Beyerlein, 2013-06-29 This book places current and future work team practices in historical context Researchers from 10 countries have contributed chapters that represent developments specific to their regions and that illustrate the way ideas spread around the world Some principles of effective teaming were independently discovered in different countries and some principles emerged from the work of researchers like Trist Emery and Lewin and spread around the world But all of the practices were driven by the dynamic tension between the psychology of the employee and business necessities Theories and cases describe autonomous work groups self managed work teams cell teams and other collaborative work structures Contributions to the design of such structures came from psychology management sociology industrial engineering and manufacturing Because of the challenges inherent in reorganising work around teams instead of individuals organizations are at different stages in evolving into 21st century work systems **Nation, Constitutionalism and Buddhism in Sri Lanka** Roshan de Silva Wijeyeratne, 2013-08-15 Nation Constitutionalism and Buddhism in Sri Lanka offers a new perspective on contemporary debates about Sinhalese Buddhist nationalism in Sri Lanka In this book de Silva Wijeyeratne argues forcefully that Sinhalese Buddhism in the period prior to its engagement with the British colonial State signified a relatively unbounded although at times boundary forming set of practices that facilitated both the inclusion and exclusion of non Buddhist concepts and people within a particular cosmological frame Juxtaposing the premodern against the backdrop of colonial modernity de Silva Wijeyeratne tells us that in contrast modern Sinhalese Buddhism nationalism is a much more reified and bounded concept one imagined through a 19th century epistemology whose purpose was not so much inclusion but a much more radical exclusion of non Buddhist ideas and people In this insightful analysis modern Sinhalese Buddhist nationalism then emerges through the conjunction of discourse power and knowledge at a distinct moment in the trajectory of the colonial State An intrinsic feature of this modernist moment is that premodern categories such as the cosmic order were subject to a bureaucratic re valuation that generated profound consequences for State society relations and the wider constitutional legal imaginary This book goes onto explore how key constitutional and nation building moments were

framed within the cultural milieu of modern Sinhalese Buddhist nationalism a nationalism that reveals the power of a revalued Buddhist cosmic order to still inform the present Given the intensification of the Sinhalese Buddhist nationalist project following the defeat of the Tamil Tigers in 2009 this book is of interest to scholars of nationalism South Asian studies the anthropology of ritual and comparative legal history *American Universities and Colleges* ,2014-10-08 No detailed description available for American Universities and Colleges *Subject Guide to Books in Print* ,1991 [The United States Catalog](#) Mary Burnham,Carol Hurd,1928 *Readers' Guide to Periodical Literature* ,1919 *Braiding Histories* Susan D.
