Latinos in American Society Ruth Enid Zambrana, 2011-06-15 It is well known that Latinos in the United States bear a disproportionate burden of low educational attainment high residential segregation and low visibility in the national political landscape In *Latinos in American Society* Ruth Enid Zambrana brings together the latest research on Latinos in the United States to demonstrate how national origin age gender socioeconomic status and education affect the well being of families and individuals By mapping out how these factors result in economic social and political disadvantage Zambrana challenges the widespread negative perceptions of Latinos in America and the single story of Latinos in the United States as a monolithic group Synthesizing an increasingly substantial body of social science research much of it emerging from the interdisciplinary fields of Chicano studies U S Latino studies critical race studies and family studies the author adopts an intersectional social inequality lens as a means for understanding the broader sociopolitical dynamics of the Latino

Padilla, Ruth McRoy, Rocío Calvo, 2020-05-21 With research showing that clients from diverse racial and ethnic groups disproportionately experience barriers in their interactions with social services and that providers recognize the need to be better prepared to work with these groups this book invites us to rethink current approaches to social work practice with multicultural communities We begin with a synthesis of the current evidence on the provision of care to multicultural communities that provides an in depth look at both client and provider experiences The following chapters offer tangible research based approaches to engaging with multicultural clients and reveal often unrecognized problems with current models of social work practice A unique compilation of rigorous qualitative experimental and community based studies demonstrate the effectiveness of culturally grounded interventions and identify the specific factors associated with positive outcomes Areas covered include disability marriage and couple relationship problems domestic violence and mental illness within Latinx African American First Nations and South Asian communities As the authors in this book show the stories of multicultural communities are narratives of unprecedented resourcefulness and reinvention Yet social work underutilizes rich family and community cultural resources By not facilitating their involvement social service systems compromise these vital resources which social services cannot replace In arguing that we need to expand professional boundaries to encompass indigenous practices family and extended kin and therapeutic relationships that make sense to different cultural groups this book will be of interest to those studying the ways in which social work practice can be improved to better suit the needs of a racially and ethnically diverse population This book was originally published as a special issue of the Journal of Ethnic Cultural Diversity in Social Work Chinese Americans in the Heartland Huping Ling, 2022-09-16 Introduction Defining the Asian American heartland and its significance Transnational migration and businesses in Chinese Chicago 1870s 1930s Building hop alley myth and reality of Chinatown in St Louis 1860s 1930s Intellectual tradition of heartland Chicago School and beyond Family and marriage in heartland 1880s 1940s Living heartland 1860s 1950s Governing heartland on Leong Chinese Merchants and Laborers Association 1906 1966 The 1965 Immigration and Nationality Act and the formation of cultural community in St Louis The tripartite community in Chicago Conclusion Convergences and divergences *Child Welfare for the Twenty-first Century* Gerald P. are in fact often highly productive and bear most of the burdens of family caregiving responsibilities In spite of their majority status and list of concerns older women are less likely to be equally represented in the literature on aging This edited book introduces the reader to the diversity challenges and contributions of older women in several of the major regions of the world This book was originally published as a special issue of the Journal of Ethnic and Cultural Diversity in Social Work
