The Kodly Way To Music 1 :

Zoltan Kodaly's World of Music Anna Dalos, 2020-09-08 Hungarian composer and musician Zoltan Kodaly 1882-1967 is best known for his pedagogical system the Kodaly Method which has been influential in the development of music education around the world. Author Anna Dalos considers for the first time in publication Kodaly's career beyond the classroom and provides a comprehensive assessment of his works as a composer. A noted collector of Hungarian folk music, Kodaly adapted the traditional heritage musics in his own compositions, greatly influencing the work of his contemporaries Béla Bartók. Highlighting Kodaly's major music experiences, Dalos shows how his musical works were also inspired by Brahms, Wagner, Debussy, Palestrina, and Bach. Set against the backdrop of various oppressive regimes of twentieth-century Europe, this study of Kodaly's career also explores decisive extramusical impulses such as his bitter experiences of World War I, Kodaly's reception of classical antiquity, and his interpretation of the male and female roles in his music. Written by the leading Kodaly expert, this impressive work of historical and musical insight provides a timely and much-needed English language treatment of the twentieth-century composer. *Kodaly in the Kindergarten Classroom* Micheal Houlahan, Philip Tacka, 2015-03-06 Since the mid-twentieth century, Zoltan Kodaly's child-developmental philosophy for teaching music has had significant positive impact on music education around the world and is now at the core of music teaching in the United States and other English-speaking countries. *Kodaly in the Kindergarten Classroom* is the first comprehensive handbook to update and apply the Kodaly concepts to teaching music in early childhood classrooms. *Kodaly in the Kindergarten Classroom* provides teachers with a step-by-step road map for developing children's performance, creative movement, and literacy skills in an organic and thoughtful manner. Through six years of field testing with music kindergarten teachers in the United States, Great Britain, and Hungary, the home country of Zoltan Kodaly, authors Micheal Houlahan and Philip Tacka have developed a methodology specifically for 21st-century classrooms. Houlahan and Tacka use the latest research findings in cognition and perception to create a system not only appropriate for kindergarteners' particular developmental stages but also one which integrates vertically between kindergarten and elementary music classes. The methods outlined in this volume encourage greater musical ability and creativity in children by teaching kindergarteners to sing, move, play instruments, and develop music literacy skills. In addition, *Kodaly in the Kindergarten Classroom* promotes critical thinking, problem solving, and collaboration skills. Although the book uses the Kodaly philosophy, its methodology has also been tested by teachers certified in Orff and Dalcroze and has proven an essential guide for teachers no matter what their personal philosophy and specific training might be. Over 100 children's books are incorporated into *Kodaly in the Kindergarten Classroom*, as well as 35 detailed lesson plans that demonstrate how music and literacy curriculum goals are transformed into tangible musical objectives. Scholarly yet practical and accessible, this volume is sure to be an essential guide for kindergarten and early childhood music teachers everywhere. *The Oxford Handbook of Philosophical and Qualitative Assessment in Music Education* David J.
