Generations of Captivity Ira Berlin, 2004-09-30 Ira Berlin traces the history of African American slavery in the United States from its beginnings in the seventeenth century to its fiery demise nearly three hundred years later Most Americans black and white have a singular vision of slavery one fixed in the mid nineteenth century when most American slaves grew cotton resided in the deep South and subscribed to Christianity Here however Berlin offers a dynamic vision a major reinterpretation in which slaves and their owners continually renegotiated the terms of captivity Slavery was thus made and remade by successive generations of Africans and African Americans who lived through settlement and adaptation plantation life economic transformations revolution forced migration war and ultimately emancipation Berlin s understanding of the processes that continually transformed the lives of slaves makes *Generations of Captivity* essential reading for anyone interested in the evolution of antebellum America Connecting the Charter Generation to the development of Atlantic society

in the seventeenth century the Plantation Generation to the reconstruction of colonial society in the eighteenth century the Revolutionary Generation to the Age of Revolutions and the Migration Generation to American expansionism in the nineteenth century Berlin integrates the history of slavery into the larger story of American life He demonstrates how enslaved black people by adapting to changing circumstances prepared for the moment when they could seize liberty and declare themselves the Freedom Generation This epic story told by a master historian provides a rich understanding of the experience of African American slaves an experience that continues to mobilize American thought and passions today

Roll, Jordan, Roll Eugene D. Genovese,1976-01-12 A testament to the power of the human spirit under conditions of extreme oppression this landmark history of slavery in the South challenged conventional views by illuminating the many forms of resistance to dehumanization that developed in slave society Displaying keen insight into the minds of both enslaved persons and slaveholders historian Eugene Genovese investigates the ways that enslaved persons forced their owners to acknowledge their humanity through culture music and religion He covers a vast range of subjects from slave weddings and funerals to language food clothing and labor and places particular emphasis on religion as both a major battleground for psychological control and a paradoxical source of spiritual strength A winner of the Bancroft Prize *Transatlantic Slave Networks* Pamela Toler,2017-07-15 Several trade routes throughout history included the trafficking of slaves Yet perhaps no routes have had such a profound impact on the lives of as many people as Trans Atlantic slave networks Just the journey alone from Africa to Europe North America and South America resulted in the deaths of more than a million enslaved Africans Trans Atlantic Slave Networks investigates the reasons for the so called triangular trade what happened to the slaves themselves and those who traded them and the lasting consequences of the trade routes **How Slaves Built America** Duchess Harris,Thomas Streissguth,2019-08 Delves into the history of how slave labor helped build the US economy and many historic structures as well as how people benefited in different ways from the practice of slavery Publisher s website *Slave Breeding* Gregory D. Smithers,2012-11-01 This book is an exploration of the idea of selective and forced slave breeding in the U S based on the collective memory and folktales of the descendants of enslaved people For over two centuries the topic of slave breeding has occupied a controversial place in the master narrative of American history From nineteenth century abolitionists to twentieth century filmmakers and artists Americans have debated whether slave owners deliberately and coercively manipulated the sexual practices and marital status of enslaved African Americans to reproduce new generations of slaves for profit In this bold and provocative book a historian investigates how African Americans have narrated remembered and represented slave breeding practices He argues that while social and economic historians have downplayed the significance of slave breeding African Americans have never been able to forget the trauma of violence and sexual coercion associated with the plantation South By placing African American histories and memories of

slave breeding within the larger context of America's history of racial and gender discrimination the author reveals how sexual exploitation was both experienced and remembered by African Americans to inform how Black Americans understand the political social and cultural nature of life in the United States This fascinating provocative work sheds much needed light on African American cultural memories the perceptions of fragile Black families and the long history of racially motivated violence against men women and children of color *Letters on the Slave-trade, Slavery, and Emancipation* George William Alexander, 1842 **Slaves, Subjects, and Subversives** Jane Landers, Barry Robinson, 2006 A comprehensive study of African slavery in the colonies of Spain and Portugal in the New World **A Historical Guide to World Slavery** Seymour Drescher, Stanley L. Slaves Without Shackles Nur Sobers-Khan,2014 This dissertation consists in a microhistorical study of the social and cultural context of slavery in the early modern Ottoman Empire and Eastern Mediterranean Using a wide selection of primary sources in Arabic Ottoman Persian and various European languages it examines the slave population recorded in the Ottoman shari a court registers 1560 1572 AD of Galata a neighbourhood of Istanbul Based on evidence from the court registers the origins of the slaves their rates of religious conversion and the nature of slave labour in Galata are examined A detailed analysis of the descriptions of slaves in the court registers and contemporary literature illuminates the cultural construct of slavery in sixteenth century Istanbul and it is argued that the contemporary discourses legal literary and pseudoscientific surrounding slavery allow us to reconstruct the Ottoman articulation of difference and sixteenth century Ottoman understandings of slavery Furthermore it is argued that the early modern Ottoman Empire encouraged the manumission and integration of skilled slaves into the urban social hierarchy the capture and enslavement of skilled individuals particularly in the context of sixteenth century Ottoman maritime expansion disposed as a method of increasing levels of Ottoman manpower and recruiting skilled labour into Ottoman elite households In addition to presenting empirical findings concerning early modern slavery gathered from the court registers this dissertation also presents the study of slavery as a framework for analysing the construction of identity in the early

modern Mediterranean and argues for a new methodological approach to reading the Ottoman court registers
