Social Stress and the Family Hamilton I. McCubbin, Marvin B. Sussman, 2014-04-23 An informative anthology of recent theory and research developments pertinent to family stress *Social Stress and the Family* Hamilton I. McCubbin, Marvin B. Sussman, Joan M. Patterson, 1983 *Advances in the Conceptualization of the Stress Process* William R. Avison, Carol S. Aneshensel, Scott Schieman, Blair Wheaton, 2009-10-21 In 1981 Leonard Pearlin and his colleagues published an article that would radically shift the sociological study of mental health from an emphasis on psychiatric disorder to a focus on social structure and its consequences for stress and psychological distress Pearlin et al 1981 proposed a deceptively simple conceptual model that has now influenced sociological inquiry for almost three decades With his characteristic penchant for reconsidering and elaborating his own ideas Pearlin has revisited the stress process model periodically over the years Pearlin 1989 1999 Pearlin et al 2005 Pearlin and Skaff 1996 One of the consequences of this continued theoretical elaboration of the stress process has been the development of a sociological model of stress that embraces the complexity of social life Another consequence is that the stress process has continued to stimulate a host of empirical investigations in the sociology of mental health Indeed it is no exaggeration to suggest that the stress process paradigm has been primarily responsible for the growth and sustenance of sociological research on stress and mental health Pearlin et al 1981 described the core elements of the stress process in a brief paragraph The process of social stress can be seen as combining three major conceptual domains the sources of stress the mediators of stress and the manifestations of stress Each of these extended domains subsumes a variety of subparts that have been intensively studied in recent years *Handbook of Bowen Family Systems Theory and Research Methods* Mignonette N.
