Anglo-German Dramatic and Poetic Encounters Michael Wood, Sandro Jung, 2019-06-27 Focusing on particular cases of Anglo German exchange in the period known as the Sattelzeit 1750 1850 this volume of essays explores how drama and poetry played a central role in the development of British and German literary cultures With increased numbers of people studying foreign languages engaging in translation work and traveling between Britain and Germany the eighteenth and nineteenth centuries gave rise to unprecedented opportunities for intercultural encounters and transnational dialogues While most research on Anglo German exchange has focused on the novel this volume seeks to reposition drama and poetry within discourses of national identity intercultural transfer and World Literature The essays in the collection cohere in affirming the significance of poetry and drama as literary forms that shaped German and British cultures in the period The essays also

consider the nuanced movement of texts and ideas across genres and cultures the formation and reception of poetic personae and the place of illustration in cross cultural textual exchange      **Revolutions & Watersheds** ,2022-02-28 The years between 1775 and 1815 constitute a crucial episode in the evolutionary history of Europe and America Between the start of the American Revolution with the first armed clashes between British regulars and American militiamen at Concord and Lexington and the closing act of the French Revolution with the eclipse of Napoleon s dreams of pan European glory on the battlefield of Waterloo America and Europe witnessed the rise and fall of radicalism which left virtually no aspect of public and private life untouched While the American colonies managed to wrench themselves away from their colonial parent and while France careered down the stormy rapids of its own Revolution Great Britain went through the turbulent process of redefining itself vis vis both these emerging nations and the world at large But the period 1775 to 1815 offers more than the two ideological Revolutions that determined the face of modern America and Europe feeding into and emanating from these Revolutions there were major watersheds in virtually all areas of cultural intellectual and political life varying from the rise of Romanticism to the birth of abolitionism and from the beginnings of modern feminism to the creation of modern nationhood and its enduring cultural stereotypes In this collection of interdisciplinary essays historians and literary critics from both sides of the Atlantic analyze a broad spectrum of the watersheds and faultlines that arose in this formative era of Euro American relations Individually the essays trace one or more of the transatlantic patterns of intellectual cultural or scientific cross pollination between the Old and the New World between pre and post Revolutionary modes and mores Collectively the essays argue that the many revolutions that produced the national ideologies identities and ideas of state of present day America and Europe did not merely play a role in national debates but that they very much belonged to an intricate network of transnational and more particularly transatlantic dialogues      **Loyalty and Identity** P. Monod,M. Pittock,D.

Empire and the Americas between 1800 and 1914 Although selective the sample of 270 figures is substantial enough to suggest broad cross cultural habits and effects enabling scholars to better understand the relationship between reading and culture In an introductory essay Powell explores the patterns and relationships that can be discerned from the entries The first of three anticipated volumes the book is an important step forward in researching the role of reading in cultural development

**Bardic Nationalism** Katherine M Trumpener, 2021-01-12 This magisterial work links the literary and intellectual history of England Scotland Ireland and Britain's overseas colonies during the late eighteenth and early nineteenth centuries to redraw our picture of the origins of cultural nationalism the lineages of the novel and the literary history of the English speaking world Katie Trumpener recovers and recontextualizes a vast body of fiction to describe the history of the novel during a period of formal experimentation and political engagement between its eighteenth century rise and its Victorian heyday During the late eighteenth century antiquaries in Ireland Scotland and Wales answered modernization and anglicization initiatives with nationalist arguments for cultural preservation Responding in particular to Enlightenment dismissals of Gaelic oral traditions they reconceived national and literary history under the sign of the bard Their pathbreaking models of national and literary history their new way of reading national landscapes and their debates about tradition and cultural transmission shaped a succession of new novelistic genres from Gothic and sentimental fiction to the national tale and the historical novel In Ireland and Scotland these genres were used to mount nationalist arguments for cultural specificity and against internal colonization Yet once exported throughout the nascent British empire they also formed the basis of the first colonial fiction of Canada Australia and British India used not only to attack imperialism but to justify the imperial project Literary forms intended to shore up national memory paradoxically become the means of buttressing imperial ideology and enforcing imperial amnesia
