Reclaiming the Great World House Lewis V. Baldwin, Vicki L. Crawford, 2019 Reclaiming the Great World House in the 21st Century Cross Disciplinary Explorations of the Vision of Martin Luther King Jr does just that Established and emerging scholars explore Martin Luther King Jr's global vision and his lasting relevance to a globalized rights culture The editors further explain that this edited collection looks at King afresh in his own historical context while also refocusing his legacy of ideas and social praxis in broader directions for today and tomorrow Employing King's metaphor of the great world house with major attention to racism poverty and war or what he called the evil triumvirate the focus is on King's appraisal of and approach to the global human struggle in the 1950s and 60s and on the extent to which his social witness and praxis takes on new hues and pertinence not only in the ongoing struggles against racism poverty and economic injustice and violence and human destruction but also in the mounting efforts to eliminate problems such as sexism homophobia and religious bigotry and intolerance from the global landscape The conclusion is that King's ideas and models of social protest are not only alive but also growing in vitality and popularity in the 21st century especially as humans worldwide are struggling daily with the lingering antiquated thinking and behavior around race and ethnicity the widening gap between the haves and the have nots the mounting cycles of violence torture and terrorism and the frustrating and growing chasms resulting from religious pluralism and the subordination and marginalization of certain sectors of the human family based on gender and sexuality

Free Will Richard Wilson, 2016-05-16 Free Will Art and power on Shakespeare's stage is a study of theatre and sovereignty that situates Shakespeare's plays in the contraflow between two absolutisms of early modern England the aesthetic and the political Starting from the dramatist's cringing relations with his princely patrons Richard Wilson considers the ways in which this bending author identifies freedom in failure and power in weakness by staging the endgames of a sovereignty that begs to be set free from itself The arc of Shakespeare's career becomes in this comprehensive new interpretation a sustained resistance to both the institutions of sacred kingship and literary autonomy that were emerging in his time In a sequence of close material readings Free Will shows how the plays instead turn command performances into celebrations of an art without sovereignty which might give delight but hurt not and leave not a rack behind Free Will is a profound rereading of Shakespeare art and power that will contribute to thinking not only about the plays but also about aesthetics modernity sovereignty and violence

Scholarly studies of Chinese culture history and society both within and outside of China generally pay little attention to leisure entertainment and amusement though it has long been known that this aspect of life gives a deep understanding of the psyche and soul and the hopes and fears of a person Leisure is a less coerced upon mandatory human conduct than work certainly leisurely conduct is more voluntary expressive and creative But when seen as human behaviour leisure and entertainment cannot be separated from history heritage ethnicity the community family and kin rituals and customs thus a collective activity and its constraints on the person This book examines a variety of genre of Chinese entertainment from singing clubs Cantonese opera and film to Chinese rock and tourism Though formally voluntary Chinese entertainment when entangled with ethnicity heritage and history is ironically a site of both enjoyment and struggle both pleasure and suffering This book was originally published as a special issue of Visual Anthropology *Beyond the Neon Lights* Hanchao
