Handbook of Research on Information Communication Technology Policy: Trends, Issues and Advancements Adomi, Esharenana E.,2010-07-31 The Handbook of Research on Information Communication Technology Policy Trends Issues and Advancements provides a comprehensive and reliable source of information on current developments in information communication technologies This source includes ICT policies a guide on ICT policy formulation implementation adoption monitoring evaluation and application and background information for scholars and researchers interested in carrying out research on ICT policies

Implementing IT governance in the public sector by use of bootstrap algorithms Petter Ogland,2017-11-29 It has been argued that the reason seventy percent of all IT projects fail is due to lack of a formal system for guiding and monitoring IT decisions Organisations having explicit IT governance systems are generally twice as successful as those with poor governance given the same strategic objectives but implementing IT governance can be difficult In this book Dr Ogland looks at the public sector and argues that the implementation of IT governance has to be done through bootstrapping The bootstrap algorithm BA is a time tested approach that is known to work but it is an approach that breaks with much of the logic of the public sector bureaucracy and is expected to be met with resistance By analysing patterns in a study of trying to convince a Norwegian public sector organisation to implement IT governance through the use of the BA the book is able to provide rich insights on what causes failure and how to make the implementation process succeed

Gender Gaps and the Social Inclusion Movement in ICT Williams, Idongesit,Millward, Olga,Layton, Roslyn,2018-12-14 Despite advancements in technological and engineering fields there is still a digital gender divide in the adoption use and development of information communication technology ICT services This divide is also evident in educational environments and careers specifically in the STEM fields In order to mitigate this divide policy approaches must be addressed and improved in order to encourage the inclusion of women in ICT disciplines Gender Gaps and the Social Inclusion Movement in ICT provides emerging research exploring the theoretical and practical aspects of gender and policy from developed and developing country perspectives and its applications within ICT through various forms of research including case studies Featuring coverage on a broad range of topics such as digital identity human rights and social

inclusion this book is ideally designed for policymakers academicians researchers students and technology developers seeking current research on gender inequality in ICT environments *Information Communication Technologies and City Marketing: Digital Opportunities for Cities Around the World* Gascó-Hernandez, Mila,Torres-Coronas, Teresa,2009-02-28 Examines how ICTs contribute to the development of city marketing strategies to enhance local socio economic development Covers topics such as city branding export promotion and industry marketing *E-Justice: Using Information Communication Technologies in the Court System* Martinez, Agusti Cerrillo i,Abat, Pere Fabra i,2008-07-31 This book presents the most relevant experiences and best practices concerning the use and impact of ICTs in the courtroom Provided by publisher **ICEL 2018 13th International Conference on e-Learning** Professor Eunice Ivala,2018-07-05

Information Communication Technologies and Human Development: Opportunities and Challenges Gascó-Hernandez, Mila,Equiza-Lopez, Fran,Acevedo-Ruiz, Manuel,2006-11-30 Emphasizes the need to consider the geographic historic and cultural context of an information communication technology ICT for development initiative This work includes several real examples that show some of the key success factors that have to be taken into consideration when using ICTs for development It is a tool for practitioners Information Communication Technologies: Concepts, Methodologies, Tools, and Applications Van Slyke, Craig,2008-04-30 The rapid development of information communication technologies ICTs is having a profound impact across numerous aspects of social economic and cultural activity worldwide and keeping pace with the associated effects implications opportunities and pitfalls has been challenging to researchers in diverse realms ranging from education to competitive intelligence **Theories, Methods, Practices, and Fields of Digital Social Research** Gabriella Punziano,Felice Addeo ,Angela Delli Paoli,2024-07-08 The digital in the form of technologies scenarios objects processes and relational and interactional structures is increasingly becoming central to understanding culture society human experience and the social world It permeates our society s practices symbols and shared meanings and it makes old distinctions such as the one between online and offline real and virtual and material and immaterial obsolete It also introduces digitally native objects of research such as cyber bullying and digital identities which have a direct impact on mainstream sociological problems **Information Communication Technology and Social Transformation** Hugh F. Cline,2014-02-05 This book argues that information communication technologies are not creating new forms of social structure but rather altering long standing institutions and amplifying existing trends of social change that have their origins in ancient times Using a comparative historical perspective it analyzes the applications of information communication technologies in relation to changes in norms and values education institutions the socialization of children new forms of deviant and criminal behaviors enhanced participation in religious activities patterns of knowledge creation and use the expansion of consumerism and changing experiences of distance and time *Mobile Computer Usability* Gamel O. Wiredu,2013-11-19 This book explains how mobile computer usability is shaped by the increasing integration of personal

circumstances in organization It represents an attempt to conceptualize an alternative model of mobile computer usability It is motivated by the author's conviction that we do not yet have an adequate understanding of this concept because we have not taken seriously the transformation of human personality by the co evolution of organization and ICTs The author argues that the transformation has resulted in a human personality whose personal and organizational activities are characterized by strong continuities between them This characterization reflects a new kind of personality of the worker and is a critical determinant of mobile computer usability The word organizational is used to describe this kind of personality hence an alternative organizational personality perspective on mobile computer usability This perspective suggests that a mobile computer is more usable to a person than another one because of its satisfaction of both his personal and organizational motives which are in turn shaped by the co evolution of organization technology and personality

Social Theory and Communication Technology Terje Rasmussen, 2019-06-11 This title was first published in 2001 An investigation of new forms of interaction and communication The essays address theoretical contributions and insights which may assist us in the understanding of modern society inhabited by a wide range of new media In order to answer questions on this subject the text suggests a structural hermeneutic a view on the public as agents embedded in their lifeworlds rather than as consumers and receivers who play a large part in reproducing structural and distanced processes of meaning The essays explore the implications of such daily practices as making a telephone call or sending an email receiving money from a bank machine using a credit card or retrieving information from a Web site Each of these practices reproduce patterns of information and communication practices which reshape communication processes in society The essays examine the relationship between media change and social change with particular emphasis on their contribution to social interaction in everyday life and in the reproduction of social systems
