A Course of Lectures, Etc Alfred Marston TOZZER, 1925 **Paths of Continuity** Hartmut Lehmann, James Van Horn Melton, 2003-01-30 The defeat of National Socialism in 1945 was a pivotal point in Central European history For the writing and practice of history however the event proved far less decisive In West Germany and Austria most historians who had taught under the Nazis retained their positions after 1945 Even those dismissed for their National Socialist sympathies were often able to resume their careers And an entire generation of younger historians trained during the Nazi years was to enter the historical profession after 1945 Paths of Continuity examines the effect of this professional continuity on West German historical scholarship and the impact of the Third Reich on the way German language historians practiced their craft The essays look at ten prominent German and Austrian historians whose lives and work spanned the period before and after 1945 Friedrich Meinecke Gerhard Ritter Hans Rothfels Franz Schnabel Heinrich Ritter von Srbik Hans Freyer Hermann Aubin Otto Brunner Werner Conze and Theodor Schieder All responded to the Nazi regime in different ways Some willingly embraced the New Order of National Socialism others kept their distance from the regime or openly opposed it Ironically however those who were least compromised by Nazi involvements and who emerged after 1945 with the greatest moral and professional authority often proved the most resistant to change within the discipline Conversely much of the impetus for scholarly innovation after 1945 came from historians with earlier ties to the anti liberal folk history of the Nazi era Exploring these and other paradoxes this collection of essays provides fresh insight into the development of German historical scholarship since 1945 *The Origins and Continuity of Chinese Sociology* Tiankui Jing, 2022-11-14 This book examines the origins and basic concepts of sociology in China and traces the discipline s evolutionary trajectory Building on the premise that qunxue which goes back to Xunzi is essentially the Chinese antecedent of modern Western sociology contributors try to show the distinctive ways qunxue addresses a wide range of both foundational and practical issues related to society using its own set of conceptual analytical and methodological apparatus

The book argues that the rise of Chinese sociology will depend crucially on whether the rich heritage of traditional Chinese sociology can be fully appreciated and integrated with the Western tradition of learning. Following two preliminary chapters laying out qunxue's basic parameters, the four remaining chapters focus on its four primary concerns: cultivation of the self, xiushen regulation of the family, qijia governance of the state, zhiguo and realization of universal peace, pingtianxia.

The Continuity of Cotton Lewis Nicholas Wynne, 1986

Continuity and Change: The Harvest of Late-Medieval and Reformation History Robert Bast, Andrew Colin Gow, 2021-09-13

Offered here for the first time, a wide variety of specialists explore continuity and change in pre-modern Europe. Collectively, they contribute to the current historiographical debates about continuity and discontinuity between the Middle Ages and the Early Modern era. The themes reflect eminent scholar Heiko A. Oberman's vast range of interests in religious, cultural, and political history across a broad chronological and conceptual spectrum that seeks to overcome the limits of the divide between Medieval and Early Modern History.

The Family: Change or Continuity? Faith Robertson Elliot, 1986-10-27

Faith Elliot's book has a coherence unusual in a textbook. As its title suggests, it directs our attention to change and continuity in the family. It reviews debates about the biological origins of the nuclear family and gender roles, accounts of the development of the conjugal family as the dominant family form in modern Western societies, and of change in the roles of men and women within and without the family, the remodelling of the conjugal family consequent on the legitimation of divorce and the emergence of one-parent families and remarriage families, and the development of alternative lifestyles as exemplified in unmarried cohabitation, same-sex pairings, and group living. The book considers Marxist and feminist approaches alongside the functional approaches which have been more traditional in the sociological study of the family.

Continuity and Change in Brunei Darussalam Victor T. King, Stephen C. Druce, 2020-10-29

This book analyses the processes of social and economic change in Brunei Darussalam. Drawing on recent studies undertaken by both locally based scholars and senior

researchers from outside the state the book explores the underlying strengths characteristics and uniqueness of Malay Islamic Monarchy in Brunei Darussalam in a historical context and examines these in an increasingly challenging regional and global environment It considers events in Brunei s recent history and current socio cultural transformations which give expression to the traumatic years of decolonisation in Southeast Asia A wide range of issues focus on foreign non Bruneian narratives of Brunei as against insider or domestic accounts of the sultanate the status of minority ethnic groups in Brunei and the concept of Brunei society as well as changes in the character and composition of the famous water village Kampong Ayer as the cultural heartland of Brunei Malay culture and the socio cultural and economic effects of the resettlement of substantial segments of the population from a life on water to a life on land A timely and very important study on Brunei Darussalam the book will be of interest to anthropologists sociologists historians geographers and area studies specialists in Southeast Asian Studies and Asian Studies Revolution and Continuity Peter Barker,Roger Ariew,2018-03-02 This volume presents new work in history and historiography to the increasingly broad audience for studies of the history and philosophy of science These essays are linked by a concern to understand the context of early modern science in its own context
