## **Smart Sanctions Targeting Economic Statecraft:**

**Smart Sanctions** David Cortright, George A. Lopez, 2002 Smart Sanctions explores the emerging concept of targeted sanctions and provides a comprehensive framework for new sanctions strategies for the 21st century It includes essays by experts and analysts from the United Nations community the European Union the United States Government and the academic community Visit our website for sample chapters [Handbook of Defense Economics](#) Todd Sandler, Keith Hartley, 2007-04-12 The second volume of the Handbook of Defense Economics addresses defense needs practices threats and policies in the modern era of globalization This new era concerns the enhanced cross border flows of all kinds e g capital and labor flows revolutionary rhetoric guerrillas and terrorists including the spillovers of benefits and costs associated with public goods and transnational externalities i e uncompensated interdependencies affecting two or more nations These ever increasing flows mean that military armaments and armies are less able to keep out security threats Thus novel defense and security barriers are needed to protect borders that are porous to terrorists pollutants political upheavals and conflicts Even increased trade and financial flows imply novel security challenges and defenses Globalization also underscores the importance of a new set of institutions e g the European Union and global governance networks and agents e g nongovernmental organizations and partnerships This volume addresses the security challenges in this age of globalization where conflicts involve novel tactics new technologies asymmetric warfare different venues and frightening weapons Volume 2 contains topics not covered in volume 1 i e civil wars peacekeeping economic sanctions the econometrics of arms races conversion peace economics and the interface of trade peace and democracy Volume 2 also revisits topics from volume 1 where there has been a significant advancement of knowledge i e conflict analysis terrorism arms races arms trade military manpower and arms industries All of the main securities concerns of today are analyzed Chapters are written by the leading contributors in the topic areas Up to date surveys on the pressing defense issues theoretical empirical and policy issues Coverage of theoretical and empirical studies of terrorism Contributions by the leading researchers in the field of defense economics **Rethinking Security Governance** Christopher Daase, Cornelius Friesendorf, 2010-05-04 This book explores the unintended consequences of security governance actions and explores how their effects can be limited Security governance describes new modes of security policy that differ from traditional approaches to national and international security While traditional security policy used to be the exclusive domain of states and aimed at military defense security governance is performed by multiple actors and is intended to create a global environment of security for states social groups and individuals By pooling the strength and expertise of states international organizations and private actors security governance is seen to provide more effective and efficient means to cope with today s security risks Generally security governance is assumed to be a good thing and the most appropriate way of coping with contemporary security problems This assumption has led scholars to neglect an important phenomenon unintended consequences While unintended consequences

do not need to be negative often they are The CIA term blowback for example refers to the phenomenon that a long nurtured group may turn against its sponsor The rise of al Qaeda which had benefited from US Cold War policies is only one example Raising awareness about unwanted and even paradoxical policy outcomes and suggesting ways of avoiding damage or limiting their scale this book will be of much interest to students of security governance risk management international security and IR Christopher Daase is Professor at the Goethe University Frankfurt and head of the research department International Organizations and International Law at the Peace Research Institute Frankfurt PRIF HSFK Cornelius Friesendorf is lecturer at the Goethe University Frankfurt and research fellow at the Peace Research Institute Frankfurt PRIF HSFK

Economic Sanctions Reconsidered: Third Edition , Complete International Law Ademola Abass,2014 Complete International Law is the only text cases and materials book on international law It is an introductory text which covers a wide range of extracts from primary and secondary materials which are combined with incisive author commentary *Elected Members of the Security Council: Lamé Ducks or Key Players?* Nico J. Schrijver,Niels M. Blokker,2020-01-13 Conventional wisdom has it that the successful functioning of the UN Security Council almost completely depends on the role played by its five permanent members and the extent to which they can agree or avoid to fundamentally disagree on the many issues on the Council's agenda But the Council also consists of ten non permanent or elected members who represent five different regions of the world and who though not vested with the right of veto play an indispensable role in Council decision making This book aims to take a closer look at that role It considers what role is foreseen for the elected members in the UN Charter how this evolved in practice and what tools they can deploy It also considers whether there are particular niches for the elected members on the Security Council such as engaging in conflict prevention taking initiatives on rule of law issues and debating the potential effects of climate change on peace and security Can elected members serve as agents of the international community and norm entrepreneurs Should their position be strengthened and if so how This collection was born out of a dynamic research seminar held at Leiden University which also drew on the experiences of former elected members This book thus offers unique insights from both practice and scholarship and is an indispensable tool for politicians diplomats academics and students alike *The Charter of the United Nations* ,2024-07-04 Since the third edition of this commentary on the Charter of the United Nations was published in 2012 the text of the Charter has not changed DL but the world has Central pillars of the international order enshrined in the UN Charter are facing serious challenges notably the prohibition of the use of force Human rights too have come under increasing pressure now also from contemporary information technology Global warming poses fundamental challenges for the world community as a whole in its effort to stabilize global ecosystems Fully updated the commentary takes up these and other developments It features new chapters on Climate Change and the Human Rights Council The commentary remains the authoritative article by article account of the legislative history interpretation and practical application of each and every Charter provision Written by a team of

distinguished scholars and practitioners this book combines academic research with the insights of practice It is an indispensable tool of reference for all those interested in the United Nations and its legal significance for the world community The Commentary will be crucial in combining solid legal foundations with new directions for the development of international law and the United Nations in the twenty first century

### **The Power and Purpose of International Law**

Mary Ellen O'Connell, 2008-08-26 The world is poised for another important transition The United States is dealing with the impact of the Afghan and Iraq wars the use of torture and secret detention Guantanamo climate change nuclear proliferation weakened international institutions and other issues related directly or indirectly to international law The world needs an accurate account of the important role of international law and The Power and Purpose of International Law seeks to provide it Mary Ellen O'Connell explains the purpose of international law and the power it has to achieve that purpose International law supports order in the world and the attainment of humanity's fundamental goals of peace prosperity respect for human rights and protection of the natural environment These goals can best be realized through international law which uniquely has the capacity to bind even a superpower of the world By exploring the roots and history of international law and by looking at specific events in the history of international law this book demonstrates the why and the how of international law and its enforcement It directly confronts the notion that international law is powerless and that working within the framework of international law is useless or counterproductive As the world moves forward it is critical that both leaders and their citizens understand the true power and purpose of international law and this book creates a valuable resource for them to aid their understanding It uses a clear compelling style to convey topical informative and cutting edge information to the reader

*Beyond Constitutionalism* Nico Krisch, 2012-09-06 Under pressure from globalisation the classical distinction between domestic and international law has become increasingly blurred spurring demand for new paradigms to construe the emerging postnational legal order The typical response of constitutional and international lawyers as well as political theorists has been to extend domestic concepts especially constitutionalism beyond the state Yet as this book argues proposals for postnational constitutionalism not only fail to provide a plausible account of the changing shape of postnational law but also fall short as a normative vision They either dilute constitutionalism's origins and appeal to fit the postnational space or they create tensions with the radical diversity of postnational society This book explores an alternative pluralist vision of postnational law Pluralism does not rely on an overarching legal framework but is characterised by the heterarchical interaction of various suborders of different levels an interaction that is governed by a multiplicity of conflict rules whose mutual relationship remains legally open A pluralist model can account for the fragmented structure of the European and global legal orders and it reflects the competing and often equally legitimate claims for control of postnational politics However it typically provokes concerns about stability power and the rule of law This book analyses the promise and problems of pluralism through a theoretical enquiry and empirical research on major global governance regimes including

the European human rights regime the contestation around UN sanctions and human rights and the structure of global risk regulation The empirical research reveals how prevalent pluralist structures are in postnational law and what advantages they possess over constitutionalist models Despite the problems it also reveals the analysis suggests cautious optimism about the possibility of stable and fair cooperation in pluralist settings

*The Prevention and Intervention of Genocide* Samuel Totten, 2017-09-08 Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions

*International Law and Governance of Natural Resources in Conflict and Post-Conflict Situations* Daniëlla Dam-de Jong, 2015-06-26 An assessment of the role of international law in preventing natural resources from fuelling armed conflict and improving their governance

**Praxis** Friedrich Kratochwil, 2018-08-16 Presents a shift from the accepted international relations standard of theorizing by analyzing policy decisions made in non ideal conditions within a broader framework of practical choices emphasizing both historicity and contingency as exemplified by changing practices in the international arena

**The Handbook on the Political Economy of War** Christopher J. Coyne, Rachel L. Mathers, 2011-01-01 The Handbook on the Political Economy of War highlights and explores important research questions and discusses the core elements of the political economy of war

*Coercing, Constraining and Signalling* Francesco

Giumelli,2011-09-13 The costs of military ventures and concern for human rights has increased the importance of international sanctions in the twenty first century but our knowledge is still limited in this area The United Nations sanctions on Libya Al Qaeda and Rwanda or the European Union restrictive measures on the US Transnistria and Uzbekistan are sparsely covered by the media and attempts to measure the effectiveness of any of these sanctions comes up against the fundamental unanswered question What can sanctions do and when This book undertakes an innovative approach that overcomes these problems by enhancing our understanding of how sanctions work and by explaining what we can expect from their imposition Through the analysis of the sanctioning experience of the United Nations and the European Union after the Cold War the investigation tests a comprehensive theoretical model and concludes that the context in which sanctions are imposed is a crucial element in deciding the type of sanctions adopted Giumelli shakes the pre constituted conceptions that we have on sanctions and sets the terms for more constructive debates in the future Peter Wallensteen: A Pioneer in

Making Peace Researchable Peter Wallensteen,2021-05-28 This book provides a broad overview of what peace research is all about by an author who has been involved in the field for more than half a century Among other things it gives a unique review of how peace research emerged in Sweden as the author was a key actor in the most crucial events during this formative period The book also portrays how the discipline has grown from an initial focus on alternatives to war to the comprehensive study of the many dimensions of a lasting and positive peace The author s own work covers causes of war sanctions conflict resolution conflict data mediation and quality peace They demonstrate the range of topics that have to be understood for a peace with quality This is exemplified by some of the author s writings specifically selected for this volume plus a few ones original to it Some accounts of the author s involvements in actual peace processes in the 1990s are also included This publication offers a substantial contribution to understanding the evolution of peace research as a field and is an important reading for scholars policy makers journalists students and any aspiring peace researcher as well as for the public at large Peter Wallensteen is a global pioneer of peace research due to his involvement in the creation of the Department of Peace and Conflict Research at Uppsala University a major center in the field He served as Head of Department from 1972 to 1999 Peter Wallensteen set up and directed the well known Uppsala Conflict Data Program UCDP the global resource for the study of armed conflicts and peace negotiations 1978 2015 Peter Wallensteen was the first holder of the Dag Hammarskjöld Chair in Peace and Conflict Research at Uppsala University 1985 2012 He was also the first holder of the position as the Richard G Starmann Sr Research Professor of Peace Studies at the Kroc Institute for International Peace Studies University of Notre Dame USA 2006 2018 *United Nations Financial Sanctions* Sachiko

Yoshimura,2020-11-29 This book presents insightful perspectives on the invocation implementation and application of UN approved financial sanctions and related issues With contributions from academics diplomats and UN panel experts Yoshimura offers an analysis of how the UN financial sanctions have evolved the different roles of various major international

actors in agreeing and deploying them and their success in achieving desired outcomes It also sheds light on a vital role of Japan in the formulation and deployment of financial sanctions as the third largest economy in the world with very limited armed forces and a pacifist constitution Offering valuable consideration into one of the key implements of international law this is an essential guide for scholars and practitioners in Diplomacy and International Relations

**The Future of Human Rights** William F. Schulz, 2008 The thirteen essays in this volume provide thematic assessments of the current state of global human rights programs as well as prescriptions for future human rights policy with topics including democracy promotion women's rights refugee policy religious freedom labor standards as well as economic social and cultural rights

The Political Economy of International Finance in an Age of Inequality Gerald A. Epstein, 2018 The essays in this book describe and analyze the current contours of the international financial system covering both developed and developing countries and focusing on the ways in which the current international financial system structures and is affected by profound inequalities in the international system This keen analysis of key topics in international finance takes a heterodox perspective with focus on the role of inequalities in power in shaping the structure and outcomes in the international sphere

*Order and Disorder in the International System* Sai Felicia Krishna-Hensel, 2016-05-13 This volume examines the complex international system of the twenty first century from a variety of perspectives Proceeding from critical theoretical perspectives and incorporating case studies the chapters focus on broad trends as well as micro realities of a Post Westphalian international system The process of transformation and change of the international system has been an ongoing cumulative process Many forces including conflict technological innovation and communication have contributed to the creation of a transnational world with political economic and social implications for all societies Transnationalism functions both as an integrative factor and one which exposes the existing and the newly emerging divisions between societies and cultures and between nations and states The chapters in this volume demonstrate that re thinking fundamental assumptions as well as theoretical and methodological premises is central to understanding the dynamics of interdependence

**Protecting the Individual from International Authority** Monika Heupel, Michael Zürn, 2017-04-27 International organizations IOs develop institutional provisions to make sure that their policies do not violate human rights Accordingly whilst IOs have a greater scope of action and ability to promote collective goods than ever before they also have a greater capacity to do harm Based on ten case studies on UN and EU sanctions policy UN and NATO peacekeeping and World Bank and IMF lending this book examines human rights violations which can arise from the actions of IOs rather than those of states It further explains how powerful IOs have introduced human rights protection provisions and analyzes the features of these provisions including differences in their design and quality This book provides evidence of a novel legitimation strategy authoritative IOs draw on that has as yet never been systematically studied before
