L. Hammond, 2015-07-21 Excerpt from The Skilled Labourer 1760 1832 In the Town Labourer the writers tried to give a picture of the social conditions created by the great changes of the Industrial Revolution. They described the general character of the new life of town and factory, the ideas and difficulties of the class in power and the outlook and the temper of the workers. This book treats the same period from a different aspect. Its aim is to present the detailed history of particular bodies of skilled workers during those changes. It would be impossible to cover all industries in a book planned on the scale of this volume; the industries chosen are those for which the fullest records were available. The writers owe a substantial debt to Professor George Unwin who has helped them liberally from his large store of special knowledge of industrial history. They are under obligations to other friends, notably Mr A Clutton Brock, Mr G D H Cole, Professor L T Hobhouse, Mr R H Tawney and Professor Graham Wallas. Mr G W Daniels has been kind enough to make some valuable suggestions on the subject of the early history of the cotton trade on which he speaks with special authority, and Mr T W Hanson of Halifax who is steeped in the exciting history of the West Riding has given important help for the chapter on the Yorkshire Luddites. The Appendix is due to Mr A G C Lloyd of Capetown. The writers published in the Town Labourer a list of their principal authorities. It seems unnecessary to reproduce that list, but a few books on which they have drawn more specially for this volume should be mentioned.
