Social Dimensions In The Economic Process:

Social Dimensions in the Economic Process Norbert Dannhaeuser, Cynthia Werner, 2002 Based on economic anthropology this book involves the degree of social content of individual transactions and how economic processes relate to social structure More specifically the theme relates to matters such as the need for trust resulting in personalized systems of economic transactions and how institutions shape economic arrangements

The Social Dimensions of the Circular Economy Lucila Maria de Souza Campos, Diego A. Vázquez-Brust, 2023-03-15 The main theme of this book is the social dimension of the circular economy CE This book's objective is to provide a foundation for the discussion of social aspects of CE that also allows the integration of CE with the UN SDGs The circular economy is increasingly becoming the consensual pathway for a transition towards sustainable production and consumption that balances the economic and ecological pillars of sustainable development However researchers have noted that the social dimension of sustainable development is noticeable missing or at best weakly developed in CE ideas and frameworks Sehnem et al 2019 The main argument of this book is that CE research and practice needs to embrace its social impacts not only in terms of understanding and avoiding negative social impacts but also in terms of exploring the potential that CE models have for addressing social challenges

The Political Economy of Hazards and Disasters Eric C. Jones, Arthur D. Murphy, 2009-05-16 Throughout history societies have had to decide whom to sacrifice and whom to help in times of disaster This volume examines how elite groups attempt to maintain power through the use of particular economic political and ideological instruments and how both ruling elites and common people endeavor to create meaningful traditions while enduring hardship The Political Economy of Hazards and Disasters demonstrates how vulnerability is economically constructed primary producers adapt their production regimes how traders and merchants adapt their practices and how political economic objectives play out in recovery efforts

The Systemic Nature of the Economic Crisis Arturo Hermann, 2015-03-27 The most prominent aspect of the current financial crisis is its systemic character which manifests itself in high levels of inequality rampant unemployment economic and social insecurity and environmental decay This book explores the potential of a pluralistic and interdisciplinary approach for a deeper understanding of the manifold aspects of the economic crisis This book examines the potential of a number of contributions from heterodox economics and psychoanalysis in providing a deeper understanding of these problems The book analyses some of the most debated aspects of the concepts of market democracy and socialism and explores the role of structural ties between economic social and psychological aspects of collective life It also addresses the main economic aspects of the crisis and pays particular attention to a number of structural imbalances and to the psychological interpretation of these phenomena By drawing together approaches from heterodox economics and psychoanalysis this book adopts a pluralist and interdisciplinary approach to the study of these phenomena and manages to overcome the fragmentation so often present in social sciences

Industrial Policy in Eastern Europe J.M. Van Brabant, 2012-12-06 This volume in essence continues my recent contributions towards building up a better understanding of the wide range of obstacles besetting the transitions away from administrative planning in the former communist regimes in the eastern part of Europe It is self contained however As such it specifically addresses issues revolving around how best to govern economies and indeed societies more generally that are undergoing fundamental structural transformation and whether industrial policy can facilitate progressing with the vexing transformations that will have to be enacted over a protracted period of time Because of the bewildering variety of hindrances that the managers of the transition have been confronted with many of which were not even contemplated when the programs were first designed regaining a measure of good governance including notably good economic governance is critical in formulating a positive political economy of transition Arguably most critical is steering the processes of destruction and creation not creative destruction in the Schumpeterian sense In some cases this requires reallocating commissioned resources both capital and labor to new activities Changing rules on the utilization of existing assets is evidently at the core of what the transition towards market based economic systems should be all about Very often however this requires

establishing new economic activities from domestic and foreign savings
