1. The first thing you should do is to make sure you have all the ingredients you need. This includes the cake mix, frosting, and any other decorations you want to use. Once you have everything you need, you can start by preheating the oven to 350 degrees Fahrenheit. Then, you can mix the cake mix and frosting together in a large bowl. Once the mixture is well combined, you can pour it into a greased cake pan and bake it for 30 minutes. After the cake is done, you can let it cool for a few minutes before frosting it with the remaining frosting. Finally, you can decorate the cake with any other decorations you want to use.
