Social Impact Assessment:

New Directions in Social Impact Assessment Frank Vanclay, Ana Maria Esteves, 2011-01-01 This book should be read by anyone commissioning impact assessments who wants to build their understanding of the more progressive and innovative end of the topic. A job well done in the eyes of stakeholders and regulators requires proper social analysis. Jon Samuel Head of Social Performance, Anglo American. The list of authors reads like a who's who in SIA. Academics and practitioners are equally represented among the authors. The book provides a good mix of broad theoretical concepts and specific practical topics. Martin Haefele, Manager, Environmental Impact Assessment at Mackenzie Valley Environmental Impact Review Board, Yellowknife, Northwest Territories, Canada. This book gives a very broad overview of where Social Impact Assessment is coming from, where it is now, and where it could go, from an impact assessment tool to an impact management tool. It provides a realistic insight into both the achievements and the struggles of Social Impact Assessment. A recommended read for both those interested in Social Impact Assessment and those in related domains where social issues are gaining increasing importance, such as Environmental Assessment and Sustainability Appraisal. Rob Verheem, Deputy Director, Netherlands Commission for Environmental Assessment. This important new book outlines current developments in thinking in the field of Social Impact Assessment (SIA). It advances the theory and practice of SIA and argues that a dramatic shift is required in the way socioeconomic studies and community participation is undertaken. The book emphasizes that much more than the act of predicting impacts in a regulatory context, SIA needs to be the process of managing the social aspects of development, and that there needs to be a holistic and integrated approach to impact assessment. It stresses that greater attention needs to be given to ensuring that the goals of development are attained and enhanced. This significant addition to the literature will be an invaluable reference for academics, consultants, and practitioners.

A Conceptual Approach to Social Impact Assessment Rabel J. Burdge, 1994 **A Community Guide to Social Impact Assessment** Rabel J. Burdge, 2004-01-01
The Guide is a tool for practitioners at all levels: social scientists, agency employees, community leaders, volunteers, to complete social impact assessments (SIAs) efficiently and effectively. The Guide is a how-to manual that provides the users with a step-by-step process easily followed by persons with minimal social science training. The Guide is organized into three sections. Chapters 1-6 provide the background: a short history, the conceptual model, the SIA scoping process, and an explanation as to how to obtain data to measure SIA variables. Chapters 7-11 correspond to the five categories of SIA variables: population change, community and institutional arrangements, communities in transition, individual and family impacts, and community infrastructure needs. Chapters 12-13 provide worksheets for summarizing SIA variables and how resulting data may be used in the SIA mitigation/enhancement process.

The International Handbook of Social Impact Assessment H. A. Becker, Frank Vanclay, 2003-01-01 This book provides a valuable addition to the Social Impact Assessment (SIA) literature. While the volume addresses several good examples of how to do case studies, it also firmly addresses the importance of the need for firm

conceptual and theoretical guidelines for SIA practice the volume is an excellent contribution to the SIA literature and I highly recommend it to both practitioner and researcher alike Geoff Syme Australasian Journal of Environmental Management An innovative collection which takes social impact assessment to the frontiers of environmental and social policy and citizen awareness Unusually this collection includes both sophisticated quantitative tools and equally important chapters on participation stakeholder involvement and environmental mediation A most valuable source book Michael Redclift King's College London UK Social Impact Assessment SIA is the process of analysing and managing the intended and unintended consequences on the human environment of planned interventions policies programmes plans projects so as to bring about a more sustainable and equitable biophysical and human environment This important Handbook presents an indispensable overview of the range of new methods and of the conceptual advances in SIA Recent increased attention to social considerations has led to substantial development in the techniques useful to and the thinking in SIA A distinguished group of contributors provides an up to date and comprehensive account of the cutting edge in SIA development This Handbook outlines a new understanding and definition of SIA and as such will be an invaluable reference tool for both practitioners and scholars at different levels working in the fields of SIA and environmental studies including both impact assessment and management

Social Impact Assessment And Monitoring Michael J Carley, Eduardo Bustelo, 2019-05-28 This systematic critical review of more than 600 recent publications in social impact assessment SIA and related fields is based on the authors belief that SIA is more than an analytical technique it is also a logical and timely response to our ever growing need for more and better information to facilitate decision making in an increasingly complex world

Social Impact Assessment Edward Jonathan Soderstrom, 1981

Social Impact Measurement for a Sustainable Future Richard Hazenberg, Claire Paterson-Young, 2021-11-16 This book explores the history of social impact measurement offering justifications for the use of social impact measurement in modern society It seeks to uncover the tensions inherent in social impact measurement especially between creating and measuring social value creation As the world becomes ever more globalised in its focus to deliver sustainable solutions to social and environmental problems frameworks such as the United Nations Sustainable Development Goals SDGs provide basic structure through which social impact can be assessed and compared globally Nevertheless constructive critiques of such approaches are required to ensure that they do not misinform stakeholders disenfranchise the disadvantaged and exacerbate existing social problems In providing this overview the book seeks to offer a critical review of the social impact measurement field centred on concepts of empowerment and social action Weber 1978 whilst also demonstrating best practice and potential pitfalls to policymakers and practitioners

[Methods of Environmental and Social Impact Assessment](#) Riki Therivel, Graham Wood, 2017-09-13 Environmental and social impact assessment ESIA is an important and often obligatory part of proposing or launching any development project Delivering a successful ESIA needs not only an understanding of the theory but also a detailed knowledge of the methods for carrying out the processes required Riki Therivel and Graham Wood bring together the latest advice on best practice from experienced practitioners to ensure an ESIA is carried out effectively and efficiently This new edition explains how an ESIA works and how it should be carried out demonstrates the links between socio-economic cultural environmental and ecological systems and assessments incorporates the World Bank's IFC performance standards and best practice examples from developing as well as developed countries includes new chapters on emerging ESIA topics such as climate change ecosystem services cultural impacts resource efficiency land acquisition and involuntary resettlement Invaluable to undergraduate and MSc students of ESIA on planning ecology geography and environment courses this internationally oriented fourth edition of *Methods of Environmental and Social Impact Assessment* is also of

great use to planners ESIA practitioners and professionals seeking to update their skills

Public Involvement And Social Impact Assessment Gregory Daneke, Jerome Delli Priscoli, Margot Garcia, 2019-06-04 The participation of the public sector in assessing the social impact of a wide range of projects is the focus of this ground breaking book. Leading experts from the U.S. and Canada have contributed original articles based on their empirical research conducted in current impact situations. These are supplemented by the editors' analytical overviews. The book concludes with projections regarding future linkages between public involvement and social impact assessment. Dr. Gregory A. Daneke is associate professor of public affairs and business administration at Arizona State University. He has co-edited *Energy Policy and Public Administration* 1980 and co-authored *Performance Administration: Improved Responsiveness and Effectiveness in Public Services* 1980. Dr. Margot W. Garcia is a program analyst with the USDA Forest Service as part of a nationwide training program for the Forest Service in land management planning. She taught public involvement and land management planning. Dr. Jerome Delli Priscoli is senior policy analyst at the Institute for Water Resources, U.S. Army Corps of Engineers, Ft. Belvoir, Virginia.

The Concepts, Process and Methods of Social Impact Assessment Rabel J. Burdge, 2015 This Social Impact Assessment textbook provides the reader with details on the background and development of the SIA concept to include the methods, guidelines and principles for conducting an actual Social Impact Assessment. These sections are followed by actual SIA case studies to include the use of public involvement in the SIA process. The text concludes with the application of SIA outside the United States and international principles for doing Social Impact Assessment.

A Community Guide to Social Impact Assessment Rabel J. Burdge, 2015 The Guide is a tool for practitioners at all levels to complete social impact assessments (SIAs) efficiently and effectively.
