Domenech, 2022-08-04 Reprint of the original first published in 1860      **Building Fjords in the Great Deserts** James Michael Matthew, 2024-05-30 After the United Nations held its 2023 Climate Change Conference it became vogue to label the fossil fuels industry as the elephant in the room But it s really just the tiny baby elephant The real elephant in the room the one that no one wants to acknowledge let alone talk about is that net zero carbon and sustainability will never work to defeat climate change It s also not practical as it would result in the destruction of economies and force people to live lives they do not want to live Even if it could be achieved it would not fix rising ocean coastlines biodiversity loss desertification and climate change James Michael Matthew the founder and chairman of JM Prophecies Corp and the author of numerous books on how to defeat climate change proposes the perfect solution in this book building fjords in the great deserts His plan to defeat climate change begins with pumping ocean water into salt basins that already exist in deserts and arid regions around the world Consider what s at stake and find out how the author s strategy could be implemented step by step in this groundbreaking work      *Travels in the Great Desert* James Richardson, 2013-10-15 First published in 1970 Part of a collection on African Studies this text is a narrative of the personal adventures of the author during a tour of nine months through the desert amongst the Touaricks and other tribes of the Saharan people and includes a description of the oases and cities of Ghat Ghadames and Mourzuk This is Volume I of two      **Travels in the Great Desert of Sahara, in the Years of 1845 and 1846** James Richardson, 1848      *Travels in the Great Desert of Sahara in the Years of 1845 & 1846* James Richardson, 1848      *Great Desert Explorers* Andrew Goudie, 2016-12-01 Desert exploration like climbing Everest or polar expeditions is not for the faint hearted and many of the vivid tales within this fascinating biographical history end in tragedy However the informative and absorbing descriptions of the extraordinary journeys challenges and achievements of these intrepid figures are captivating They risked their lives variously for good old fashioned epic adventure solitude fame the answer to mythical questions and some were even spies They experienced fear excitement and hardship in their journeys into the unknown There are many books on exploration but remarkably few on desert exploration Moreover some of the great desert explorers of the last three hundred years are now very little remembered or appreciated in comparison say with those who ventured to the poles climbed Everest or sought the source of the Nile Yet crossing unknown deserts is no less challenging This volume finally brings these Great Desert Explorers into the limelight with short illustrated biographies of around 60 of the most interesting intrepid and important explorers of the world s greatest deserts There is also a brief introduction to each desert region The many original quotations illustrations and maps contemporary figures as well as plates of a range of desert landscapes make this a colourful lively and informative read      **A Sonoran Desert Scrapbook** William J.
