Social Functions Of Literature:

Social Functions of Literature Paul Debreczeny, 1997 This study of the effect of literature on readers both as individuals and as members of social groups focuses on Russia's national poet Alexander Pushkin as a model for investigating the aesthetic and social functions of literature The individual reader's response to the literary text is demonstrated in Part One through a broad range of memoirs diaries and correspondences in which Russian readers recorded their reactions to Pushkin Among the reactions are testimonies that Pushkin's works helped readers form their personalities provided cathartic relief in times of stress and aided them in releasing their suppressed emotions In his analysis the author draws on various psychological approaches from studies of perception through developmental psychology to psychoanalysis Part Two exposes the extent to which individuals' aesthetic responses are conditioned by their social environment Against the backdrop of Russian social history in the early nineteenth century the author describes the dissemination of new aesthetic norms notably the relations of the Russian literary elite to lowbrow and middlebrow groups In this context he analyzes a number of Pushkin imitations with Pushkin's responses to them and links Nikolai Gogol's development as a writer to the social groups surrounding Pushkin Among the other topics discussed are the popularization of Pushkin on the stage and his inclusion in school textbooks and anthologies The aura surrounding the personality of an author is the subject of Part Three in which the author shows how Pushkin's death in a duel with a foreigner contributed to his emergence as a symbol of the Russian nation and how deep seated anxiety about national identity gave rise to the Pushkin myth and to the canonization of the poet as martyr The author also describes how the combined effect of the widespread reading of Pushkin's work and his legend as martyr allowed him to remain Russia's main mythic figure despite the Soviet Union's attempts to supplant him with Lenin Throughout the book theoretical arguments are buttressed by close readings of Pushkin's works especially *The Prisoner of the Caucasus* *Eugene Onegin* *Poltava* *Egyptian Nights* and several lyric poems

Understanding Complex Urban Systems: Multidisciplinary Approaches to Modeling Christian Walloth, Jens Martin Gurr, J. Alexander Schmidt, 2013-12-14

Understanding Complex Urban Systems takes as its point of departure the insight that the challenges of global urbanization and the complexity of urban systems cannot be understood let alone managed by sectoral and disciplinary approaches alone

But while there has recently been significant progress in broadening and refining the methodologies for the quantitative modeling of complex urban systems in deepening the theoretical understanding of cities as complex systems or in illuminating the implications for urban planning there is still a lack of well founded conceptual thinking on the methodological foundations and the strategies of modeling urban complexity across the disciplines Bringing together experts from the fields of urban and spatial planning ecology urban geography real estate analysis organizational cybernetics stochastic optimization and literary studies as well as specialists in various systems approaches and in transdisciplinary methodologies of urban analysis the volume seeks to advance the discussion on multidisciplinary approaches to urban modeling While engaging with the state of the art in their respective fields the contributions are specifically written for both experts from a broad range of disciplines as well as for urban practitioners who feel the need for new approaches given the uncertainty of current developments

The Hirabayashi Hatsunosuke Reader Seth Jacobowitz,Aaron William Moore,2025-08-21 This edited volume assembles a wide

array of writings by Hirabayashi Hatsunosuke one of 20th century Japan's foremost intellectuals translated for the first time into English. It begins with an introduction by the editors Seth Jacobowitz and Aaron William Moore that contextualizes Hirabayashi's significance as a non-doctrinaire Marxist cultural critic, visionary thinker and much beloved popular fiction writer. The Short Stories features a selection of Hirabayashi's literary work including science fiction, The Artificial Human, detective fiction, This is How I Died and more idiosyncratic works such as Demon at the Pulpit, an antitheist and anticlerical story. The Essays provides a range of groundbreaking critical and theoretical tracts that address such topics as The Social Basis of Modernism, The Feminisation of Culture, Political Value and Artistic Value, A Re Appraisal of Marxist Literary Theory, Film as a Mechanism of Americanization, The Technological Revolution in Literature and the Arts and many more. Hirabayashi's systematic approach to cultural theory befitting the era of massification in the 1920s places him front and centre in the hothouse intellectual climate of pre-war Japan. It also affords striking parallels to the leading thinkers in Europe such as Walter Benjamin and Antonio Gramsci, thereby forming an integral part of the history of global modernity.

The Fictional Dimension of the School Shooting Discourse Silke Braselmann, 2019-06-17. Ever since the 1990s, school shootings have shocked the public in their brutality, their suddenness and their inexplicability. While film and literature have played a role in the heated debates about so-called copycat crimes, the growing body of fictionalizations of school shootings has been neglected thus far. However, in a discourse in which the boundaries between fiction and reality are increasingly blurred, this book shows how fiction shapes and structures challenges and disrupts cultural processes of meaning-making. Hence, for a better understanding of the school shooting phenomenon, the relevance of fiction on all levels of discourse construction requires thorough analysis. This book therefore develops a new approach to the role of fiction for contemporary forms of excessive violence. By combining narrative

theory with insights from sociology and other disciplines it provides the means for apprehending and describing the relevance of fiction for contemporary discourses Furthermore it provides exemplary analyses of more specific functions of literary and filmic fictionalizations of school shootings between 2000 and 2016 **The Necessary Unity of Opposites**
