Language Policies in Education James W. Tollefson, 2002 How do language policies in education serve the interests of dominant groups within societies How do policies marginalize some students while granting privilege to others How do language policies in schools create inequalities among learners How can schools further the educational social and economic interests of linguistic minorities These questions the focus of the chapters in this book are at the heart of fundamental debates about the role of schools in society the links between language policies and inequalities of class region and ethnicity nationality and conflicts between linguistic minorities and mainstream populations The connections between language policies and inequality are examined as well as successful efforts to use language policies in education to assert the social and linguistic rights of language minorities All of the chapters are original and substantial contributions to the study of language policy and exemplify major theories and research methods in the field The case studies are international in scope including cutting edge analyses of important language policy debates in North America Australia Eastern Europe Africa East Asia South Asia and
