Paying for the Welfare State in the 21st Century David Byrne, Sally Ruane, 2017-06-28 What does the future hold for the welfare state in the post industrial 21st century Political and economic forces are threatening the taxation regimes of highly globalised capitalist societies prompting an urgent debate around the function of the welfare state and how we pay for it In a challenge to current policy and thinking David Byrne and Sally Ruane deploy the concepts and analytical tools of Marxist political economy to better understand these developments and the possibilities they present for social change Using the SNP in Scotland as an illustrative case study current debates are related to a critical understanding of the relationship between taxation and spending issues that are fundamental to early 21st century politics and the future of the welfare state

Concordia University Leo Panitch York University Anne Phillips London School of Economics and Political Science and John Saul Atkinson College York University *Onions Are My Husband* Gracia Clark, 2010-01-15 In the most comprehensive analysis to date of the world of open air marketplaces of West Africa Gracia Clark studies the market women of Kumasi Ghana in order to understand the key social forces that generate maintain and continually reshape the shifting market dynamics Probably the largest of its kind in West Africa the Kumasi Central Market houses women whose positions vary from hawkers of meals and cheap manufactured goods to powerful wholesalers who control the flow of important staples Drawing on more than four years of field research during which she worked alongside several influential market Queens Clark explains the economic political gender and ethnic complexities involved in the operation of the marketplace and examines the resourcefulness of the market women in surviving the various hazards they routinely encounter from coups d etat to persistent sabotage of their positions from within *Doctrines Of Development* M. P. Cowen, 2003-09-02 Doctrines of Development sets out a critique of the idea of practice of development by exploring the history of development theory and action from the early nineteenth century to the late twentieth century from Britain to Quebec and Kenya **Tanzania** Andrew Coulson, 2013-07-25 Tanzania in the 1970s was at the forefront of policy innovation Near universal primary education access to health services and supplies of clean water subsequently became mainstream ambitions in Africa and elsewhere But its policies towards agricultural and industrial production failed and left the country in a particularly weak position when it faced the demands of structural adjustment in the 1980s This book originally published in 1982 has been reissued with a new introduction which brings its themes up to the present when income from gold mining and natural gas is making Tanzania one of the most dynamic economies in Africa today The author first an economic civil servant in Tanzania later an academic at the University of Dar es Salaam was in a unique position to write it drawing on his own experiences as well as the plethora of ideas and debates in Dar es Salaam in the 1970s The book has stood the test of time not only because of the range of material it covers but more profoundly because of the approach it takes to the work of Tanzania s founding president Julius Nyerere sympathetic to his ideas deeply critical of failures in implementation 25 short easily read chapters take the story of Tanzania from pre colonial times to the present and show how Nyerere was hemmed in by what he inherited from the German and British colonialists who ran the country up to Independence in 1961 It provides an invaluable introduction to anyone coming to the country for the first time and offers a profound assessment of the theoretical debates that have made Tanzania of such interest to students of development *The Immanent Utopia* Axel van den Berg, 2018-01-16 The spectacular growth in the 1970s and 1980s of the Marxist literature on politics and the state in capitalist society was hailed at the time as cumulative proof of Marxism s success in producing an effective theory of the political superstructure More generally it was seen as confirmation of the health and vigor of Marxist theory Axel van den Berg questions both of these claims Through comprehensive analysis of Marxist thought on bourgeois politics and the state

from that produced by Marx himself on van den Berg radically challenges the viability of a distinctly Marxist theory of the state and of recent Marxist theorizing in general In an exhaustive review of the literature van den Berg shows that neo Marxist theories are for the most part not empirically testable To the extent that it is possible to draw any empirical implications from these theories at all such implications are virtually indistinguishable from those of bourgeois theories Van den Berg proceeds to lay bare the contradiction at the heart of Marxist theory in general it presupposes the viability and desirability of some ideal socialist society yet its anti utopian insistence that all criticisms of capitalism must rest on foundations immanent in capitalism itself prohibits any open discussion of such a utopia Now available in paperback this is a fundamental work for political and social theorists This work is brilliant in its polemical courage its originality and its detailed and revealing examination of texts Van den Berg demonstrates that postwar Marxist political theory and sociology is not only vague and contradictory but that it actually makes critical concessions to the bourgeois thought it claims to surpass Appearing in the midst of a far reaching reconsideration of the Marxism project in Europe this volume crystallizes these issues for North American social science Jeffrey Alexander University of California Los Angeles Van den Berg has made a major contribution to the long overdue relegation of Marxism to the museum of nineteenth century ideological antiquities Dennis Wrong Contemporary Sociology Axel van den Berg is a Dutch Canadian professor of sociology at McGill University in Montreal His most recent work is The Social Sciences and Rationality
