The Ages of Two-faced Janus Tabitta Van Nouhuys,1998 This volume deals with the tracts Latin and vernacular published in the Netherlands on the comets of 1577 and 1618 Central to the book is the question of how these cometary appearances influenced the Aristotelian world view This is the first lengthy examination of the decline of Aristotelian cosmology in the Netherlands Its demonstration of the connection between cosmological and political views renders the book useful to historians of general Dutch history as well as historians of science

The Early Enlightenment in the Dutch Republic, 1650-1750 Wiep van Bunge,2003-09-01 This book contains twelve essays by prominent historians from the Netherlands Belgium and the United States on the early Enlightenment in the Dutch Republic In the wake of the increased awareness of the importance of this particular period for the European Enlightenment as a whole they focus on Cartesianism Spinozism and Empiricism the three main schools of thought that made up its philosophical profile The first part of the book highlights the academic infrastructure of the Dutch Republic and the theological response to the Radical Enlightenment The second and third parts concentrate on the philosophical and the scientific developments in the Dutch Republic from 1650 to 1750 The final part of this book deals with the international proliferation of the Dutch Radical Enlightenment and with the way in which its main protagonists have been ignored by Dutch historiography Contributors include Wiep van Bunge Andrew Fix Jonathan Israel Eric Jorink Henri Krop Wijnand Mijnhardt Han van Ruler Paul Schuurman Geert Vanpaemel Hans de Waardt Ernestine van der Wall and Michiel Wielema

A History of American Puritan Literature Kristina Bross,Abram Van Engen,2020-10-15 For generations scholars have imagined American puritans as religious enthusiasts fleeing persecution finding refuge in Massachusetts and founding America The puritans have been read as a product of New England and the origin of American exceptionalism This History challenges the usual understanding of American puritans offering new ways of reading their history and their literary culture Together an international team of authors make clear that puritan America cannot be thought of apart from Native America and that its literature is also grounded in Britain Europe North America the

Caribbean and networks that spanned the globe Each chapter focuses on a single place method idea or context to read familiar texts anew and to introduce forgotten or neglected voices and writings A History of American Puritan Literature is a collaborative effort to create not a singular literary history but a series of interlocked new histories of American puritan literature *Comets, Popular Culture, and the Birth of Modern Cosmology* Sara Schechner Genuth,2021-03-09 In a lively investigation into the boundaries between popular culture and early modern science Sara Schechner presents a case study that challenges the view that rationalism was at odds with popular belief in the development of scientific theories Schechner Genuth delineates the evolution of people s understanding of comets showing that until the seventeenth century all members of society dreaded comets as heaven sent portents of plague flood civil disorder and other calamities Although these beliefs became spurned as vulgar superstitions by the elite before the end of the century she shows that they were nonetheless absorbed into the science of Newton and Halley contributing to their theories in subtle yet profound ways Schechner weaves together many strands of thought views of comets as signs and causes of social and physical changes vigilance toward monsters and prodigies as indicators of God s will Christian eschatology scientific interpretations of Scripture astrological prognostication and political propaganda and celestial mechanics and astrophysics This exploration of the interplay between high and low beliefs about nature leads to the conclusion that popular and long held views of comets as divine signs were not overturned by astronomical discoveries Indeed they became part of the foundation on which modern cosmology was built

The Secularization of Early Modern England Charles John Sommerville,1992 This study overcomes the ambiguity and daunting scale of the subject of secularization by using the insights of anthropology and sociology and by examining an earlier period than usually considered Concentrating not only on a decline of religious belief which is the last aspect of secularization this study shows that a transformation of England s cultural grammar had to precede that loosening of belief and that this was largely accomplished between 1500 and 1700 Only when definitions of space and time changed and language and technology were transformed as well as art and play could a secular world view be sustained As aspects of daily life became divorced from religious values and controls religious culture was supplanted by religious faith a reasoned rather than an unquestioned belief in the supernatural Sommerville shows that this process was more political and theological than economic or social
