The Great Republic by the Master Historians ... Charles Morris, Oliver Herbrand Gordon Leigh, 1902 *The Great Republic* Charles Morris, 1914 *Why I Can't Read Wallace Stegner and Other Essays* Elizabeth Cook-Lynn, 1996-09-01 This provocative collection of essays reveals the passionate voice of a Native American feminist intellectual Elizabeth Cook Lynn a poet and literary scholar grapples with issues she encountered as a Native American in academia She asks questions of critical importance to tribal people who is telling their stories where does cultural authority lie and most important how is it possible to develop an authentic tribal literary voice within the academic community In the title essay Why I Can't Read Wallace Stegner Cook Lynn objects to Stegner's portrayal of the American West in his fiction contending that no other author has been more successful in serving the interests of the nation's fantasy about itself When Stegner writes that Western history sort of stopped at 1890 and when he claims the American West as his native land Cook Lynn argues he negates the whole past present and future of the native peoples of the continent Her other essays include discussion of such Native American writers as Michael Dorris Ray Young Bear and N Scott Momaday the importance of a tribal voice in academia the risks to American Indian women in current law practices the future of Indian Nationalism and the defense of the land Cook Lynn emphasizes that her essays move beyond the narrowly autobiographical not just about gender and power not just focused on multiculturalism and diversity but are about intellectual and political issues that engage readers and writers in Native American studies Studying the Indian Cook Lynn reminds us is not just an academic exercise but a matter of survival for the lifeways of tribal peoples Her goal in these essays is to open conversations that can make tribal life and academic life more responsive to one another *The Book News Monthly*, 1907 *The School Weekly*, 1906 **Making the American Team** Mark Dyreson, 2024-04-22 Sport dominates television and the mass media Politics and business are a bustle with sports metaphors Endorsements by athletes sell us products Home run slam dunk and the rest of the vocabulary of sport color daily conversation Even in times of crisis and emergency the media reports the scores and highlights Marky Dyreson delves into how our obsession with sport came into being with a close look at coverage of the Olympic Games between 1896 and 1912 How people reported and consumed information on the Olympics offers insight into how sport entered the heart of American culture as part of an impetus for social reform Political leaders came to believe in the power of sport to revitalize the republican experiment Sport could instill a new sense of national identity that would forge a new sense of community and a healthy political order while at the same time linking America's intellectual and power elite with the experiences of the masses *Inside the Spanish-American War* James M. McCaffrey, 2009-04-22 This is the story of the Spanish American War told not from the perspective of generals policy makers or politicians but from that of the soldiers sailors and marines in the field and the reporters who covered their efforts Concentration on the daily lives of these people provides insight into the often overlooked facets of a soldier's life detailing their training and interaction with weaponry their food clothing and
