Interconnections in the Central Mediterranean Anthony Bonanno, Pietro Militello, 2008 *The Archaeology of Mediterranean Prehistory* Emma Blake, A. Bernard Knapp, 2008-04-15 This book offers a comprehensive introduction to the archaeology of Mediterranean prehistory and an essential reference to the most recent research and fieldwork Only book available to offer general coverage of Mediterranean prehistory Written by 14 of the leading archaeologists in the field Spans the Neolithic through the Iron Age and draws from all the major regions of the Mediterranean s coast and islands Presents the central debates in Mediterranean prehistory trade and interaction rural economies ritual social structure gender monumentality insularity archaeometallurgy and the metals trade stone technologies settlement and maritime traffic as well as contemporary legacies of the region s prehistoric past Structure of text is pedagogically driven Engages diverse theoretical approaches so students will see the benefits of multivocality **Prehistoric Europe** Andrew Jones, 2008-11-10 Prehistoric Europe Theory and Practice provides a comprehensive introduction to the range of critical contemporary thinking in the study of European prehistory Presents essays by some of the most dynamic researchers and leading European scholars in the field today Ranges from the Neolithic period to the early stages of the Iron Age and from Ireland and Scandinavia to the Urals and the Iberian Peninsula **Sacred Darkness** Holley Moyes, 2012-09-01 Caves have been used in various ways across human society but despite the persistence within popular culture of the iconic caveman deep caves were never used primarily as habitation sites for early humans Rather in both ancient and contemporary contexts caves have served primarily as ritual spaces In Sacred Darkness contributors use archaeological evidence as well as ethnographic studies of modern ritual practices to envision the cave as place of spiritual and ideological power and a potent venue for ritual practice Covering the ritual use of caves in Europe Asia Australia Africa Mesoamerica and the US Southwest and Eastern woodlands this book brings together case studies by prominent scholars whose research spans from the Paleolithic period to the present day These contributions demonstrate that cave sites are as fruitful as surface contexts in promoting the understanding of both ancient and modern religious beliefs and practices This state of the art survey of ritual cave use will be one of the most valuable resources for understanding the role of caves in studies of religion sacred landscape or cosmology and a must read for any archaeologist interested in caves **Dark Age Liguria** Ross Balzaretti, 2013-05-23 A detailed case study of the Liguria region of Italy using the insights gained there to illuminate events at the end of Roman imperial rule **The Oxford Handbook of Prehistoric Figurines** Timothy Insoll, 2017 The Oxford Handbook of Prehistoric Figurines is the first text to offer a comparative survey of figurines from across the globe bringing together myriad contemporary research approaches to provide invaluable insights into their function context meaning and use as well as past thinking on the human body gender and identity **Experiencing Etruscan Pots** Lucy Shipley, 2015-02-28 What was it like to use and live with Etruscan

pottery Characterising that experience of Etruscan pottery is the concern of this book More specifically this volume aims to unpick both the physical encounter between vessel and hand and the emotional interaction between the user of a pot and the images inscribed upon its surface **The ^AOxford History of the Archaic Greek World** Paul Cartledge,Paul

Christesen,2025-06-20 The ancient Greek world consisted of approximately 1 000 autonomous polities scattered across the Mediterranean basin and each one developed its own unique set of socio political institutions and social practices The Oxford History of the Archaic Greek World offers twenty one detailed studies of key sites from across the Greek world between c 750 and c 480 BCE a crucial period when much of what is now seen as distinctive about Greek culture emerged All the studies in this seven volume series use the same structure and methodology so that readers can easily compare a wide range of Greek communities The series thus offers a new and unique resource for the study of ancient Greece that will transform how we study and think about a crucial era in ancient Greek history Volume III contains detailed and up to date studies of Cumae and Pithecusae The Cyclades and Cyprus **The Bioarchaeology of Classical Kamarina** Carrie L. Sulosky Weaver,2015-09-23

Choice Outstanding Academic Title Sicily was among one of the first areas settled during the Greek colonization movement making its cemeteries a popular area of study for scholars of the classical world Yet these studies have often considered human remains and burial customs separately In this seminal work Carrie Sulosky Weaver synthesizes skeletal material and ritual data to reconstruct the burial customs demographic trends state of health and ancestry of Kamarina a city state in Sicily Using evidence from 258 recovered graves from the Passo Marinaro necropolis Sulosky Weaver suggests that Kamarineans whose cultural practices were an amalgamation of both Greek and indigenous customs were closely linked to their counterparts in neighboring Greek cities The orientations of the graves positions of the bodies and the types of items buried with the dead including Greek pottery demonstrate that Kamarineans were full participants in the mortuary traditions of Sicilian Greeks Likewise cranial traits resemble those found among other Sicilian Greeks Interestingly evidence of cranial surgery magic and necrophobic activities also appeared in Passo Marinaro graves another example of how Greek culture influenced the city An overabundance of young adult skeletal remains combined with the presence of cranial trauma and a variety of pathological conditions indicates the Kamarineans may have been exposed to one or more disruptive events such as prolonged wars and epidemic outbreaks Despite the tumultuous nature of the times the resulting portrait reveals that Kamarina was a place where individuals of diverse ethnicities and ancestries were united in life and death by shared culture and funerary practices **Our Social World** Dr Jeanne H Ballantine,Keith A. Roberts,2011-04-25 The Third Edition of Our

Carpino, 2016-02-23 This new collection presents a rich selection of innovative scholarship on the Etruscans a vibrant independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic social and cultural traditions helped shape the ancient Mediterranean European and Classical worlds Includes

contributions from an international cast of both established and emerging scholars Offers fresh perspectives on Etruscan art and culture including analysis of the most up to date research and archaeological discoveries Reassesses and evaluates traditional topics like architecture wall painting ceramics and sculpture as well as new ones such as textile archaeology while also addressing themes that have yet to be thoroughly investigated in the scholarship such as the obesus etruscus the function and use of jewelry at different life stages Greek and Roman topoi about the Etruscans the Etruscans reception of ponderation and more Counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity
