Bakalar, Lester Grinspoon, 1988-04-29 This book offers a provocative analysis of controlling alcohol and drugs in industrial societies *Political Discipline in a Free Society* H. J. Blackham, 2013-04-15 This book traces the rise and fall of political philosophies since the 17th century The second part of the book shows how the general technique of cumulative learning from experience applies to social legislation and social services party politics to defence strategy and to the trends that follow the modern explosion of knowledge and capital The main argument is that social control is at its best a deliberate joint creation of and learning from social experience and in this sense political discipline although not the same as logical or scientific discipline is like them a submission to form not force The book gives a definite meaning to the idea of human progress and finds reason for a restoration of political hope and faith **Jurisprudence For a Free Society** Harold D. Lasswell, Myres S. McDougal, 2023-12-28 Jurisprudence For a Free Society is a remarkable contribution to legal theory In its comprehensiveness and systematic elaboration it stands among the major theories It is also the most important jurisprudential statement to emerge in the post war period The pioneering work of Lasswell and McDougal on law and policy is already legendary Most of the work produced by these scholars together and in collaboration with their students represent applications of their basic theory to a wide assortment of international and national legal and policy problems Now for the first time the authoritative statement of their legal philosophy appears as a single volume In Part I the authors develop their fundamental criteria for a theory about law including the requirements of clarifying observational standpoint focus of inquiry and the pertinent intellectual tasks incumbent on the scholar and decisionmaker for determining and achieving common interests Trends in theories about law including Natural Law the Historical School Positivism the Sociological Study of Law American Legal Realism and other contemporary theories are explored for what they might contribute to the achievement to the authors conception of an adequate jurisprudence The print edition is available as a set of two volumes 9780792309895

Corporatism, Social Control, and Cultural Domination in Education: From the Radical Right to Globalization Joel Spring,2012-11-27 Starting with the 1972 publication of his seminal work Education and the Rise of the Corporate State Joel Spring has been documenting and analyzing the politics of knowledge and education Throughout his work he has explored the attempts to use education to advance the economic and political interests of dominant groups The general term he uses for the relationship between schools and power is ideological management His scholarly work first looked at the influence on American schooling of business and economic doctrines embodied in human capital theories and consumerism The next step in his exploration of the politics of knowledge was to examine these issues in the context of globalization leading to a proposed educational rights amendment to national constitutions and a new paradigm for education both of which might ensure that schools are protected from ideological management by economic and political elites Spring s indigenous background has strongly shaped his interest in the political and economic goals of schooling particularly the attempts of those in power to use schools to destroy indigenous languages and cultures In this collection Spring brings together 10 of his key writings providing an overview not just of his own career but the larger contexts in which it is situated In the Introduction he reviews the evolution and scope of his work and his earlier arguments and reflects on its central themes

which are reflected in the writings selected for this volume In the World Library of Educationalists international scholars themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands of their work and see their contribution to the development of a field as well as the development of the field itself Contributors to the series include Michael Apple James A Banks Stephen J Ball Elliot Eisner Howard Gardner John Gilbert Ivor F Goodson Peter Jarvis

Egalitarianism of the Free Society Robert Corfe, 2008 This volume presents the new realities in the spheres of social life as an introduction to the author's forthcoming three volume work on Social Capitalism which concentrates on the shattering economic and political changes in the contemporary world

Pornography in a Free Society Gordon Hawkins, Franklin E. Zimring, 1988 Pornography in a Free Society deals with what has been called the civil war over smut It addresses an issue about which citizens of Western nations are sharply divided Gordon Hawkins and Franklin Zimring attempt to look at the problem of pornography in a wider perspective than that of partisan political debate To that end they compare two American reports on pornography commissioned by Presidents Johnson and Reagan the first published in 1970 and the latter in 1986 with the report of the British Committee on Obscenity and Film Censorship which appeared during the years between the American reports They discuss the radical feminist challenge to pornography and the question of pornography and children Going on to consider likely future developments the authors argue that the furore over pornography and the appointment of commissions are part of a ceremony of adjustment to widespread availability of sexually explicit material and they predict less social concern about pornography as time passes

President's Commission on Law Enforcement and Administration of Justice, 1967 This report of the President's Commission on Law Enforcement and Administration of Justice established by President Lyndon Johnson on July 23 1965 addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice In developing its findings and recommendations the Commission held three national conferences conducted five national surveys held hundreds of meetings and interviewed tens of thousands of individuals Separate chapters of this report discuss crime in America juvenile delinquency the police the courts corrections organized crime narcotics and drug abuse drunkenness offenses gun control science and technology and research as an instrument for reform Significant data were generated by the Commission's National Survey of Criminal Victims the first of its kind conducted on such a scope The survey found that not only do Americans experience far more crime than they report to the police but they talk about crime and the reports of crime engender such fear among citizens

that the basic quality of life of many Americans has eroded The core conclusion of the Commission however is that a significant reduction in crime can be achieved if the Commission s recommendations some 200 are implemented The recommendations call for a cooperative attack on crime by the Federal Government the States the counties the cities civic organizations religious institutions business groups and individual citizens They propose basic changes in the operations of police schools prosecutors employment agencies defenders social workers prisons housing authorities and probation and parole officers
