Social Policy European Union 2ed Hb:

Europe's Second Constitution Markus W. Gehring, 2020-09-24 European constitutionalisation has met with scepticism this book analyses the steps necessary to move to EU's Second Constitution

Soviet Street Children and the Second World War Olga Kucherenko, 2016-07-14 A time of great hardship the Second World War became a consequential episode in the history of Soviet childhood policies The growing social problem of juvenile homelessness and delinquency alerted the government to the need for a comprehensive child protection programme Nevertheless by prioritizing public order over welfare the Stalinist state created conditions that only exacerbated the situation transforming an existing problem into a nation wide crisis In this comprehensive account based on exhaustive archival research Olga Kucherenko investigates the plight of more than a million street children and the state's role in the reinforcement of their ranks By looking at wartime dislocation Soviet child welfare policies juvenile justice and the shadow world both within and without the Gulag Soviet Street Children and the Second World War challenges several of the most pervasive myths about the Soviet Union at war It is therefore as much an investigation of children on the margins of Soviet society as it is a study of the impact of war and state policies on society itself

The Social Construction of Swedish Neutrality Christine Agius, 2006-07-30 Since the end of the Cold War and particularly in the post 9 11 international environment neutrality has been conceptualised as a problematic subject With the end of bipolarity neutrality as a foreign and security policy lost much of its justification and in the ongoing War on Terror no state according to the Bush Administration can be neutral However much of this debate has gone unnoticed in IR literature This book newly available in paperback examines the conceptualisation of neutrality from the Peloponnesian War to the present day uncovering how neutrality has been a neglected and misunderstood subject in IR theory and politics By rethinking neutrality through constructivism this book argues that neutrality is intrinsically linked to identity Using Sweden as a case study it links identity sovereignty internationalism and solidarity to the debates about Swedish neutrality today and how neutrality has been central to Swedish identity and its world view

Understanding Social Security (Second Edition) Jane Millar, 2009-02-02 The second edition of this important text reviews policy developments since 1997 The chapters have been extensively updated and there are new chapters on social security reform inequalities and social security and the new welfare market

Evaluating Reforms of Local Public and Social Services in Europe Ivan Koprić, Hellmut Wollmann, Gérard Marcou, 2017-10-20 This book explains the increasing demand for evaluation as a result of the increasing frequency of reforms to local services influenced by the New Public Management doctrine the severe austerity policy in many European countries and the wish to increase quality and reduce costs of public services especially at the local sub national level Positioned at the interface of local services and evaluation research it will enable the utilization of evaluation generated knowledge in evidence based policy making by focusing on the lessons learned from evaluation of local service delivery It encompasses local public and social services including waste water public transport

healthcare education and eldercare and examines the hypothesis that there is a North West South East divide in Europe in terms of the evaluation of local service reforms Particular attention is devoted to the explanatory function of evaluation Providing fresh insight into the functioning of local government machinery in contemporary Europe this book will appeal in particular to practitioners and students of local government public economy public administration and policy

Challenges of Active Ageing Simonetta Manfredi,Lucy Vickers,2016-07-30 This edited collection takes a multi disciplinary approach to the Active Ageing agenda to enable readers to consider the implications of this phenomenon for the law the workplace and for working lives from a holistic perspective Challenges of Active Ageing brings together academics working throughout Europe from different disciplines including law industrial relations human resource management and occupational psychology to explore and debate the challenges of the Active Ageing agenda for equality law and management practice Also including shorter contributions from law human resource management trade union and other practitioners this book aims to fully reflect how organizations can adjust their practices to respond to the challenge of an aging population and extended working lives The Political Culture of Nordic Self-Understanding Ainur Elmgren,Norbert Götz,2017-10-02

Power investigation or the practice of power to legitimize itself through commissioned programmes of scientific enquiry is a hallmark of Nordic democracy Five power investigations have been conducted in the Nordic countries since 1972 The close connection to state power has not dissuaded prominent scholars from participating in them nor have their findings evoked strong criticism Combining politically guided perspectives with collaborative research power investigations represent public events that typify the ostensibly open political culture of the Nordic countries rather than simply existing as texts or as a politico scientific genre Although such investigations have been thought of as critical studies of power the authors in this

book show that their findings have varied greatly and that they have served as tools for wielding power Whatever shortcomings they uncover the utility of these investigations in suggesting transparency and self reflection enhances the legitimacy of Scandinavian government The investigations are persuasive exercises through which the commissioning authorities and those scholars hired to carry them out engage in a mutually beneficial exchange Underlying this strategy is the perception deeply embedded in Nordic political culture that politics is a progressive rational endeavour and that identification with the state is an honourable role for academics This book was published as a special issue of the Journal of Contemporary European Studies **Constitutionalism beyond Liberalism** Michael W. Dowdle, Michael A.

Wilkinson, 2017-01-26 Explores the possibilities of constitutionalism from diverse theoretical and comparative perspectives particularly those from outside liberal and Anglo European paradigms *Pursuing Horizontal Management* B. Guy

Peters, 2015-03-13 From the first specialization and coordination have presented governments with a conundrum specialized program might be best for delivering one service to the public but combining such programs for all public services inevitably produces costly redundancies and inefficiencies In this long awaited book Guy Peters brings his expertise and extensive experience to bear on the problem of administrative and policy coordination Through theory and four real world case studies he explores how and whether coordination can transform ordinary flawed patterns of governing into more effective and efficient performance by the public sector This timely work arrives at a moment when coordination is proving especially challenging as popular approaches to public administration emphasize breaking larger public organizations into smaller single purpose programs and as a push to involve the private sector in policy development and implementation has increased government segmentation For insights into the workings and limitations of coordination or horizontal management Peters draws on extensive scholarship as well as his own consulting work with governments including Finland Serbia Bosnia and Herzegovina Canada and Mexico He highlights practical successes and failures of horizontal management in case studies of Homeland Security in the US child protection in the UK policymaking in Finland and the operations of the European Union In the process Peters evaluates a full tool chest of instruments that might be used to enhance coordination Combining theory and practice and considering a wide range of public policy challenges this book clearly and cogently presents the most comprehensive in depth and detailed discussion available of policy coordination in the public sector at a time when its insights are most urgently needed Energy Security for the EU in the 21st Century José María Marín Quemada, Javier

García-Verdugo, Gonzalo Escribano, 2012-03-12 Recent developments like the rising trend in crude oil price the international economic crisis the civil revolts in Northern Africa and the Middle East the nuclear threat in Japan after the tsunami the oil spill in the Gulf of Mexico and the economic growth of emerging countries like China and India have a direct relation to the security of energy supply anywhere in the world This book provides a comprehensive analysis of energy risks energy scenarios and energy policies with special reference to the European Union and its member states emphasizing the economic

and geopolitical dimensions of energy security The book assesses both quantitatively and qualitatively the socioeconomic and political risks related to the European energy supply together with the EU's energy relations with other countries Two innovative indicators have been developed to estimate geopolitical energy risks and energy related relations with other countries The book also examines the process of convergence of member states energy security policies the path towards a common European energy policy and the process of Europeanization projected towards the energy corridors through which the EU receive energy imports In addition alternative strategic scenarios related to energy risk are assessed Finally guidelines for the EU's energy policy and new strategies using energy corridors are suggested in order to maximize EU's energy security The book should be of interest to students and researchers across a wide range of subjects including energy economics and policy energy and foreign policy in the EU energy policies in EU member states and several aspects related to international political economy

the scope for discretion are minimised The Origin of Dialogue in the News Media Regula Hänggli, 2019-09-03 This book develops a new theoretical framework for studying the interaction between political parties the news media and citizens The model addresses how political actors develop and push different arguments in a debate how the news media select and communicate these arguments and how they ultimately influence citizens democratic decisions The author promotes dialogue as a convincing concept for analyzing the quality of public debate and advances a series of arguments for why and how this concept helps improve our understanding of key processes in democracy Based on a detailed analysis of rich empirical data collected from referendum campaigns in Switzerland the book is relevant beyond the specific context and applicable to election campaigns and public debates more broadly **COVID-19 Pandemic and the Social Determinants of Health**

Rosemary M. Caron, Ronica Nicole Rooks, Stefania Salmaso, Mahmoud Kandeel, 2024-07-15 The COVID 19 pandemic has disproportionately affected those population sectors that experience inequality Specifically marginalized racial and ethnic populations with pre existing health conditions those living in poverty those possessing a low education level hourly wage employees etc have experienced an excess burden of COVID 19 morbidity and mortality compared to their White counterparts in developed countries The interaction of the social determinants of health with a novel virus has made visible the inequities that have been hidden or accustomed to in many communities globally As we work to end the current pandemic we must consider the post COVID 19 pandemic era and address the social determinants of health so that populations start from a place of health as opposed to a place of disease for the next public health challenge Syndemic research has demonstrated the interaction among socio cultural factors socio economic factors structural factors and individual factors collectively referred to as the social determinants of health and infectious disease epidemics e g COVID 19 AIDS and social epidemics e g structural racism These interactions can exacerbate and sustain adverse health outcomes for marginalized populations How can communities improve the social determinants of health for impoverished populations The importance of doing so would have implications not only for the health status of communities but could also improve economic conditions for these geographic areas Addressing the social determinants of health for marginalized populations has the potential to improve health for all
