**Research Methods for Educational Leadership and Management** Musundire, Austin, 2025-05-13

Various research methods including action case study and experimental research can be tailored for educational leadership and management. Different research designs, data collection techniques, and data analysis methods have differing strengths, weaknesses, and challenges. As a result, it is crucial to develop the skills and confidence needed to conduct high-quality research. Developing a deeper understanding of how to conduct rigorous research may consequently foster more effective and innovative research, leading to improved educational policies, practices, and outcomes. *Research Methods for Educational Leadership and Management* illustrates how these methods can be effectively applied to address issues in educational leadership and management. It promotes best practices in educational research by highlighting ethical considerations, addressing common challenges, and providing strategies for overcoming these obstacles. Covering topics such as equity, employment practices, high performance culture, and professional competencies, this book is an excellent resource for educational leaders, school managers, school administrators, policymakers, researchers, professionals, scholars, academicians, and more.

*Management* John R. Schermerhorn, Jr., Daniel G. Bachrach, 2023-05-23. Inspire students to be responsible and self-aware decision makers. *Management* 15th Edition supports active and engaged course environments while centralizing new topics such as diversity, equity, inclusion, and social impact. With a refocus on career application, the underlying goal is to translate foundational theories into lasting tools for students as they move beyond the classroom where their skills will be put to the test.

*Proceedings of the 3rd International Conference: Quantitative and Qualitative Methodologies in the Economic & Administrative Sciences (QMEAS 2013)* Christos Frangos, *Entrepreneurship in Family Business* Henry X Shi, 2014-02-20. This book presents an excellent analysis of how a family business is different from other forms of organization and especially its peculiarities in relation to entrepreneurship. Focusing on small and medium-sized second-generation Chinese family businesses, this book provides an in-depth analysis on the relationship between the firm's family attributes or familiness as conceptualized in this book and entrepreneurial processes, which leads to different outcomes. Eight cases from China are presented in this book, and a dual-level approach is proposed for research on entrepreneurship in family businesses, emphasising both firm processes and the role of individual owner-managers. Readers will also find several useful policy and practice-oriented perspectives in this book.
