Reid,1990-12-11

Difficulties in motor behavior are commonly associated with a variety of disabilities Early research efforts focused on descriptions of specific groups of people or on evaluations of intervention programs Only recently have investigators begun to explore questions from a variety of theoretical positions in an attempt to build a more fundamental understanding of the disabled person The present volume represents views of major methodological issues current research fronts and selected applied concerns from the perspective of the disabled performer Authors write from a number of theoretical viewpoints and sketch future research directions in these chapters *Growing Up in a Changing Society* Ronnie Carr,Paul Light,Martin Woodhead,2014-02-04 The final reader in the Child Development in Social Context series shows how the study of child development is inevitably bound up in more ephemeral cultural ideas about the nature and needs of children and in the educational practices that rise from these ideas Some readings point to the dangers which can arise from the meeting of science and cultural values using for illustration studies of the role of psychological theory in reinforcing social attitudes to child care inside and outside the family Other readings look at children s initiation into that relatively recent cultural invention the school and the relationship with their learning at home There are studies of their social development in classroom and playground with particular emphasis on ethnic relationships Teaching without Disruption in the Secondary School Roland Chaplain,2017-10-16 Behaviour management training of trainee and qualified teachers has been a national priority for some time This second edition addresses the point that this training and practice should be evidence based The importance of adopting a research based approach is a specific requirement of the guidelines on teacher training and central to this book The training materials in this book give examples of how to put the research into practice which in turn makes the text more useful for self development trainers in schools and university education departments Moreover these materials are supported with case studies showing how they have been used successfully in schools throughout the UK **Research in the Social Scientific Study of Religion, Volume 18** Ralph L.

Gender, Interaction, and Inequality

Cecilia L. Ridgeway, 2013-03-09 Causal explanations are essential for theory building In focusing on causal mechanisms rather than descriptive effects the goal of this volume is to increase our theoretical understanding of the way gender operates in interaction Theoretical analyses of gender's effects in interaction in turn are necessary to understand how such effects might be implicated with individual level and social structural level processes in the larger system of gender inequality Despite other differences the contributors to this book all take what might be loosely called a microstructural approach to gender and interaction All agree that individuals come to interaction with certain common socially created beliefs cultural meanings experiences and social rules These include stereotypes about gendered activities and skills beliefs about the status value of gender rules for interacting in certain settings and so on However as individuals apply these beliefs and rules to the specific contingent events of interaction they combine and reshape their implications in distinctive ways that are particular to the encounter As a result individuals actively construct their social relations in the encounter through their interaction The patterns of relations that develop are not completely determined or scripted in advance by the beliefs and rules of the larger society Consequently there is a reciprocal causal relationship between constructed patterns of interaction and larger social structural forms The constructed patterns of social relations among a set of interactants can be thought of as micro level social structures or more simply microstructures
