The Great Departure:

The Great Departure: Mass Migration from Eastern Europe and the Making of the Free World Tara Zahra, 2016-03-21
Zahra handles this immensely complicated and multidimensional history with remarkable clarity and feeling Robert Levgold
Foreign Affairs Between 1846 and 1940 more than 50 million Europeans moved to the Americas in one of the largest
migrations of human history emptying out villages and irrevocably changing both their new homes and the ones they left
behind With a keen historical perspective on the most consequential social phenomenon of the twentieth century Tara Zahra
shows how the policies that gave shape to this migration provided the precedent for future events such as the Holocaust the
closing of the Iron Curtain and the tragedies of ethnic cleansing In the epilogue she places the current refugee crisis within
the longer history of migration The Origins of the Modern World Robert Marks, 2007 Robert B **The Great Departure**
Daniel Malloy Smith, 1965 **A History of Buddhism in India and Tibet** Dan Martin, 2022-07-19 The first complete
English translation of an important thirteenth century history that sheds light on Tibet's imperial past and on the
transmission of the Buddhadharma into Central Asia Translated here into English for the first time in its entirety by perhaps
the foremost living expert on Tibetan histories this engaging translation along with its ample annotation is a must have for
serious readers and scholars of Buddhist studies In this history discover the first extensive biography of the Buddha
composed in the Tibetan language along with an account of subsequent Indian Buddhist history particularly the writing of
Buddhist treatises The story then moves to Tibet with an emphasis on the rulers of the Tibetan empire the translators of
Buddhist texts and the lineages that transmitted doctrine and meditative practice It concludes with an account of the demise
of the monastic order followed by a look forward to the advent of the future Buddha Maitreya The composer of this
remarkably ecumenical Buddhist history compiled some of the most important early sources on the Tibetan imperial period
preserved in his time and his work may be the best record we have of those sources today Dan Martin has rendered the
richness of this history an accessible part of the world's literary heritage *The Destroyed World and the Guilty Self* David
P Levine, Matthew H. Bowker, 2019-06-01 David Levine and Mathew Bowker explore cultural and political trends organized
around the conviction that the world we live in is a dangerous place to be that it is dominated by hate and destruction and
that in it our primary task is to survive by carrying on a life long struggle against hostile forces Their method involves the
analysis of public fantasies to reveal their hidden meanings The central fantasy explored is the fantasy of a destroyed world
which appears most commonly in the form of post apocalyptic and dystopian narratives Their special concern in the book is
with defenses against the painful consequences of the dominance of this fantasy in the inner world especially defenses
involving the use of guilt to assure that something can be done to repair the destroyed world Topics explored include the
formation of internal fortresses and their projection into the world outside forms of guilt including bystander guilt and
survivor guilt the loss of and search for home and manic forms of reparation *Hinduism* Panikkar, Raimon, 2016-12-15

Regimes of Mobility Noel Salazar, Nina Glick Schiller, 2016-08-25 Mobility studies emerged from a postmodern moment in which global flows of capital people and objects were increasingly noted and celebrated Within this new scholarship categories of migrancy are all seen through the same analytical lens This book builds on as well as critiques past and present studies of mobility In so doing it challenges conceptual orientations built on binaries of difference that have impeded analyses of the interrelationship between mobility and stasis These include methodological nationalism which counterpoises concepts of internal and international movement and native and foreigner and consequently normalises stasis Instead the book proposes a regimes of mobility framework that addresses the relationships between mobility and immobility localisation and transnational connection experiences and imaginaries of migration and rootedness and cosmopolitan openness Within this framework and its emphasis on social fields of differential power the various contributors to this collection ethnographically explore the disparities inequalities racialised representations and national mythscapes that facilitate and legitimate differential mobility and fixity Although they examine nation state building processes the anthropological analysis is not confined by national boundaries This book was originally published as a special issue of the Journal of Ethnic and Migration Studies

The Origins of the Modern World Robert B. Marks,2024-01-02 This clearly written and engrossing book presents a global narrative of the origins of the modern world from 1400 to the present

Unlike most studies which assume that the rise of the West is the story of the coming of the modern world this history drawing upon new scholarship on Asia Africa and the New World and upon the maturing field of environmental history constructs a story in which those parts of the world play major roles including their impacts on the environment Robert B Marks defines the modern world as one marked by industry the nation state interstate warfare a large and growing gap between the wealthiest and poorest parts of the world increasing inequality within the wealthiest industrialized countries and an escape from the environmental constraints of the biological old regime He explains its origins by emphasizing contingencies such as the conquest of the New World the broad comparability of the most advanced regions in China India and Europe the reasons why England was able to escape from common ecological constraints facing all of those regions by the end of the eighteenth century a conjuncture of human and natural forces that solidified a gap between the industrialized and non industrialized parts of the world the mounting environmental crisis that defines the modern world and the ways in which the forces of globalization stress the economic and political underpinnings of the modern world Now in a new edition that brings the saga of the modern world to the present in an environmental context the book considers how and why the United States emerged as a world power in the twentieth century and became the sole superpower by the twenty first century and why the changed relationship of humans to the environment likely will be the hallmark of the modern era the Anthropocene Once again arguing that the US rise to global hegemon was contingent not inevitable Marks also points to the resurgence of Asia and the vastly changed relationship of humans to the environment that may in the long run overshadow any political and economic milestones of the past hundred years

United States Foreign Policy in the Interwar Period, 1918-1941 Benjamin Rhodes, 2001-07-30 This study presents an in depth survey of the principal policies and personalities of American diplomacy of the era together with a discussion of recent historiography in the field For two decades between the two world wars America pursued a foreign policy course that was according to Rhodes shortsighted and self centered Believing World War I had been an aberration Americans na Dively signed disarmament treaties and a pact renouncing war while eschewing such inconveniences as enforcement machinery or participation in international organizations Smug moral superiority a penurious desire to save money and na vet ultimately led to the neglect of America s armed forces even as potential rivals were arming themselves to the teeth In contrast to the dynamic drive of the New Deal in domestic policy foreign policy under Franklin D Roosevelt was often characterized by a lack of clarity and reflecting Roosevelt s fear of isolationists and pacifists by presidential explanations that were frequently evasive incomplete or deliberately misleading One of the period s few successes was the bipartisan Good Neighbor policy which proved far sighted commercially and strategically Rhodes praises Cordell Hull as the outstanding secretary of state of the time whose judgment was often more on target than others in the State Department and the executive branch

Image Problems Robert Daniel DeCaroli, 2015-03-01 This deft and lively study by Robert DeCaroli explores the questions of how and why the earliest

verifiable images of the historical Buddha were created In so doing DeCaroli steps away from old questions of where and when to present the history of Buddhism s relationship with figural art as an ongoing set of negotiations within the Buddhist community and in society at large By comparing innovations in Brahmanical Jain and royal artistic practice DeCaroli examines why no image of the Buddha was made until approximately five hundred years after his death and what changed in the centuries surrounding the start of the Common Era to suddenly make those images desirable and acceptable The textual and archaeological sources reveal that figural likenesses held special importance in South Asia and were seen as having a significant amount of agency and power Anxiety over image use extended well beyond the Buddhists helping to explain why images of Vedic gods Jain teachers and political elites also are absent from the material record of the centuries BCE DeCaroli shows how the emergence of powerful dynasties and rulers who benefited from novel modes of visual authority was at the root of the changes in attitude toward figural images However as DeCaroli demonstrates a strain of unease with figural art persisted even after a tradition of images of the Buddha had become established

Yasodhara and the Buddha Vanessa R. Sasson,2020-12-10 By combining the spirit of fiction with the fabulism of Indian mythology and in depth academic research Vanessa R Sasson shares the evocative story of the Buddha from the perspective of a forgotten woman Yasodhara the Buddha s wife Although often marginalized Yasodhara s narrative here comes to life Written with a strong feminist voice we encounter Yasodhara as a fiercely independent passionate and resilient individual We witness her joys and sorrows her expectations and frustrations her fairy tale wedding and her overwhelming devastation at the departure of her beloved It is through her eyes that we witness Siddhattha s slow transformation from a sheltered prince to a deeply sensitive young man On the way we see how the gods watch over the future Buddha from the clouds how the king and his ministers try to keep the suffering of the world from him and how he eventually renounces the throne his wife and newly born son to seek enlightenment Along with a foreword from Wendy Doniger the book includes a scholarly introduction to Yasodhara s narrative and offers extensive notes along with study questions to help readers navigate the traditional literature in a new way making this an essential book for anyone wanting to learn about Buddhist narratives

Destination Elsewhere Ruth Balint,2021-11-15 In this unique history from below Destination Elsewhere chronicles encounters between displaced persons in Europe and the Allied agencies who were tasked with caring for them after the Second World War The struggle to define who was a displaced person and who was not was a subject of intense debate and deliberation among humanitarians international law experts immigration planners and governments What has not adequately been recognized is that displaced persons also actively participated in this emerging refugee conversation Displaced persons endured war displacement and resettlement but these experiences were not defined by passivity and speechlessness Instead they spoke back creating a dialogue that in turn helped shape the modern idea of the refugee As Ruth Balint shows what made a good or convincing story at the time tells us much about the

circulation of ideas about the war the Holocaust and the Jews Those stories depict the emerging moral and legal distinction between economic migrants and political refugees They tell us about the experiences of women and children in the face of new psychological and political interventions into the family Stories from displaced persons also tell us something about the enduring myth of the new world for people who longed to leave the old Balint focuses on those persons whose storytelling skills became a major strategy for survival and escape out of the displaced persons camps and out of the Europe Their stories are brought to life in *Destination Elsewhere* alongside a new history of immigration statelessness and the institution of the postwar family

The Buddha Vanessa R. Sasson, Kristin Scheible, 2023
