Smarandache Rings:

Smarandache Rings W. B. Vasantha Kandasamy,2002 Generally in any human field a Smarandache Structure on a set A means a weak structure W on A such that there exists a proper subset B which is embedded with a stronger structure S By proper subset one understands a set included in A different from the empty set from the unit element if any and from A These types of structures occur in our every day s life that s why we study them in this book Thus as two particular cases A Smarandache ring of level I S ring I is a ring R that contains a proper subset that is a field with respect to the operations induced A Smarandache ring of level II S ring II is a ring R that contains a proper subset A that verifies A is an additive abelian group A is a semigroup under multiplication For a b I A a b 0 if and only if a 0 or b 0 Smarandache Fuzzy Algebra W. B. Vasantha Kandasamy,2003 **A Study on Neutrosophic Zero Rings** T.Chalapathi,L.
