## **Social Policies For The Elderly In The Third World:**

Aging in the Third World Kevin G. Kinsella, 1988      **Aging and Adult Development in the Developing World** Frank E. Eyetsemitan, James T. Gire, 2003-02-28 Most studies of human development in developing societies have focused on the childhood stage and in a few cases exploration has extended up to adolescence since this age group represents about half the population in developing societies The developed world however is experiencing a surge in the elderly population and this has spurred its study There is growing recognition that studies are needed in order to understand aging in all contexts and to discover how the experience may differ in developing and developed societies In this book the authors discuss the appropriateness or inappropriateness of applying Western theories and perspectives to studies of aging in the developing world The present study critically examines the major theories in the area of aging and adult development covering such domains as the physical psychological and social aspects of aging death and dying and social and public policies Applying the concepts of individualism and collectivism as well as the global and environmental dimensions of the developing world the authors have earmarked the theories that seem suitable only to the developed world and those that appear to be universally relevant

Chappell,2014-05-20 Aging and Ethnicity Toward an Interface provides a framework for comparison in aging and ethnicity This book examines the ethnic factor and its importance for the study of the elderly Organized into five chapters this book begins with an overview of the general demographic characteristics underlying the social structure of the ethnic elderly This text then explores the extent to which elements of assimilation and modernization affect the lives of

Canada's ethnic elderly Other chapters consider the existing social policies as they pertain to ethnic groups and present a research agenda to guide basic and evaluation research This book discusses as well the role of primary group relations for maintaining ethnic identity and for preventing loss of status within the family The final chapter deals with methodological issues to be considered when studying the ethnic elderly This book is a valuable resource for sociologists ethnic assimilationists medical specialists and gerontologists *Handbook of Communication and Aging Research* Jon F. Nussbaum, Justine Coupland, 2004-04-12 This second edition of the Handbook of Communication and Aging Research captures the ever changing and expanding domain of aging research Since it was first recognized that there is more to social aging than demography gerontology has needed a communication perspective Like the first edition this handbook sets out to demonstrate that aging is not only an individual process but an interactive one The study of communication can lead to an understanding of what it means to grow old We may age physiologically and chronologically but our social aging how we behave as social actors toward others and even how we align ourselves with or come to understand the signs of difference or change as we age are phenomena achieved primarily through communication experiences Synthesizing the vast amount of research that has been published on communication and aging in numerous international outlets over the last three decades the book's contributors include scholars from North America and the United Kingdom who are active researchers in the perspectives covered in their particular chapter Many of the chapters work to deny earlier images of aging as involving normative decrement to provide a picture of aging as a process of development involving positive choices and providing new opportunities A recurring theme in many chapters is that of the heterogeneity of the group of people who are variously categorized as older aged elderly or over 65 The contributors review the literature analytically in a way that reveals not only current theoretical and methodological approaches to communication and aging research but also sets the future agenda This handbook will be of great interest to scholars and researchers in gerontology developmental psychology and communication and in this updated edition will continue to play a key role in the study of communication and aging
