Social Life Of Painting In Ancient Rome And On The Bay Of Naples:

The Social Life of Painting in Ancient Rome and on the Bay of Naples Eleanor Winsor Leach, 2004 In this study Eleanor Winsor Leach offers a new interpretation of Roman painting as found in domestic spaces of the elite classes of ancient Rome and Campania Because the Roman house fulfilled an important function as the seat of its owner's political power its mural decoration provides critical evidence for the interrelationship between public and private life The painted images Leach contends reflect the codes of communication embedded in upper class life such as the performative theatricality that was expected of those leading public lives the self-conscious assimilation of Hellenistic culture among aristocrats and the ambivalent attitudes towards luxury as a coveted sign of power and a symptom of ethical degeneracy Relying on contemporary literary sources this book also integrates historical and semantic approaches to an investigation of the visual language through which painting communicates with its viewers It also offers a fresh perspective on the demography of Pompeii and the relationship between the colony and Rome as reflected in its wall painting

The Freedman in Roman Art and Art History Lauren Hackworth Petersen, 2011-09-19 From monumental tombs and domestic decoration to acts of benefaction and portraits of ancestors Roman freed slaves or freedmen were prodigious patrons of art and architecture Traditionally however the history of Roman art has been told primarily through the monumental remains of the emperors and ancient writers who worked in their circles In this study Lauren Petersen critically investigates the notion of freedman art in scholarship dependent as it is on elite authored texts that are filled with hyperbole and stereotypes of freedmen such as the memorable fictional character Trimalchio a boorish ex slave in Petronius Satyricon She emphasizes integrated visual ensembles within defined historical and social contexts and aims to show how material culture can reflect preoccupations that were prevalent throughout Roman society Interdisciplinary in scope this book explores the many ways that monuments and artistic commissions by freedmen spoke to a much more complex reality than that presented in literature

The Architecture of Luxury Annette Condello, 2016-03-16 Over the past century luxury has been increasingly celebrated in the sense that it is no longer a privilege or attitude of the European elite or America's leisure class It has become more ubiquitous and now practically everyone can experience luxury even luxury in architecture Focusing on various contexts within Western Europe Latin America and the United States this book traces the myths and application of luxury within architecture interiors and designed landscapes Spanning from antiquity to the modern era it sets out six historical categories of luxury Sybaritic Lucullan architectural excess rustic neoEuropean and modern and

relates these to the built and unbuilt environment taking different cultural contexts and historical periods into consideration It studies some of the ethical questions raised by the nature of luxury in architecture and discusses whether architectural luxury is an unqualified benefit or something which should only be present within strict limits The author argues how the ideas of permissible and impermissible luxury have informed architecture and how these notions of ethical approval have changed from one context to another Providing voluptuous settings for the nobles and the leisure class luxury took the form of not only grand palaces but also follies country and suburban houses private or public entertainment venues and ornate skyscrapers with fast lifts The Architecture of Luxury proposes that in Western societies the growth of the leisure classes and their desire for various settings for pleasure resulted in a constantly increasing level of luxury sought within everyday architecture
