policies to minimize the impact of uncertainty in the economy has been overlooked for well over two hundred years One need only peruse the badly analyzed work of Smith in this area as presented by Henry D MacLeod in his *The Elements of Political Economy* on pages 212220 or Henry Sidgwick's *The Principles of Political Economy* on pages 359361 as well as the misvaluations of Smiths contributions made by Jacob Viner in 1927 Joseph Schumpeter in 1954 Murray Rothbard in 1995 or Salim Rashid in 1998 to realize that Smiths important contributions were never recognized The claim that Smith made no original contributions to economic theory or economics is simply false Internet Service Provider Liability for Copyright and Trade Mark Infringement Zoi Krokida,2022-06-16 This book critically evaluates the EU regulatory framework for the liability of host Internet Service Providers ISPs for copyright

and trade mark infringements and provides a cluster of novel recommendations for its improvement The book recommends the imposition of a duty of care to host ISPs to curb the dissemination of unauthorised works and counterfeit goods the ascription of a transparency obligation to host ISPs towards their users and the establishment of a supervisory authority for host ISPs Host ISPs have facilitated the dissemination of content amongst users and the purchase of goods online enabling copyright holders and brand owners to attract a greater audience for their works and goods However their services have attracted a high number of copyright and trade mark violations too Neither Article 14 of the e Commerce Directive nor Article 17 of the Copyright in the Digital Single Market Directive provide a solid response to the issue of host ISPs liability This book is a valuable resource for researchers in IT and IP law and offers a new perspective for resolving online IP disputes
