Excerpt from *Structured Social Inequality A Reader in Comparative Social Stratification* Among the earliest written thoughts and judgments about social inequality were those Of the Hebrew prophets who denounced the excesses Of the rich and mighty And as could easily be guessed because there is hardly a subject that cannot be traced to them Plato and Aristotle paid attention to this phenomenon Plato was preoccupied with the conception Of a society in which social inequality would correspond perfectly to the inherent inequality of men Thus his Republic is a utopian society where each man assumes the occupation for which he is best fitted Aristotle the great classifier gave us the scheme Of three classes present in all states One class is very rich another very poor and a third is a mean 7 Knowing his preference for the mean in all things it is not surprising that he thought the middle class the best of the three and those states possessing a large middle class the best administered In his Politics we also find differing dichotomous schemes One is the basic division Of people everywhere into free and slave and the other is the division Of every population into those who work and those who do not About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Class, Status, and Power* Reinhard Bendix, Seymour Martin Lipset, 1966 International study of social structure consisting of six groups of articles by various writers 1 social theories of class structure 2 historical and comparisons 3 power and social status relations 4 differential class behaviour family religion political behaviour education etc 5 social change 6 pending issues Reference mainly to the USA and the USSR with some reference also to Africa Taiwan China Japan Australia and Poland      *Structured Social Inequality* Celia Stopnicka Heller, 1919      **Class, Status and Power** Reinhard Bendix, 1953      **Social Stratification** David B.
