## **The Grandeur And Twilight Of Radical Universalism:**

**The Grandeur and Twilight of Radical Universalism** Ágnes Heller, Ferenc Fehér, 1991-01-01 This volume provides theoretical construction to the extraordinary events that resulted in the collapse of communism worldwide The authors attribute a great deal of the problems of totalitarianism to its blind acceptance of a Marxist philosophy of practice With the failure of communist practice the collapse of the Marxist paradigm was quick to follow At its roots this volume is a critique of the idea that we can have scientific knowledge of the social and political future Axiología de la modernidad Ángel Prior, 2002 La obra de Agnes Heller puede considerarse como una reflexión sobre la axiología de la modernidad tanto por el carácter central y la persistencia del motivo axiológico en su pensamiento a lo largo de las décadas en que se ha desarrollado como porque en ella podemos encontrar una caracterización de la modernidad y de las grandes posiciones filosóficas respecto a la misma especialmente las llevadas a cabo por Marx Habermas y Kierkegaard consideradas en el presente ensayo como significativas de posibilidades de sentido abiertas en nuestro tiempo y que remitirán a los ámbitos axiológicos de la emancipación la justicia política y la moralidad *Freedom and Dissatisfaction in the Works of Agnes Heller* Lucy Jane Ward, 2016-12-27 Ward's book focuses on the work of the Hungarian philosopher Agnes Heller prominent member of the Budapest School a group of students who studied under the Marxist social theorist György Lukács For both Marx and Heller albeit in different ways dissatisfaction emerges as the inevitable result of the expansion of needs within modernity and as a catalyst for the development of anthropological wealth what Marx refers to as the human being rich in need Ward argues that dissatisfaction and the corresponding category of human wealth as both motif and method is central to grasping Heller's seemingly disparate writings While Marx postulates a radical overcoming of dissatisfaction Heller argues dissatisfaction is integral not only to the ongoing survival of modernity but also to the dynamics of both freedom and individual life In this way Heller's work remains committed to a position that both continually returns and departs is both with and against the philosophy of Marx This book will be of interest to scholars of political philosophy social theory critical theory and sociology

*Agnes Heller* Simon Tormey, 2001 This thorough examination of Agnes Heller's political thought covers a range of subjects from Marxian anthropology through aesthetics the philosophy of history ethical socialism postmodernism and the political forms of the modern state Simon Tormey treats Heller's work historically and thematically placing it in a postmodern 21st century context *Critiques of Everyday Life* Michael Gardiner, 2002-01-04 Recent years have witnessed a burgeoning interest in the study of everyday life within the social sciences and humanities In *Critiques of Everyday Life* Michael Gardiner proposes that there exists a counter tradition within everyday life theorising This counter tradition has sought not merely to describe lived experience but to transform it by elevating our understanding of the everyday to the status of a critical knowledge In his analysis Gardiner engages with the work of a number of significant theorists and approaches that have been marginalized by mainstream academe including The French tradition of everyday life theorising from the surrealists to

Henri Lefebvre and from the Situationist International to Michel de Certeau Agnes Heller and the relationship between the everyday rationality and ethics Carnival prosaics and intersubjectivity in the work of Mikhail Bakhtin Dorothy E Smith's feminist perspective on everyday life Critiques of Everyday Life demonstrates the importance of an alternative multidisciplinary everyday life paradigm and offers a myriad of new possibilities for critical social and cultural theorising and empirical research

**The Devil in History** Vladimir Tismaneanu, 2014-03-14 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author's personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century's experiments in social engineering Vladimir Tismaneanu brilliantly compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus François Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness

Engaging Agnes Heller Katie Terezakis, 2009-03-16 This collection of essays examines the life and thought of Agnes Heller who rose to international acclaim as a Marxist dissident in Eastern Europe then went on to develop one of the most comprehensive oeuvres in contemporary philosophy putting forward a distinctive ethical theory and analyses of a vast range of topics covering most every philosophical area Here philosophers sociologists journalists and political scientists contextualize compare and assess different elements of Heller's work the collection as a whole highlights relevant shifts within that work as well as its intrinsic consistency Essays in the collection address the relationship between philosophy political practice and everyday life Heller's theory of modernity and her ethical theory her recent scholarship on comedy and the Biblical book of Genesis her theories of radical needs and radical politics her aesthetic theory and questions about her relationship to feminist theory The collection includes Heller's reflections on the collected essays as well as an early essay on her mentor Lukács that exposes her own steadfast engagement with certain practical and philosophical issues throughout her life's work

articles examining the causes and consequences of the collapse of communism in East and Central Europe the most important event in recent world history It includes discussion of the economic political and social nature of revolutions the role of dissidents and civil society in encouraging the breakdown of eastern European communist regimes comparisons with other revolutions the extent of the collapse of Leninist regimes in East Central Europe European historians scholars and students will want to make this an integral part of their studies **Fantasies of Salvation** Vladimir Tismaneanu, 2009-06-28

Eastern Europe has become an ideological battleground since the collapse of the Soviet Union with liberals and authoritarians struggling to seize the ground lost by Marxism In *Fantasies of Salvation* Vladimir Tismaneanu traces the intellectual history of this struggle and warns that authoritarian nationalists pose a serious threat to democratic forces A leading observer of the often baffling world of post Communist Europe Tismaneanu shows that extreme nationalistic and authoritarian thought has been influential in Eastern Europe for much of this century while liberalism has only shallow historical roots Despite democratic successes in places such as the Czech Republic and Poland he argues it would be a mistake for the West to assume that liberalism will always triumph He backs this argument by showing how nationalist intellectuals have encouraged ethnic hatred in such countries as Russia Romania and the former Yugoslavia by reviving patriotic myths of heroes scapegoats and historical injustices And he shows how enthusiastically these myths have been welcomed by people desperate for some form of salvation from political and economic uncertainty On a theoretical level Tismaneanu challenges the common ideas that the ideological struggle is between right and left or between nationalists and internationalists In a careful analysis of the conflict's ideological roots he argues that it is more useful and historically accurate to view the struggle as between those who embrace the individualist traditions of the Enlightenment and those who reject them Tismaneanu himself has been active in the intellectual battles he describes particularly in his native Romania and makes insightful use of interviews with key members of the dissident movements of the 1970s and 1980s He offers original observations of countries from the Baltic to the Black Sea and expresses his ideas in a vivid and forceful style *Fantasies of Salvation* is an indispensable book for both academic and nonacademic readers who wish to understand the forces shaping one of the world's most important and unpredictable regions **Imaginarities of Modernity** John Rundell, 2016-12-01

This book offers a new perspective on the issue of modernity through a series of interconnected essays Drawing centrally on the works of Castoriadis Luhmann Heller and Lefort and in critical discussion with Weber Durkheim Simmel Adorno Habermas and Taylor the author argues that modernity is not only a unique historical creation but also a multiple one With a focus on five broad themes the problem of understanding of modernity after the decline of grand narratives the complexity of the modern condition politics especially with reference to freedom and totalitarian regimes the variety and density of modern life and the centrality of a concept of culture to social and critical theory John Rundell advances the view that modernity is not the outcome of an evolutionary process or historical development but is unique and indeterminate as are the constitutive

dimensions that can be identified as modern There are then different modernities A rigorous engagement with a range of prominent and contemporary social theorists Imaginaries of Modernity casts new light on the significance of understanding the multidimensional character of modernity and the plurality of its forms beyond the conventional paradigms associated with only the West As such it will appeal to scholars of social theory critical theory sociology and philosophy concerned with questions of culture politics and modernity *The Enigma of Justice* Claire Nyblom,2023-03-20 The Enigma of Justice Freedom and Morality in the Work of Immanuel Kant G W F Hegel Agnes Heller and Axel Honneth offers a novel perspective on the idea of justice Claire Nyblom argues that justice is a cultural and historical constant routinely summoned as if it were a foundational concept to legitimate or challenge social arrangements Instead justice is characterized by a plurality of theories containing regulative and critical dimensions that are in tension Nyblom argues that the categorical imperative can be positioned as a strong evaluative standard that mediates plurality creating a revisable idea of justice resistant to relativism After identifying the originating architecture of Immanuel Kant and G W F Hegel the discussion engages with the work of Agnes Heller and Axel Honneth using the pivots of justice as an analytic lens focused on commonalities rather than differences This framework leads to a dialogue between Heller and Honneth that strengthens their respective positions The Enigma of Justice provides a valuable study and insight into the contemporary nature of justice The book provides a useful orientation for students and scholars interested in debates about justice and to those working in the areas of European philosophy social and political theory sociology and the law *Ágnes Heller and Hannah Arendt* Ángel Prior Olnos,Ángel Rivero,2018-09-30 This book reconstructs through texts by gnes Heller and international scholars a timely conversation between Hannah Arendt and Heller on the malaises of modernity This valuable work will be appreciated both by academics and students interested in social and political philosophy in addition to the wider public curious of intellectual history Both Arendt and Heller are great thinkers with the ability to enlighten the great moral and political problems of our time Although these two great figures belong to different generations the dialogue reconstructed here provides a fuller picture of the demise of the great totalitarian forces of the twentieth century Both Arendt and Heller in a sense accepted the burden of understanding the evils of their age It is however Heller by addressing the perennial problems of modernity posed by Arendt who makes this conversation possible illuminating the problems of this century Eurocentrism: a marxian critical realist critique Nick Hostettler,2013-05-07 The political and social structures of modernity are dominated by really eurocentric forms and relations yet the theorisation of the eurocentricity of modernity remains barely developed At the same time modern political and social theory is fundamentally eurocentric yet the critique of eurocentrism remains marginal to marxian and critical realist theory Addressing the eurocentrism of both modernity and modern theory Eurocentrism A Marxian Critical Realist Critique discloses the deeply embedded constraints it imposes on historical and social reflexivity Building on the insights of post structuralism and post colonialism Eurocentrism shows how the powerful anti eurocentric tendencies of

the marxian critique of civil society and the critical realist critique of philosophy have been misunderstood or ignored It develops the latent potential of these traditions to develop a systematically anti eurocentric approach to understanding and explaining modernity *Debating World Literature* Benedict Anderson,2004-03-17 Goethe s Weltliteratur and the cultural forms of globalization *The Troubles With Postmodernism* Stefan Morawski,2013-06-17 In this original and eye opening study Stefan Morawski sheds light on the often confused debate about postmodernism postmodernity and human values Drawing upon a wide range of evidence from the experience of everyday life in the sciences religion visual arts literature film television and contemporary music *The Troubles with Postmodernism* is an indispensable guide to our understanding and evaluation of contemporary literature *The Tragic Idea* Vassilis Lambropoulos,2013-10-10 This radical series shows how Classical ideas and material have helped to shape the modern world The interdisciplinary approach makes stimulating reading for all who welcome the challenge offered by new perspectives on Classical culture Today we attribute a tragic quality to many things works experiences values events but we forget how modern this idea is This book traces the rise of the tragic idea from early Romanticism to late Modernism Focusing on succinct major statements it maps one of the most absorbing philosophical conversations in modernity the debate about the tragic meaning of life This conversation has crossed geographical linguistic ideological and religious borders to bring thinkers together in an inquiry into the inner contradictions of liberty While originally the tragic idea stood for the conflict of freedom and necessity it gradually absorbed other irreconcilable dialectical collisions It turned tragedy from a genre into a problem for ethics aesthetics criticism classics politics anthropology and psychology to name but a few Scholars in these fields today will be fascinated to find human responsibility caught in the tragic web of modern dilemmas Classicists in particular will be intrigued by the story of how over the last two centuries tragedy has acquired a second parallel life away from the stage **Mortality, Immortality and Other Life Strategies** Zygmunt Bauman,2013-05-08 Zygmunt Bauman s new book is a brilliant exploration from a sociological point of view of the taboo subject in modern societies death and dying The book develops a new theory of the ways in which human mortality is reacted to and dealt with in social institutions and culture The hypothesis explored in the book is that the necessity of human beings to live with the constant awareness of death accounts for crucial aspects of the social organization of all known societies Two different life strategies are distinguished in respect of reactions to mortality One the modern strategy deconstructs mortality by translating the insoluble issue of death into many specific problems of health and disease which are soluble in principle The post modern strategy is one of deconstructing immortality life is transformed into a constant rehearsal of reversible death a substitution of temporary disappearance for the irrevocable termination of life This profound and provocative book will appeal to a wide audience It will also be of particular interest to students and professionals in the areas of sociology anthropology theology and philosophy
