# Social Sciences American Civilization

**Thomas Bender**

## **Social Sciences American Civilization:**

**American Civilization** Maurice Boyd, Donald Emmet Worcester, 1973      American Civilization Maurice Boyd, 1964  
**The Navy Chaplain**, 1989      **The Rugg Social Science Course: An introduction to American civilization** Harold Ordway Rugg, 1929      **The Social Sciences and American Civilization** Bruce W. Watson, William Tarr, 1964      **The Origins of American Social Science** Dorothy Ross, 1991 Focusing on the disciplines of economics sociology political science and history this book examines how American social science came to model itself on natural science and liberal politics Professor Ross argues that American social science receives its distinctive stamp from the ideology of American exceptionalism the idea that America occupies an exceptional place in history based on her republican government and wide economic opportunity Professor Ross shows how each of the social science disciplines while developing their inherited intellectual traditions responded to change in historical consciousness political needs professional structures and the conceptions of science available to them This is a comprehensive book which looks broadly at American social science in its historical context and to demonstrate the central importance of the national ideology of American exceptionalism to the development of the social sciences and to American social thought generally      Crossroads of Social Science Heinz Eulau, 1989 The essays in this collection analyze the successes and failures of the social sciences over the last few decades as well as on their future The focus of the book is on generic problems difficulties and dilemmas in the social sciences that the contributors are uniquely qualified to articulate Each of them has been intimately involved in the development of one or another discipline in the last thirty years or so each has made significant contributions to that development in many ways each has a personal perspective on accomplishments and failures promises and needs continuities to be cultivated and opportunities to be seized anyone concerned with the state of social science disciplines should find these essays of interest  
*Journal of Politics*      *University of Illinois Studies in the Social Sciences*, 1914      Social Science in America Charles M. Bonjean, Louis Schneider, Robert L. Lineberry, 2014-07-03 This outstanding symposium concerns the development of the social sciences in the United States over its first two hundred years and was brought together by the editors of *Social Science Quarterly* as the journal's contribution to the nation's Bicentennial celebration Six prominent scholars representing history economics sociology political science anthropology and geography were invited to write essays about the general topic of the progress of the social sciences and to pursue original lines of thought as well Each was asked to address three key questions regarding their own discipline 1 the distinctive contributions made to each discipline by American scholars 2 the impact of these contributions upon American society and 3 the relationship of these contributions to the character or nature of life in the United States The result is a coherent collection of considerable breadth and exceptional quality The essays include *Time's American Adventures American History and Historical Writing since 1776* by William Goetzmann *Economics Its Direct and Indirect Impact in America 1776 1976* by Joseph J Spengler *Sociology in America The Experience of Two Centuries* by Robin

M Williams Understanding Political Life in America The Contribution of Political Science by Heinz Eulau Anthropology in America by Walter Goldschmidt and Geography As a Social Science Recent American Experience by Kevin Cox

**Announcement** University of Michigan--Dearborn,1979 Columbia Studies in the Social Sciences ,1899 *Reader's Guide to American History* Peter J. Parish,2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader s Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history

**The Cambridge History of Science: Volume 7, The Modern Social Sciences** David C. Lindberg,Theodore M. Porter,Roy Porter,Ronald L. Numbers,2003-08-04 This volume provides a history of the concepts practices institutions and ideologies of social sciences including behavioural and economic sciences since the eighteenth century It offers original synthetic accounts of the historical development of social knowledge including its philosophical assumptions its social and intellectual organization and its relations to science medicine politics bureaucracy philosophy religion and the professions Its forty two chapters include inquiries into the genres and traditions that formed social science the careers of the main social disciplines psychology economics sociology anthropology political science geography history and statistics and international essays on social science in Eastern Europe Asia Africa and Latin America It also includes essays that examine the involvement of the social sciences in government business education culture and social policy This is a broad cultural history of social science which analyzes from a variety of perspectives its participation in the making of the modern world

Encyclopedia of African American History, 1896 to the Present Paul Finkelman,2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century **The Annals of the American Academy of Political and Social Science** American Academy of Political and Social Science,1929 *Middle Class: An Intellectual History through Social Sciences* Matteo Battistini,2022-07-18 Matteo Battistini offers a critical deconstruction of the fetish that social sciences have forged for legitimising American capitalism The intellectual history of the middle class provides the social history of a political concept that assumes a specific scientific content acquiring an ideological centrality that has no equal in European history The social sciences have freed the middle class from its historical relationship with work in an attempt to emancipate it from the tension into which it was continually dragged by class conflict In this way the social sciences overturn the image of opposing forces of labour and capital into a consensual order whereby capitalism and democracy would coexist without

tension This book was originally published as *Storia di un feticcio La classe media americana dalle origini alla globalizzazione* by Mimesis Milan Italy 2020 Bulletin of the State Board of Education of Idaho Idaho. State Board of Education, 1926

*Rethinking American History in a Global Age* Thomas Bender, 2002-05-14 In One eloquent essay after another some of the wisest historians of our time write American history in a grand cosmopolitan context From the era of discovery to the present histories that we thought we knew of labor of race relations of politics of gender relations of diplomacy of ethnicity are more richly understood when causes and consequences are traced throughout the globe One emerges invigorated ready to welcome a new American history for a new international century Linda K Kerber author of *No Constitutional Right to Be Ladies Women and the Obligations of Citizenship* *Rethinking American History in a Global Age* is an extremely stimulating and thought provoking collection of essays written by leading historians who offer wider contexts for illuminating the traditional themes and issues of American national history Particularly impressive is the book's combination of caution and original sometimes daring insights David Brion Davis author of *In the Image of God Religion Moral Values and Our Heritage of Slavery* For decades American historians have been urging one another to place our culture in comparative or transnational perspective Thomas Bender's unique volume includes not only essays theorizing such efforts and essays exemplifying such work at its most successful and its most provocative it also provides more skeptical assessments questioning whether American historians can meet the challenge of overcoming our longstanding national preoccupations *Rethinking American History in a Global Age* is an indispensable book that will shape the work of a rising generation of historians whose horizons will extend beyond our own shores James T Kloppenberg author of *The Virtues of Liberalism*

**Social Science in the Crucible** Mark C. Smith, 1994 The 1920s and 30s were key decades for the history of American social science The success of such quantitative disciplines as economics and psychology during World War I forced social scientists to reexamine their methods and practices and to consider recasting their field as a more objective science separated from its historical foundation in social reform The debate that ensued fiercely conducted in books articles correspondence and even presidential addresses made its way into every aspect of social science thought of the period and is the subject of this book Mark C Smith first provides a historical overview of the controversy over the nature and future of the social sciences in early twentieth century America and then through a series of intellectual biographies offers an intensive study of the work and lives of major figures who participated in this debate Using an extensive range of materials from published sources to manuscript collections Smith examines objectivists economist Wesley Mitchell and political scientist Charles Merriam and the more purposive thinkers historian Charles Beard sociologist Robert Lynd and political scientist and neo Freudian Harold Lasswell He shows how the debate over objectivity and social purpose was central to their professional and personal lives as well as to an understanding of American social science between the two world wars These biographies bring to vivid life a contentious moment in American intellectual history and reveal its significance in the shaping of social

science in this country      *The Ohio Social Science Journal* ,1929
