Skin Slave:

From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology Amina Mire, 2025-03-15

From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology takes historically grounded analysis and delineates how the skin whitening industry has become a contemporary site that facilitates commodification of unregulated whiteness on a global scale Amina Mire investigates the extent to which antebellum South anti miscegenation racial purity laws facilitated unofficial interracial reproduction of light skinned slaves resulting primarily from a systemic rape of enslaved Black women by white slave masters This is because while different in terms of historical context what the unregulated globalization of the skin whitening industry and the antebellum unofficial reproduction and trade in light skinned slaves have in common is the unofficial and unregulated nature of the accumulation of economic symbolic and aesthetic investment in whiteness The central argument of this book is that commodifiable whiteness is a form of racial capital with profound health social and political implications Consequently as long as whiteness remains a salient ideological force that shapes global understanding of standards of beauty and desirability commodification of whiteness will continue to further entrench systems of racism and colorism The author argues this requires taking seriously the resilience and malleability of white supremacy and its ability to rebrand itself endlessly

Black and Slave David M. Goldenberg, 2017-05-22
Studies of the Curse of Ham the belief that the Bible consigned blacks to everlasting servitude confuse and conflate two separate origins stories etiologies one of black skin and the other of black slavery This work unravels the etiologies and shows how the Curse an etiology of black slavery evolved from an earlier etiology explaining the existence of dark skinned people We see when where why and how an original mythic tale of black origins morphed into a story of the origins of black slavery and how in turn the second then supplanted the first as an explanation for black skin In the process we see how formulations of the Curse changed over time depending on the historical and social contexts reflecting and refashioning the way blackness and blacks were perceived In particular two significant developments are uncovered First a curse of slavery originally said to affect various dark skinned peoples was eventually applied most commonly to black Africans Second blackness originally incidental to the curse in time became part of the curse itself Dark skin now became an intentional marker of servitude the visible sign of the blacks degradation and in the process deprecating black skin itself

The Truth about Racism Dr. Philip G. Asante, 2014-02 Dr Asante uncovers the truth about racism in this revealing and compelling book He explains where racist ideology has come from and the reasons why some people are racist by exploring the contributions from both Christianity and the theory of Evolution Learn how the Bible was deliberately misinterpreted and abused in order to justify slavery segregation colonialism and apartheid Better understand what legacy these institutions have left on people Discover how Darwin's theory of evolution led to the construction of the concept of different races and the resultant development of racial superiority and inferiority based solely on skin coloration This is a well written and well researched book that truly dissects the distressing and often uncomfortable subject of racism It tugs at the heart strings of humanity and cries out for unity Some will find the book controversial and uncomfortable while others will find it liberating and supportive It will challenge your very conscience and offer a revealing look into the development of racism

Engerman, David Richardson, 2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in The Cambridge World History of Slavery covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars acknowledged as leaders in their respective fields The volume demonstrates the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people

Same Family, Different Colors Lori L. Tharps, 2017-10-03 Weaving together personal stories history and analysis Same Family Different Colors explores the myriad ways skin color politics affect family dynamics in the United States Colorism and color bias the preference for or presumed superiority of people based on the color of their skin is a pervasive and damaging but rarely openly discussed phenomenon In this unprecedented book Lori L Tharps explores the issue in African American Latino Asian American and mixed race families

and communities by weaving together personal stories history and analysis The result is a compelling portrait of the myriad ways skin color politics affect family dynamics in the United States Tharps the mother of three mixed race children with three distinct skin colors uses her own family as a starting point to investigate how skin color difference is dealt with Her journey takes her across the country and into the lives of dozens of diverse individuals all of whom have grappled with skin color politics and speak candidly about experiences that sometimes scarred them From a Latina woman who was told she couldn't be in her best friend's wedding photos because her dark skin would spoil the pictures to a light skinned African American man who spent his entire childhood trying to be Black Tharps illuminates the complex and multifaceted ways that colorism affects our self esteem and shapes our lives and relationships Along with intimate and revealing stories Tharps adds a historical overview and a contemporary cultural critique to contextualize how various communities and individuals navigate skin color politics Groundbreaking and urgent *Same Family Different Colors* is a solution seeking journey to the heart of identity politics so that this more subtle cousin to racism in the author's words will be exposed and confronted *Studies on Slavery in Brazilian and African History and Literature* Roberto Hofmeister-Pich,Stephan Conermann,2025-10-14 Historically Latin American political entities were structured by different forms of slave labor that until the 19th century depended on transatlantic slave trade from Africa to the Americas In this volume scholars from Brazil Germany and Africa characterize different forms of serfdom in colonial times picture slavery based societies and explore aspects of dependency relations that emerged in the aftermath of abolition in Brazil and Africa *Black Morocco* Chouki El Hamel,2014-02-27 *Black Morocco A History of Slavery Race and Islam* chronicles the experiences identity and achievements of enslaved black people in Morocco from the sixteenth century to the beginning of the twentieth century Chouki El Hamel argues that we cannot rely solely on Islamic ideology as the key to explain social relations and particularly the history of black slavery in the Muslim world for this viewpoint yields an inaccurate historical record of the people institutions and social practices of slavery in Northwest Africa El Hamel focuses on black Moroccans collective experience beginning with their enslavement to serve as the loyal army of the Sultan Isma'il By the time the Sultan died in 1727 they had become a political force making and unmaking rulers well into the nineteenth century The emphasis on the political history of the black army is augmented by a close examination of the continuity of black Moroccan identity through the musical and cultural practices of the Gnawa *Critical White Studies* Richard Delgado,Jean Stefancic,1997-06-29 This work drawn from sociology law history cultural studies and literature presents an analysis of the emerging field of whiteness studies as the next step of critical race theory It investigates what it means to be white from both a nonwhite and a white perspective *Complexion Based Discriminations* Dr. Deen Dayal,2018-06-15 Complexion based discrimination is a harsh prejudice against dark skinned people by fair skinned people that has been prevalent in all countries and continents of the world This book states the unbearable traumas faced by dark skinned people such as Nelson Mandela Martin Luther Jimmy Carter Barack Obama Mahatma Gandhi Bhimrao Ambedkar

and the Dalai Lama The book is a harsh whip against the orthodox dogmas that make the lives of dark or black skinned people hell and is a healing balm to restore their stamina in the fight against people who deprive them of their rights It is an effort to strike at the root of superstitions and prejudice Worth is to be based on one's quality talent and hard work not on skin colour

What's Really Going On? Ronnie Chiles, 2011-11-23 This book reflects poor black America's human condition and cruel reality historically in this country Most poor people and people of color see enough of life's dark side to know for sure what's really going on All of the social double standards and blatant contradictions that continue to define the democratic process for most of America's poor and forgotten people of color still finds the American Dream to be a figment of

their imaginations This book is meant to show how American History is merely his story The powers that be continue to impose their will on much smaller nations decade after decade in the name of freedom and democracy Yet nothing about our might makes right preemptive strike mentalities has changed most poor Americans lifestyles If anything it has merely reduced the level of comfort and security most people in this country live in daily by heightening our nation s risk of being attacked So the fear factor continues to control what really goes on in this country from decade to decade This is why our nation will never be a genuine United States of America
