Human Behavior Theory and Social Work Practice Roberta R. Greene, 2017-07-28 Human Behavior Theory and Social Work Practice remains a foundation work for those interested in the practice and teaching of social work Roberta Greene covers theoretical areas and individual theorists including classical psychoanalytic thought Eriksonian theory Carl Rogers cognitive theory systems theory ecological perspectives social construction feminism and genetics She discusses the historical context its philosophical roots and major assumptions of each theory The general theme which distinguishes this volume is that the person in environment perspective has been a central influence in the formation of the profession s knowledge base as well as its approach to practice Greene provides perspective on how individuals and social systems interact This book examines how social workers can use theory to shape social work practice by increasing his or her understanding of and potential for enhancing human well being Greene covers the relationship between human behavior theory and professional social work practice She also explores the challenges and limitations of each theory and addresses the following issues how the theory serves as a framework for social work practice how the theory lends itself to an understanding of individual family group community or organizational behavior what the implications are of the theory for social work interventions or practice strategies and what role it proposes for the social worker as a change agent Throughout

the profession's history social workers have turned to a number of theoretical approaches for the organizing concepts needed to define their practice base. The aims of social work to improve societal conditions and to enhance social functioning of and between individuals, families, and groups are put into action across all fields of practice and realized through a variety of methods in a range of settings. This third edition, completely revised, represents a fundamental contribution to the field and like its predecessors will be widely used as a basic text.

Human Behavior Theory and Social Work Practice with Marginalized Oppressed Populations Roberta R. Greene, Michael Wright, Melvin Herring, Nicole Dubus, Taunya Wright, 2019-04-29. *Human Behavior Theory and Social Work Practice with Marginalized Oppressed Populations* addresses what social workers can do to combat the increasingly complex social concerns that face the profession and explores how to incorporate the celebration of diversity and the protection of human rights into social work curricula and the helping process. The authors combine human behavior theories with a narrative postmodern practice methodology that deals with both the client's or constituencies' presenting problem and equity issues, and as a result, the book is both theoretical and applied. Two major integrating themes throughout are at the forefront of the book: the celebration of diversity and the equality of human rights. The goal is to strengthen diversity and human rights components of the social work curriculum and to provide more practice guidelines for cross-cultural practice.

experiential knowledge is a critical component of good social work. This unique text is designed to help social work students and practitioners to integrate theorizing into practice demonstrating how to search for select and translate academic knowledge for practical use in helping people improve their lives and environments. Presenting 32 core skills, *Skills for Using Theory in Social Work* provides a conceptual foundation, a vocabulary and a set of skills to aid competent social work theorizing. Each chapter outlines the knowledge and action components of the skill and its relationship to core practice behaviours along with learning and reflection activities. The lessons are divided into four parts. Section one discusses foundational material including self identification as a theorist/practitioner, the deliberate use of the term theory and a social work approach to the selection of knowledge. Section two focuses on the adept use of theorizing skills. It covers identifying assumptions, using concepts, formulating propositions, organizing theory elements inductively or deductively, summarizing and displaying the elements of a theory, gathering and organizing assessment information and communicating with clients and colleagues about tentative theories. Section three includes lessons preparing social workers for the construction of useful middle range theories including causal theories and interpretive theories and for testing and sharing these practical theories. Section four presents skills to develop critical thinking about theoretical knowledge. These include avoiding the misuse of theory, judging a theory using scientific standards, judging a theory by professional standards, critiquing theory in its cultural and historical context and making judgments about the likely long term impact of a theory. This key text will help readers to demonstrate their expertise in reflective, competent and theory informed practice. It is suitable for all social work students and practitioners, particularly those taking practice theory and human behaviour in the social environment courses.
