Montigny,2018-10-11 What do the stories youth in state care tell about life in their family of origin What stories do they tell us about coming into care living in care and relationships with foster parents and social workers This book presents the stories of youth in care though not in splendid isolation but as interactively produced turn by turn in interviews and in conversations with other youth By using tools from conversation analysis CA the author examines interviews with youth in care and social workers to unfold the essential and incorrigible reflexivity of story production CA allows us to grasp the ways that a youth s story emerges turn by turn and is an artefact of a social relation between a youth and an interviewer This text provides social work readers with a sense of art artistry and ambiguity at the heart of social interaction It will be required reading for all social work students and academics looking for a deeper more philosophical understanding of the profession

Social Work Values Noel Timms,2018-11-09 Originally published in 1983 Social Work Values is a sustained enquiry about the present situation of social work It describes the treatment of social work values in the social work literature and in research and pursues three distinct avenues towards an improvement on the present unsatisfactory treatment First the book introduces and encourages more philosophical reflection on the customary lists of social work values Second it investigates three social work controversies between the Charity Organisation Society and the Socialists between the Functionalist and the Diagnostic schools of social work and between radical Marxists and the rest Third and finally it explores the treatment of value and values in economics sociology ordinary usage and philosophy in order to establish the distinctive elements to which the term values is applied *Social Work in a Risk Society* Stephen A. Webb,2006-01-23 This path breaking text constructs a new way of thinking about social work based on contemporary social theory Working in a counter tradition that is suspicious of a number of governing ideas and practices in social work it draws on themes from Beck Giddens Rose to

explore the impact of risk society and neo liberalism on social work      **Fieldwork Training in Social Work** Bishnu Mohan Dash, Sanjoy Roy, 2019-07-01 This volume is a definitive manual for students and practitioners involved in learning and developing essential theories and models for fieldwork practicum in social work education It addresses various functional issues in field practicum delineates proper guidelines for students and supervisors discusses criteria of supervision and evaluation and explores the concerns facing South Asian field practitioners The volume focuses on traditional and non traditional components and aspects of fieldwork and training such as The value and use of educational camps and skill development workshops The contemporary field level needs and strategies in social work practicum Formulating alternative practice theories that will allow social work practitioners to respond to the critical social problems unique to India and South Asia The book provides multiple frameworks for teaching and learning fieldwork that integrate theory and practice and create an environment where students can develop intervention strategies using their knowledge skills and techniques The volume will be indispensable reading for undergraduate and post graduate students of social work It will also be useful for scholars of sociology anthropology and development studies and practitioners engaged in various non governmental and international organizations      The Service User as a Partner in Social Work Projects and Education Emanuela Chiapparini, 2016-06-13 To become a competent social worker it is essential to know the perspective of the service users Therefore service users are more and more included in field research projects and the instruction of social workers to be However they are usually reduced to the role of informants and not actively taking part as co partners For the first time this anthology gives an overview of courses in which service users and students share their experiences and work together on the same level using gapmending methods The applications and evaluations of these courses in different European countries are discussed in this volume      **Social Work and the Third Way** Bill Jordan, 2000-10-23 This lively book critiques New Labour assumptions and implementation of policies related to citizenship communities and welfare reform and the implications of current developments for social work Focusing explicitly on the UK the book nevertheless draws on examples and comparisons from other countries including notably Australia and the US but also countries in the EU and Central and Eastern Europe and some of the concerns and arguments will be appreciated by readers elsewhere International Social Work This book is a well written contribution to both the British Third Way debate and the welfare state literature The book will appeal to upper level undergraduates as well as scholars of British politics and the welfare state Political Studies Jordan begins by establishing New Labour's suspicion of local government framing its policy on welfare Fundamentally there exists a need for social workers to educate themselves as to the nature of this social experiment which New Labour has embarked upon It challenges social workers to be aware This is an interesting and at times challenging book reiterating the history and roots of current ideology within government The work is grounded in a contemporary context of social services and social work practice challenging the withdrawal of social work behind a barrier of managerialism budget control form filling into

office based assessment and rationing Finally it offers a satisfying critique to the dominant hegemonic of evidence based practice arguing for research at the level of means rather than the technical Jordan similarly argues in his conclusion that all of the government white papers guidelines etc indicate a lack of clarity of purpose and method social work should retain its belief in a human and creative activity which engages with people s emotions as well as their rights and obligations British Journal of Social Work The New Labour government in the UK is committed to a programme of reform of the welfare state that will pull away safety nets and replace them by trampolines to bounce citizens back into active participation Its regime of tough love will make more demands on those claiming benefits and services as well as clamping down on dependency fraud and crime This will be done by changing the culture of welfare agencies towards promoting achievement and independence as well as meeting genuine need In Social Work and the Third Way Bill Jordan provides an accessible and lively analysis of the tensions between toughness and love in the Third Way s political philosophy and the problems of implementing New Labour s programme He looks at the government s reliance on face to face methods for activating citizens and changing their behaviour in many of its initiatives On the one hand New Labour places a surprising amount of faith in the ability of counsellors and advisers to bring about the changes it requires yet it is highly suspicious of the public sector in general and local authorities in particular as part of the forces of conservatism in the UK Hence it spawns new agencies and projects often with a strong enforcement ethos and regulates the whole implementation process through strict top down surveillance In all this professional social work and local authority social services are relegated to a tightly circumscribed role in social care The author argues for a new more generous and expansive approach to practice which can do justice to the challenges of change under New Labour s regime and in doing so Social Work and the Third Way provides an important and topical contribution to the debate on the future of the Welfare State and will be essential reading for students and researchers in social work social policy and politics

*An Introduction to Social Work Theory* David Howe, 1987

Social workers need to recognize the critical role that theory plays both in the way they make sense of what is going on and in the way they order their work. Such recognition clarifies practice for both the worker and the client. This classic text provides a framework to help social workers develop an understanding of the theories which inescapably underpin their thoughts and actions. The result is a stimulating guide to social work theory which is proven to help social workers both to understand their practices and to practise in a disciplined and imaginative way.

Experiencing Social Work Mark Doel, Lesley Best, 2008-02-21. *Experiencing Social Work* provides a refreshing change in the expanse of social work education texts. Its focus on learning from people who had received a good service from social workers drew out many of the foundation blocks of practice that can so easily be minimised in favour of deeper academic theories. In short, it reminded me of my own passion for practice and the privilege it is to be part of the social work profession. Kay Wall, Lecturer in Social Work. In this book, people tell their stories of positive social work and the difference it has made to their lives. The book was inspired by the belief that we can learn more from what goes right than what goes wrong. Follow the stories in each chapter to read about good practice, to reflect on the lessons learned and to feel uplifted by social work's potential for positive change and social justice. Other key features include: Case examples from a wide range of service user groups including people with mental health problems, disabilities, parenting difficulties, those living in care, those experiencing loss and other life transitions; Commentaries that unpack the core themes and issues from each example in order to understand the experience and learn from it; Examples of how social work students have contributed to positive change in the lives of service users; A strong grounding in the ethical guidelines and skills base required of all social work practice. This important book will be valuable.

### **Post-Pandemic Welfare and Social Work**

Goetz Ottmann, Carolyn Noble, 2023-08-04 The COVID-19 pandemic represents a critical juncture in the development of the welfare state, affirming its importance for its citizens' economic health and wellbeing and safety, especially for its most vulnerable populations. It demonstrated that the crisis preparedness that is crucial for an effective protection of its citizens, the ultimate purpose of the welfare state, unquestionably exceeds the narrow horizon of a corporatised welfare industry with its singular focus on the maximisation of profit for the elites and cost containment for the government. Social workers need to engage with the contradictions and tensions that spring from underfunded welfare services and engage in the political struggle over a well-resourced welfare state. Contributors to this book take on this challenge. By tracing the various contradictions of the pandemic, the contributors reflect on new ways of thinking about welfare by exploring what to keep, what to challenge and what to change. By highlighting important challenges for a social justice-focused response as well as exploring the many challenges exposed by the pandemic facing social work for the coming decades, contributors critically outline pathways in social work that might contribute to the shaping of a less cruel and more capable welfare state. Using case studies from Indigenous and non-Indigenous Australia, Italy, Slovenia, Estonia, Sweden, Spain, South Africa, Canada, Sri Lanka, Zimbabwe, China and the United States, the book features 19 chapters by leading experts. This book will be of interest to all social work scholars, students and practitioners as well as those working in social policy and health more broadly.

### ***Social Work: The Social Organisation of an Invisible Trade***

Andrew Pithouse, 2019-05-23 First published in 1998, this book sets out to shed sociological light upon the much under-researched realm of day-to-day child care practice. The text broke new ground when first published in 1987 and there have been few, if any, similar books that adopt an ethnographic approach to statutory child care practice. this rarely analysed occupational world However it would enjoy greater resonance when up dated with practitioner viewpoints on the extent to which the findings remain pertinent today which is likely to be the case The book offers no conclusions other than it demonstrates that the invisible world of practice cannot be readily understood or changed unless grasped through an interactionist sociology The book is aimed at a social work social welfare market as well as a sociology of profession organization readership     Digital Connection in Health and Social Work Denise Turner, Michael Fanner, 2025-02-28 This book focusses on the move to digitally mediated forms of teaching learning and practice during Covid 19 and offers a series of case studies which showcase positive practices during this time Education Health and Social Work services have all been at the forefront of national debate since the first UK lockdown in March 2020 Schools Colleges and Higher Education institutions moved rapidly to online delivery with educators parents practice learning partners and students alike compelled to adapt to online connection disrupting previous norms and forcing a rapid acquisition of new skills In health and social care practice there has been a similar move to online delivery whilst maintaining consistency of service and support The pandemic also coincided with the recommendations of the national Digital Capabilities for Social Work project commissioned by Health Education England which produced a prescient framework for professional practice This book showcases innovative ways in which practice and education have responded to the challenges of Covid 19 With ongoing debate about planning for the next pandemic as well as adapting to the post Covid landscape the book is a valuable resource for all those involved in health and social work education and practice
