Loh, 1984-09-17 How to inform the judicial mind Justice Frankfurter remarked during the school desegregation cases is one of the most complicated problems Social research is a potential source of such information Indeed in the 1960s and 1970s with activist courts at the forefront of social reform the field of law and social science came of age But for all the recent activity and scholarship in this area few books have attempted to create an intellectual framework a systematic introduction to applied social legal research Social Research in the Judicial Process addresses this need for a broader picture Designed for use by both law students and social science students it constructs a conceptual bridge between social research the realm of social facts and judicial decision making the realm of social values Its unique casebook format weaves together judicial opinions empirical studies and original text It is a process oriented book that teaches skills and perspectives cultivating an informed sensitivity to the use and misuse of psychology social psychology and sociology in appellate and trial adjudication Among the social legal topics explored are school desegregation capital punishment jury impartiality and eyewitness identification This casebook is remarkable for its scope its accessibility and the intelligence of its conceptual integration It provides the kind of interdisciplinary teaching framework that should eventually help lawyers to make knowledgeable use of social research and social scientists to conduct useful research within a legally sophisticated context **Social Psychology, Second Edition** Arie W. Kruglanski, E. Tory Higgins, 2013-10-21 This book has been replaced by Social Psychology Third Edition ISBN 978 1 4625 4398 4 **The Voir Dire Examination, Juror Challenges,**

**and Adversary Advocacy** Gordon Bermant, John Shapard, 1978      **SNI National Criminal Justice Reference Service** (U.S.), 1979      **The Trial Process** Bruce Dennis Sales, 2013-11-11 As noted in the Preface to Volume 1 in this series the goal of Perspectives in Law and Psychology is to provide a forum for books aimed at systematically interfacing the two disciplines Toward this end Volume 1 presented a collection of original writings focused on the criminal justice system that grew out of a conference held at the University of Nebraska at Lincoln Because that volume was based on conference proceedings however an attempt was not made to provide thorough coverage of all law psychology issues in the criminal justice system rather it highlighted a select few issues that were currently being investigated by some of the outstanding people in the field This volume differs substantially from the first in that it attempts to bring together those psycholegal scholars who are doing the major research on the trial process today and provides broad coverage of critical research on the trial Thus the chapters not only provide an extensive review of existing literature in this field but also present new contributions by these scholars

**The Federal Sentencing Guidelines** United States Sentencing Commission, 1991      **Trust in the Law** Tom R. Tyler, Yuen J. Huo, 2002-10-10 Public opinion polls suggest that American's trust in the police and courts is declining The same polls also reveal a disturbing racial divide with minorities expressing greater levels of distrust than whites Practices such as racial profiling zero tolerance and three strikes laws the use of excessive force and harsh punishments for minor drug crimes all contribute to perceptions of injustice In Trust in the Law psychologists Tom R. Tyler and Yuen J. Huo present a compelling argument that effective law enforcement requires the active engagement and participation of the communities it serves and argue for a cooperative approach to law enforcement that appeals to people's sense of fair play even if the outcomes are not always those with which they agree Based on a wide ranging survey of citizens who had recent contact with the police or courts in Oakland and Los Angeles Trust in the Law examines the sources of people's favorable and unfavorable reactions to their encounters with legal authorities Tyler and Huo address the issue from a variety of angles the psychology of decision acceptance the importance of individual personal experiences and the role of ethnic group identification They find that people react primarily to whether or not they are treated with dignity and respect and the degree to which they feel they have been treated fairly helps to shape their acceptance of the legal process Their findings show significantly less willingness on the part of minority group members who feel they have been treated unfairly to trust the motives to subsequent legal decisions of law enforcement authorities Since most people in the study generalize from their personal experiences with individual police officers and judges Tyler and Huo suggest that gaining maximum cooperation and consent of the public depends upon fair and transparent decision making and treatment on the part of law enforcement officers Tyler and Huo conclude that the best way to encourage compliance with the law is for legal authorities to implement programs that foster a sense of personal involvement and responsibility For example community policing programs in which the local population is actively engaged in monitoring its own neighborhood have been shown to be an effective tool in improving police community

relationships Cooperation between legal authorities and community members is a much discussed but often elusive goal Trust in the Law shows that legal authorities can behave in ways that encourage the voluntary acceptance of their directives while also building trust and confidence in the overall legitimacy of the police and courts A Volume in the Russell Sage Foundation Series on Trust Exercising Discretion Loraine Gelsthorpe,Nicola Padfield,2012-12-06 Although the exercise of discretion often plays a key part in decisions which are made within the criminal justice system definitions of discretion are not clear and despite widespread recognition of its importance there is much controversy on its nature and legitimacy This book focuses on the core elements and contexts of discretion looking at the power ability authority and duties of individuals officials and organisations to decide select or interpret vague standards requirements or statutory uncertainties **Crime, Inequality and the State** Mary Vogel,2020-10-28 Why has crime dropped while imprisonment grows This well edited volume of ground breaking articles explores criminal justice policy in light of recent research on changing patterns of crime and criminal careers Highlighting the role of conservative social and political theory in giving rise to criminal justice policies this innovative book focuses on such policies as three strikes two in the UK and you re out mandatory sentencing and widespread incarceration of drug offenders It highlights the costs in both money and opportunity of increased prison expansion and explores factors such as labour market dynamics the rise of a prison industry the boost prisons provide to economies of underdeveloped regions the spreading political disenfranchisement of the disadvantaged it has produced Throughout this book hard facts and figures are accompanied by the faces and voices of the individuals and families whose lives hang in the balance This volume an essential resource for students policy makers and researchers of criminology criminal justice social policy and criminal law uses a compelling inter play of theoretical works and powerful empirical research to present vivid portraits of individual life experiences **Worldwide Views on Police Discretion** Yinthe Feys,2023-01-01 This book gives an overview of the empirical research regarding police discretionary decision making worldwide through 2022 by means of a scoping review In total eleven databases were searched and 15 193 publications have been assessed in terms of relevance for this topic with 1 563 of these being assessed more thoroughly The shortlist consists of 526 publications It answers the following questions What is the amount of available research concerning police decision making and what are its characteristics How and where is police decision making studied Which crime phenomena are studied Which types of decisions are studied Which factors impact police discretion Overall the scoping review summarizes the available empirical research on police discretion and helps understand police decision making processes These findings are then used to discuss the current scholarship and give recommendations concerning research e g which decision making processes decisions are currently lacking in research which factors need to be explored further which research methods can be utilized more frequently and police practice i e how to support police officers in their decision making and optimize these decision making processes **Inside the Jury** Reid Hastie,Steven Penrod,Nancy Pennington,2002 Hastie Reid and Steven D
