**The Catholic Church in Polish History** Sabrina P. Ramet,2017-06-22 The book chronicles the evolution of the church's political power throughout Poland's unique history Beginning in the tenth century the study first details how Catholicism overcame early challenges in Poland from converting the early polytheists to pushing back the Protestant Reformation half a millennium later It continues into the dawn of the modern age including the division of Poland between Prussia Russia and Austria between 1772 and 1795 the interwar years the National Socialist occupation of World War Two and the communist and post war communist eras during which The Church only half correctly presented itself as a steadfast protector of Poles with clergy members who either stood up to foreign authorities or collaborated with those same Nazi and Communist leaders This study ends with a consideration of how the Church has taken advantage of the fall of communism to push its own social agenda at times against the wishes of most Poles

**Working on Rights** Anna Delius,2023-11-20 This book is the first to connect global labor history and the history of human rights By focusing on democratic labor oppositions in Spain and Poland between 1960 and 1990 it shows how workers in authoritarian regimes addressed repression and whether they developed a language of rights in the light of a globally dynamic human rights discourse The study argues that the democratic labor oppositions in Spain and Poland were both variants of emancipatory and democracy oriented social movements with global interconnections that emerged in the 1960s It reveals that the demands for free and independent trade unions which in both countries became a flashpoint in the fight for broader democratic demands was not always discussed in rights terms but rather presented as an inevitable necessity At the same time these labor movements and their intellectual allies morally delegitimized state repression against workers and thereby employed the concepts of democracy participation solidarity progress and eventually rights Integrating the history of two European semi peripheric societies into a broader narrative this book is relevant for readers interested in global labor history human rights history and the history of democratization in Europe in the late twentieth century

Power and Influence after the Cold War Ann L. Phillips,2000-05-30 Challenging conventional wisdom about German dominance in the new Europe this study presents a new

approach to the question of power and influence after the Cold War Inspired by the debate over German hegemony and drawing on intensive fieldwork Ann L Phillips develops two original cases of German relations with East Central Europe to test competing arguments As she convincingly demonstrates the politics of reconciliation and the activities of German party affiliated foundations illustrate German engagement in the region in its dual faces restraint and projection The author uses the less developed literature on reciprocal influences of domestic politics and the international environment to frame her analysis These two cases provide evidence not only of the intersection of domestic politics and international relations but of when and how one trumps the other Contributing to the theoretical debate Phillips argues that this interplay explains the divergent trajectories bilateral relations have taken since 1990 in ways that more traditional neo realist or liberal approaches could not The author s fresh perspective and new evidence demonstrate that East Central European states play a much greater role in the influence equation than they did in the past *War in the Balkans* James Pettifer, Tom

Buchanan, 2015-11-20 The history of the Balkans incorporates all the major historical themes of the 20th Century the rise of nationalism communism and fascism state sponsored genocide and urban warfare Focusing on the centuries opening decades War in the Balkans seeks to shed new light on the Balkan Wars through approaching each regional and ethnic conflict as a separate actor before placing them in a wider context Although top down Great Powers historiography is often used to describe the beginnings of the World War I not enough attention has been paid to the events in the region in the years preceding the Archduke Ferdinand s assassination The Balkan Wars saw the defeat of the Ottoman Empire the end of the Bulgarian Kingdom then one of the most powerful military countries in the region an unprecedented hardening of Serbian nationalism the swallowing up of Slovenes Croats and Slovaks in a larger Balkan entity and thus set in place the pattern of border realignments which would become familiar for much of the twentieth century **Return to the NEP** Oscar J.

Bandelin, 2002-12-30 No scholar denies Mikhail S Gorbachev s role in developing a new approach to Soviet socialism but most writers emphasize the radical departure from traditional Soviet ideology that perestroika seemed to represent This work presents perestroika as part of the continuum of European intellectual history It examines the sources of Gorbachev s thinking and action in 19th century thought the development of Russian Marxism through the intellectual crisis at the turn of the 20th century the pragmatic and philosophical challenges to the Marxist Leninist paradigm Stalinism and its critics and reform Communism in post World War II Eastern Europe Against this background the book argues that the decline and fall of Soviet Communism was much more deeply connected with ideological issues than most scholars have realized Bandelin presents fresh analyses of the impacts of major works and ideas such as Lenin s Materialism and Empirio Criticism the neglected Marxian concept of the Asiatic mode of production and the underlying relationship of East European reform Communism to perestroika He analyzes the major intellectual trends of perestroika in terms of these and other currents This study offers a perspective that challenges most of current scholarship on the issues it raises suggests new avenues for

research and contributes to a broader overall understanding of the problems of Soviet socialism and Gorbachev's effort to solve them

**No End in Sight** Anna Krakus, 2018-07-10 No End in Sight offers a critical analysis of Polish cinema and literature during the transformative late Socialist period of the 1970s and 1980s Anna Krakus details how conceptions of time permanence and endings shaped major Polish artistic works She further demonstrates how film and literature played a major role in shaping political consciousness during this highly charged era Despite being controlled by an authoritarian state and the doctrine of socialism artists were able to portray the unsettled nature of the political and psychological climate of the period and an undetermined future In analyzing films by Andrzej Wajda Krzysztof Kieslowski Krzysztof Zanussi Wojciech Has and Tadeusz Konwicki alongside Konwicki's literary production Anna Krakus identifies their shared penchant to defer or completely eschew narrative closure whether in plot theme or style Krakus calls this artistic tendency aesthetic unfinalizability As she reveals aesthetic unfinalizability was far more than an occasional artistic preference or a passing trend it was a radical counterpolitical act The obsession with historical teleology saturated Polish public life during socialism to such a degree that instances of nonclosure or ambivalent endings emerged as polemical responses to official ideology

**Religion, Politics, and Values in Poland** Sabrina P. Ramet, Irena Borowik, 2016-10-26 This volume brings together leading scholars to examine how the Church has brought its values into the political sphere and in the process alienated some of the younger generation Since the disintegration of the communist one party state at the end of the 1980s the Catholic Church has pushed its agenda to ban abortion introduce religious instruction in the state schools and protect Poland from secular influences emanating from the European Union As one of the consequences Polish society has become polarized along religious lines with conservative forces such as Fr Rydzyk's Radio Maryja seeking to counter the influence of the European Union and liberals on the left trying to protect secular values This volume casts a wide net in topics with chapters on Pope John Paul II Radio Maryja religious education the Church's campaign against what it calls genderism and the privatization of religious belief among other topics
