Skyful Of Freedom A 60 Years Of The Bbc World Service:

BBC World Service Gordon Johnston, Emma Robertson, 2019-11-14 This book is the first full length history of the BBC World Service from its interwar launch as short wave radio broadcasts for the British Empire to its twenty first century incarnation as the multi media global platform of the British Broadcasting Corporation The book provides insights into the BBC s working relationship with the Foreign Office the early years of the Empire Service and the role of the BBC during the Second World War In following the voice of the BBC through the Cold War and the contraction of the British empire the book argues that debates about the work and purposes of the World Service have always involved deliberations about the future of the UK and its place in the world In current times these debates have been shaped by the British government s commitment to leave the European Union and the centrifugal currents in British politics which in the longer term threaten the integrity of the United Kingdom Through a detailed exploration of its past the book poses questions about the World Service s possible future and argues that for the BBC the question is not only what it means to be a global broadcaster as we enter the third decade of the twenty first century but what it means to be a national broadcaster in a divided kingdom

An International History of the Cuban Missile Crisis David Gioe, Len Scott, Christopher Andrew, 2014-06-05 This edited volume addresses the main lessons and legacies of the 1962 Cuban Missile Crisis from a global perspective Despite the discoveries of recent research there is still much more to be revealed about the handling of nuclear weapons before and during the Cuban Missile Crisis CMC Featuring contributions from a number of eminent international scholars of nuclear history intelligence espionage political science and Cold War studies An International History of the Cuban Missile Crisis reviews and reflects on one of the critical moments of the Cold War focussing on three key areas First the volume highlights the importance of memory as an essential foundation of historical understanding and demonstrates how events that rely only on historical records can provide misleading accounts This focus on memory extends the scope of the existing literature by exploring hitherto neglected aspects of the CMC including an analysis of the operational aspects of Bomber Command activity explored through recollections of the aircrews that challenge accounts based on official records The editors then go on to explore aspects of intelligence whose achievements and failings have increasingly been recognised to be of central importance to the origins dynamics and outcomes of the missile crisis Studies of hitherto neglected organisations such as the US Defense Intelligence Agency DIA and the British Joint Intelligence Committee JIC both extend our understanding of British and American intelligence machinery in this period and enrich our understanding of key episodes and assessments in the missile crisis Finally the book explores the risk of nuclear war and looks at how close we came to nuclear conflict The risk of inadvertent use of nuclear weapons is evaluated and a new proposed framework for the analysis of nuclear risk put forward This volume will be of much interest to students of intelligence studies international history foreign policy security studies and IR in general

communications technologies and illuminates the contemporary systems of power in global communications **Political Communication and Democracy** G. Rawnsley, 2005-11-01 Political Communication and Democracy provides a wide ranging and inclusive study of political communications that uses current political events and debates to illustrate its arguments Looking beyond the narrow view that political communication concerns only the media and spin doctors Gary Rawnsley examines the subject in its myriad forms political parties and pressure groups as a way by which people join together referendums public opinion and how communications contribute to the process of democratization around the world

Occidentalism in Turkey Meltem Ahiska, 2010-06-30 From the early Attaturk years Turkish radio broadcasting was seen as a great hope for sealing the national identity of the new Turkish Republic Since the inaugural broadcast in 1927 the national elite designed radio broadcasting to represent the voice of a nation Here Meltem Ahiska reveals how radio broadcasting actually showed Turkey's uncertainty over its position in relation to Europe While the national elite wanted to build their own Turkish identity at the same time they desired recognition from Europe that Turkey was now a Westernized modern country Ahiska shows how these tensions played out over the radio in the conflicting depictions and discrepancies between the national elite and the people cosmopolitan Istanbul and national Ankara and men and women especially in Radio drama Through radio broadcasting we can see how Occidentalism dictated the Turkish Republic's early history and shaped how modern Turkey saw itself *BBC Worldwide*, 1992 *Broadcasting on the Short Waves, 1945 to Today* Jerome S. Berg, 2008-10-24 Shortwave broadcasting originated in the 1920s when stations used the new technology to increase their range in order to serve foreign audiences and reach parts of their own country not easily otherwise covered The early days of shortwave radio were covered in *On the Short Waves 1923-1945 Broadcast Listening in the Pioneer Days of Radio* published by McFarland in 1999 paperback 2007 Then two companion volumes were published picking up the story after World War II They were *Listening on the Short Waves 1945 to Today* McFarland 2008 paperback 2010 which focuses on the shortwave listening community and the present *Broadcasting* title about the stations themselves and their environment The heart of the book is a detailed year by year account of the shortwave bands in each year from 1945 to 2008 It reviews what American listeners were hearing on the international and domestic shortwave bands describes the arrivals and departures of stations and recounts important events The book describes the several categories of broadcasters international domestic private religious clandestine and pirate It explains the impact of relay stations frequency management and jamming It also addresses the considerable changes in shortwave broadcasting since the end of the Cold War The book is richly illustrated and indexed and features a bibliography and extensive notes ["This Is Jerusalem Calling"](#) Andrea L. Stanton, 2013-09-01 Modeled after the BBC the Palestine Broadcasting Service was launched in 1936 to serve as the national radio station of Mandate Palestine playing a pivotal role in shaping the culture of the emerging middle class in the region Despite its significance the PBS has become nearly forgotten by scholars of twentieth century Middle Eastern studies Drawn extensively from British and Israeli

archival sources *This Is Jerusalem Calling* traces the compelling history of the PBS's twelve years of operation illuminating crucial aspects of a period when Jewish and Arab national movements simultaneously took form Andrea L Stanton describes the ways in which the mandate government used broadcasting to cater to varied audiences including rural Arab listeners in an attempt to promote a modern vision of Arab Palestine as an urbane politically sophisticated region In addition to programming designed for the education of the peasantry religious broadcasting was created to appeal to all three main faith communities in Palestine which ultimately may have had a disintegrating separatist effect Stanton's research brings to light the manifestation of Britain's attempts to prepare its mandate state for self governance while supporting the aims of Zionists While the PBS did not create the conflict between Arab Palestinians and Zionists the service reflected articulated and magnified such tensions during an era when radio broadcasting was becoming a key communication tool for emerging national identities around the globe

How to Be Intimate with 15,000,000 Strangers Brett Kahr, 2023-05-31 *How to Be Intimate with 15 000 000 Strangers* is an investigation into how the fields of mental health and media can work together more collaboratively Drawing upon his extensive experience in media psychoanalysis Brett Kahr explores how a rich collaboration with radio television film and other forms of public outreach can be accomplished while also embracing the weight and gravitas of depth psychology In addition to describing his work as Resident Psychotherapist at the B B C Kahr also examines the ways in which references to the media enter the consulting room and provide clinicians with important insights about hidden aspects of the minds of their patients Moreover he investigates the historical hesitancy of psychoanalysts experts in confidentiality to engage with such a public arena as the media thus providing important insights about how one can collaborate broadly and loudly while also maintaining one's ethical commitment to silence and privacy This book will be of interest to psychoanalysts psychotherapists and anyone intrigued by the intersection between media and psychoanalysis

An Introductory History of British Broadcasting Andrew Crisell, 2002-09-11 This is an accessible and concise history of British radio and television The book considers the nature and evolution of broadcasting the growth of broadcasting institutions and the relation of broadcasting to a wider political and social context Beginning with the genesis of radio at the turn of the century Crisell discusses key moments in media history from the first wireless broadcast in 1920 to the present Key topics covered include The establishment of the BBC in 1927 The general strike notions of public service broadcasting and the cultural values of the BBC Broadcasting in wartime The heyday of radio in the 1940s and 1950s and the rise of television BBC2 Channel 4 and minority television The changing role of radio in a television age The convergence of

broadcasting and other media Future issues for broadcasting **A Skyful of Freedom** Andrew Walker,1992 **Radio Fun and the BBC Variety Department, 1922–67** Martin Dibbs,2018-09-17 This book provides a narrative history of the BBC Radio Variety Department exploring along chronological lines the workings of tensions within and the impact of BBC policies on the programme making department which generated the organisation s largest audiences It provides an insight into key events personalities programmes internal politics and trends in popular entertainment censorship and anti American policy as they individually or collectively affected the Department Martin Dibbs examines how the Department s programmes became markers in the daily and weekly lives of millions of listeners and helped shape the nation s listening habits when radio was the dominant source of domestic entertainment The book explores events and topics which while not directly forming part of the Variety Department s history nevertheless intersected with or had an impact on it Such topics include the BBC s attitude to jazz and rock and roll the arrival of television with its impact on radio the pirate radio stations and the Popular Music and Gramophone Departments both of whom worked closely with the Variety Department Engaging Pakistan Ian Talbot,2025-11-04 Engaging Pakistan examines the role of British and American public diplomacy in Pakistan It focuses on case studies located in two periods 1955 1964 and 2008 2012 during which there was both intense public diplomacy activity and increasing public hostility particularly towards the United States Putting forth this juxtaposition of the two periods the study provides an opportunity for a fine grain analysis to contribute to wider theoretical and comparative studies of public diplomacy as well as provide valuable empirical material The author argues that limitations in the effectiveness of public diplomacy arise whenever foreign audiences perceive that a state s foreign policy actions are illegitimate and inconsistent with its publicly proclaimed values US unreliability in the 1960s and unilateralism four decades later undermined its soft power despite the successes of individual public diplomacy initiatives Anti Americanism in Pakistan is usually linked with the aftermath of 9 11 but this volume will reveal that public mistrust stretched as far back as the 1960s The Pakistani public trusted Britain far more so that even when unpopular policies were adopted there was not such a steep decline in its standing Despite less funding UK public diplomacy initiatives operated in a more favourable environment than that of the United States The book focuses on five main areas of public diplomacy activities that generate soft power namely communication information activities educational exchanges and assistance volunteering cultural performances and exhibitions and high profile visitors public engagement These activities are examined in case studies from either a single time frame or covering both periods A pioneering study of British and American public diplomacy in Pakistan in the early Cold War and later post 9 11 eras this book will be of interest to researchers on Modern South Asia international relations public diplomacy and diplomatic history as well as those interested in wider subjects ranging from Cold War studies to sports history **Revisiting Transnational Broadcasting** Nelson Ribeiro,Stephanie Seul,2018-03-08 Presenting a collection of original chapters this book reassesses the history of the BBC foreign language services prior to and during the Second World

War The communication between the British government and foreign publics by way of mass media constituted a fundamental if often ignored aspect of Britain's international relations From the 1930s onwards transnational broadcasting that is broadcasting across national borders became a major element in the conduct of Britain's diplomacy and the BBC was employed by the government to further its diplomatic strategic and economic interests in times of rising international tension and conflict The contributions to this volume display a series of case studies of BBC transmissions in various European foreign languages directed to occupied neutral and enemy countries This allows for a comprehensive understanding of the different broadcasting strategies adopted by the BBC in the late 1930s and throughout the war when the Corporation was under the direction of the Ministry of Information and the Political Warfare Executive This book was originally published as a special issue of Media History
