## **The Grass Roots Press Americas Community Newspapers:**

*The Grass Roots Press* John Cameron Sim, 1979      *The Grass Roots Press* John Cameron Sim, 1969 This book examines weekly newspapers and their role in the past and present provides a prognosis for the future and evaluates the community press as a social instrument      *Black Newspapers and America's War for Democracy, 1914-1920* William G. Jordan, 2003-01-14 During World War I the publishers of America's crusading black newspapers faced a difficult dilemma Would it be better to advance the interests of African Americans by affirming their patriotism and offering support of President Wilson's war for democracy in Europe or should they demand that the government take concrete steps to stop the lynching segregation and disfranchisement of blacks at home as a condition of their participation in the war This study of their efforts to resolve that dilemma offers important insights into the nature of black protest race relations and the role of the press in a republican system William Jordan shows that before during and after the war the black press engaged in a delicate and dangerous dance with the federal government and white America at times making demands or holding firm sometimes pledging loyalty occasionally giving in But although others have argued that the black press compromised too much Jordan demonstrates that given the circumstances its strategic combination of protest and accommodation was remarkably effective While resisting persistent threats of censorship the black press consistently worked at educating America about the need for racial justice      *Foundations of Community Journalism* Bill Reader, John A. Hatcher, 2012 This is the first and only book to focus on how to understand and conduct research in this ever increasing field      *The Black Panther Party (reconsidered)* Charles Earl Jones, 1998 This new collection of essays contributed by scholars and former Panthers is a ground breaking work that offers thought provoking and pertinent observations about the many facets of the Party By placing the perspectives of participants and scholars side by side Dr Jones presents an insider view and initiates a vital dialogue that is absent from most historical studies      **Truth in Publishing** Linda Lawson, 1993 The Newspaper Publicity Act passed in 1912 is still in effect and requires commercial newspapers and magazines using the preferential second class mail rate to identify their owners and investors and to label advertisements that resemble news stories or editorials These publications are also required to disclose circulation data along with their ownership statements In part 1 Linda Lawson documents the press's inner workings including its excesses and abuses as it evolved from a collection of small businesses in the mid 1800s to an established commercial institution of the twentieth century Large urban newspapers challenged small rural papers at the same time burgeoning popular magazines and trade journals competed fiercely with every other type of publication for advertisers and readers The regulatory actions brought about by these divisions within the industry are treated in part 2      **The Supreme Court and the Bicentennial** William Orville Douglas, 1978 In his provocative lectures at Fairleigh Dickinson University during the Bicentennial celebration Justice Douglas discussed the philosophy of the First Amendment the problems of individual freedom in American society and the contribution of the

Supreme Court of the United States to the protection of this freedom      **American Newspapers in the 1970s** Ernest C. Hynds, 1975 A variation of two tales from the Brothers Grimm in which four orphaned sisters disguise themselves as men to go out in the world and learn a trade      **Media Decentralization** DÄñ KaspÄ®, Dan Caspi offers a comprehensive introduction to the Israeli mass media and a fresh theoretical look at the role and function of a free press in a democratic society Two major issues underlie this study patterned after the pioneering work of Morris Janowitz on the community press in the United States relations between social and communications systems and reciprocal relations among various mass media Caspi s primary concern is to determine whether the recent flourishing of a local press in the form of weekly tabloids sold or distributed free throughout their respective cities reflects and in turn contributes to a process of social and political decentralization The Israeli audience thirsts for information The nationwide mass media developed in the shadow of a centralist political system is rigid and inflexible downplaying the news value of local events and attending only to Israel s acutely felt security and economic problems Hence there is a burgeoning of over a hundred local newspapers to fill the need for a more intimate press Contents Media Decentralization in a Centralized System Some General Trends and a Communication Model The Daily Press in Israel The Development of the Local Press Institutional Characteristics Personnel Characteristics Functional Characteristics The Struggle between the Local and Nationwide Press The Inception of the Local Press in Four Major Cities Jerusalem Tel Aviv Haifa and Beersheba Public Support Political Approaches      **Shaping History** Helen Geracimos Chapin, 1996-07-01 Just a decade after the first printing press arrived in Honolulu in 1820 American Protestant missionaries produced the first newspaper in the islands More than a thousand daily weekly or monthly papers in nine different languages have appeared since then Today they are often considered a secondary source of information but in their heyday Hawai i s newspapers formed one of the most diversified vigorous and influential presses in the world In this original and timely work Helen Geracimos Chapin charts the role Hawai i s newspapers played in shaping major historic events in the islands and how the rise of the newspaper abetted the rise of American influence in Hawai i Shaping History is based on a wide selection of written and oral sources including extensive interviews with journalists and others working in the newspaper industry Students of journalism and Hawaiian history will find this comprehensive history of Hawai i s newspapers especially valuable      **Media Bias, Perspective, and State Repression** Christian Davenport, 2010 This book examines information reported within the media regarding the interaction between the Black Panther Party and government agents in the Bay Area of California 1967 1973 Christian Davenport argues that the geographic locale and political orientation of the newspaper influences how specific details are reported including who starts and ends the conflict who the Black Panthers target government or non government actors and which part of the government responds the police or court Specifically proximate and government oriented sources provide one assessment of events whereas proximate and dissident oriented sources have another both converge on specific aspects of the conflict The methodological implications of the study

are clear Davenport's findings prove that in order to understand contentious events it is crucial to understand who collects or distributes the information in order to comprehend who reportedly does what to whom as well as why Exploring Mass Media for A Changing World Ray A Hiebert, 2017-10-23 Beautifully written and class tested Exploring Mass Media for a Changing World provides a comprehensive but modestly priced text around which instructors can develop a customized teaching package Written for introductory courses it covers essential information students need in order to understand the media the mass communication process and the role of media in society It summarizes basic generally agreed upon principles theories significant historical events and essential facts but does so in a tightly written readable style Taken together this information can be thought of as a minimum repertoire that all citizens of the information age need in order to become literate consumers and users of mass communication Features include Historical Framework For ease of comprehension media processes and individual media are placed in historical context to show their technological evolution and the effects of those changes on society Organization The first seven chapters deal with the evolution of communication theories and processes common to all media The next five deal with specific media in the chronological order in which they became mass media Chapters 13 and 14 introduce two non media institutions advertising and public relations whose exploration is essential in order to understand how mass media functions in our society Finally chapter 15 returns to the theme of technological evolution and its effects on society with an in depth discussion of the internet Flexibility Because it is concise affordable and comprehensive it can be used either as a stand alone text in mass media courses or as part of an instructional package in courses where mass communication is one of several major units Themes The following themes are introduced early and carried throughout a the evolution of media technology and its effects on society b the global and culture bound characteristics of mass media and c the need for media literacy in the 21st century Supplements An accompanying instructor's manual begins with a chapter length essay on teaching the mass media course then offers the following items for each chapter topical outline and key vocabulary key ideas to be emphasized and pitfalls to be avoided discussion questions objective and essay test items and both print and nonprint resources for further study *Fiction and the American Literary Marketplace* Charles Johanningsmeier, 2002-07-04 Conventional literary history has virtually ignored the role of newspaper syndicates in publishing some of the most famous nineteenth century writers Stephen Crane Henry James Rudyard Kipling Robert Louis Stevenson and Mark Twain were among those who offered their early fiction to Syndicates firms which subsequently sold the work to newspapers across America for simultaneous first time publication This newly decentralised process profoundly affected not only the economics of publishing but also the relationship between authors texts and readers In the first full length study of this publishing phenomenon Charles Johanningsmeier evaluates the unique site of interaction syndicates held between readers and texts **Catalog of Copyright Entries. **News with a View** Burton St. John III, Kirsten A. Johnson, 2014-01-10 Modern mainstream journalism faces a very real disturbance of its foundational premise that credible news is gathered and articulated from an objective stance This volume offers new examinations of how the traditional notion of objectivity is changing as professional journalists grapple with a rapidly evolving news terrain one that has become increasingly crowded by those with no journalistic credentials Examining historical antecedents current dilemmas international aspects and theoretical considerations contributors make the case that the journalist s impulse to hold onto objectivity and to ignore the increasing subjectivities to which citizens are attuned actually contributes to the news media s disconnect from today s news consumer Revealing how traditional journalism needs to incorporate post objective stances these essays stimulate further thought and conversation about news with a view in both theory and practice
