## **Socialist Register 1999 Global Capitalism Versus Democracy:**

Global Capitalism Versus Democracy Leo Panitch, Colin Leys, 1999-03-01 Globalization has come to define our age Stock market fluctuations the fortunes of political administrations and conditions for working people all rise and fall with the tide of global capital flow While recognizing that globalization must be taken seriously the essays in this collection set out to challenge ideas that only serve to mystify globalization notably the perception that the state is now irrelevant A number of country and area studies examine the effects of increasing global pressures on particular economies from Germany to Cuba and from Latin America to East Asia Other essays take up the consequences of globalization in particular spheres international money the media and workplaces And theoretical contributions discuss democracy government and economics in an epoch of global capital The international list of contributors includes Boris Kagarlitsky Sheila Rowbotham and other distinguished writers on the left *Global Capitalism Versus Democracy* will appeal to readers seeking a nuanced assessment of the world economy and geopolitics

*Critical Education Against Global Capitalism* Paula Allman, 2019-04-09 In today's vernacular Marx outed capitalism well over a century ago however his explanation has been both ignored and misinterpreted by not only his detractors but also by many socialists and even a considerable number of Marxists as well Today we are experiencing the full impact and suffering the repercussions of capitalism's inherent need to grow and become more than ever before a fully internationalized and integrated system of socioeconomic control and domination the global system that many commentators have suddenly remembered Marx and Engels 1848 presciently forecasted in the Communist Manifesto When the Berlin Wall fell in 1989 the victory of capitalism and liberal democracy was triumphantly proclaimed The Cold War was over and we were promised a lasting peace As we entered the third millennium the promise of peace was brutally dashed and humanity now appears to have entered a state of permanent war We have just witnessed the near total collapse of the global financial system and are continuing to experience as we will for years to come the collateral damage this crisis has caused Problems we were facing before the current crisis will be exacerbated escalating social and economic divisions jobless growth injustice and oppression together with an environment in varying stages of degradation Daily on television news we are bombarded by the schizoid media images of capitalism's extremes the ravaged faces and wasted bodies of some of the thousands suffering famine or the millions living in the world's slums followed within a blink of the eye by the gleaming yet vacuous smile and sumptuously adorned figure of some extravagant wealthy individual who is one of the select members of the global upper class Are we becoming conditioned to accept such contrasts and regard them as normal and inevitable at a time when we have the potential to eliminate scarcity and eradicate human deprivation The author argues that revolutionary critical education is needed to inform and form a social movement capable of challenging and then transforming capitalism She also offers an accessible account of Marx's dialectical critique and exposés of capitalism clearly demonstrating the real enemy that should be the focus of anti-capitalist and anti-globalization struggles This is an account

that explains why our focus should not be on greedy individual capitalists Wall Street financial institutions particular multinational corporations national governments or even their handmaiden institutions such as the World Bank IMF WTO etc but instead the global network of capitalist socioeconomic relations and consequent habituated human practices in which we are all involved These together with the historically specific form of capitalist wealth are the real enemy the essence of capitalism that must be abolished in order for humanity to have any hope of social and economic justice in the future

**Global Capitalism** Hugo Radice,2014-08-01 The essays in this volume were published across the 1984 2011 period and range across a variety of topics and approaches to investigate the changing nature of global capitalism as a social order As such they are a valuable and instructive account of the evolution of global capitalism and of the debates which sought to make sense of this moreover they enable us to understand more clearly how capitalism may change and evolve in the coming years and decades The introduction provides a brief historical account of how global capitalism has changed since the 1960s before summarising each of the essays situating them more immediately in the context in which they were written After sketching the evolution of his views over the period the author concludes by discussing some important dimensions of global capitalism that need further study The twelve essays are presented in four sections dealing with the overarching theme of globalisation the case of Britain the developing regions of the global South and the former Soviet bloc and the crisis that has gripped global capitalism since 2008 Presenting an interdisciplinary approach that corresponds with the emergence of international political economy as a distinct field of scholarship this book will prove to be an invaluable resource for students and scholars of international political economy politics economics international relations development studies human geography critical sociology and business studies

**Counterpublics and the State** Robert Asen,Daniel C. Brouwer,2001-09-27 Explores antagonistic encounters between people both individuals and groups and governments

**Global Political Economy** Kavous Ardalan,2018-12-18 This book applies a multiparadigmatic philosophical frame of analysis to the global political economy Crossing two disciplines and lines of literature social philosophy and global political economy this book considers seven aspects of global political economy and discusses each aspect from four diverse paradigmatic viewpoints functionalist interpretive radical humanist and radical structuralist The four paradigms are founded upon different assumptions about the nature of social science and the nature of society Each paradigm generates theories concepts and analytical tools which are different from those of other paradigms developing an understanding of the different paradigms leads to a better understanding of the multi faceted nature of the subject matter In this book the first chapter reviews the four paradigms Each of the next seven chapters provides four paradigmatic explanations for each of the seven aspects of the global political economy The final chapter concludes by recommending further paradigmatic diversity This book will be of particular interest to students and researchers interested in political economy heterodox economics political science and international relations

Social Theory, Social Policy And Ageing: A Critical Introduction Biggs, Simon,Estes,

Carroll, Phillipson, Chris, 2003-11-01 This work covers theoretical developments and issues influencing the study of adult ageing It explores contemporary trends in social policy drawing on the experience of ageing in the USA Europe and an increasingly global environment Feminist perspectives on ageing are also covered South Africa Pushed to the Limit Hein Marais, 2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority yet close to half the population lives in poverty jobs are scarce and the country is more unequal than ever For millions the colour of people's skin still decides their destiny In his wide ranging incisive and provocative analysis Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy many of the strategic choices made since the early 1990s have compounded those handicaps Marais explains why those choices were made where they went awry and why South Africa's vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma's rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country's continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens South Africa Pushed to the Limit presents a riveting benchmark analysis of the incomplete journey beyond apartheid **Paradigms in Political Economy** Kavous Ardalan, 2015-11-06 Social theory can usefully be conceived in terms of four key paradigms functionalist interpretive radical humanist and radical structuralist The four paradigms are founded upon different assumptions about the nature of social science and the nature of society Each generates theories concepts and analytical tools which are different from those of other paradigms and together they provide a more balanced understanding of the phenomenon under consideration This book demonstrates that an understanding of these different paradigms and how they can be applied leads to a better understanding of the multi faceted nature of political economy Any explanation of a given phenomenon is based on a worldview The premise of this book is that any worldview can be associated with one of the four key paradigms Each chapter of the book takes an important phenomenon i.e. the state justice freedom democracy liberal democracy media and the great recession and discusses it from the four different viewpoints It emphasizes that the four views expressed are equally scientific and informative They look at the phenomenon from their certain paradigmatic perspective and together provide a more balanced understanding of the phenomenon under consideration The diversity of economics research possibilities referred to in this book is vast While each paradigm advocates a research strategy that is logically coherent in terms of underlying assumptions these vary from paradigm to paradigm The phenomenon to be researched can be conceptualized and studied in many different ways each generating distinctive kinds of insight and understanding This book is for those who study political economy as well as economic theory and philosophy **The Transformation of the State** Georg Sørensen, 2017-03-14 Recent years have seen a range of theoretical challenges to traditional notions of state sovereignty and a burgeoning debate about the power of the state in the face of globalization and new forms of governance In this important new text Georg Sørensen provides a systematic assessment of the contemporary state steering a middle course between those

who argue the state is in retreat and their critics In so doing he sheds new light on just what is actually changing in the nature of sovereign statehood on changes in the relative power of different states and on the changing relationship between the domestic and external aspects of state power *Postcommunist Transformation and the Social Sciences* Frank Bönker, Klaus Müller, Andreas Pickel, 2003-08 The work's major substantive themes revolve around problems of post communist socio economic transformations Specifically it explores post communist systemic change the role of religion and collective identity the significance of trust and economic culture patterns of state economy interactions in enterprise restructuring the context of EU expansion the strengths and weaknesses of economic theory and neo liberal doctrine and the history of ideas in the post communist transformation debate **Media and Cultural Theory** James Curran, David Morley, 2007-05-07 Containing new thinking and original surveys from leading international scholars this ideal course reader uses contemporary media film texts and case studies to address key issues and debates within media and cultural studies the world over Taking the High Road David B Reynolds, 2016-09-16 This book presents a vision for farreaching economic change in America connected to practical grassroots steps It points to an economic system in which corporate success merges with the long term welfare of the workers and the general population The author examines the continued reality of social democracy in Europe and what lessons can be learned for the U S He demonstrates how progressive economic change is already being fought for by labor and community groups throughout America in such efforts as the Living Wage Movement and the emerging battle against sprawl And he provides a wealth of concrete examples tools and ideas that everyone can use to organize for economic and social justice in their own communities Capital as Power Jonathan Nitzan, Shimshon Bichler, 2009-06-02 The book presents a radically new framework for understanding capital as a mode of power Challenging the liberal and Marxist approaches it articulates a new theory of accumulation develops new empirical methods of research and offers a new history of capitalism India in the Contemporary World Jakub Zajączkowski, Jivanta Schottli, Manish Thapa, 2015-07-17 This book brings together Indian and European perspectives on India's polity economy and international strategy It explores internal regional and global determinants shaping India's status position and goals in the early 21st century Through an array of methodological and theoretical approaches it presents debates on democracy economic development foreign and security policy and the course of India European Union relations The volume will prove invaluable to scholars and students of international relations politics economics history and development studies as well as policy makers and economists Globalisms Manfred B. Steger, 2008-12-16 This new edition of Manfred Steger's award winning book explores the three principal ideologies of our time the dominant market globalism based on a neoliberal vision of the world as a single marketplace the justice globalism developed over the last decade by a transnational coalition of global civil society forces and the jihadist globalism of radical Islamists seeking to galvanize their global community of believers into violent action Market globalism has responded to these challengers by turning into imperial globalism a political belief

system that marries the capitalist language of the 1990s with the security concerns of our post 9 11 world Steger one of the world s leading scholars on these subjects explores globalization s central questions What exactly are the core claims of these conflicting globalisms How does the imperial globalism of the 2000s differ from the market globalism of the 1990s How has justice globalism managed to mature into a coherent ideology What are the most likely future trajectories of this great ideological struggle of the twenty first century Written with impressive historical and theoretical breadth this groundbreaking work is essential reading for all those concerned with the key questions that our shrinking world must face

**Local and Regional Development** Andy Pike,Andrés Rodriguez-Pose,John Tomaney,Andres Rodriguez-Pose,2006-11-22 Local and regional development is an increasingly global issue For localities and regions the challenge of enhancing prosperity improving wellbeing and increasing living standards has become acute for localities and regions formerly considered discrete parts of the developed and developing worlds Amid concern over the definitions and sustainability of development a spectre has emerged of deepened unevenness and sharpened inequalities in the development prospects for particular social groups and territories Local and Regional Development engages and addresses the key questions what are the principles and values that shape definitions and strategies of local and regional development What are the conceptual and theoretical frameworks capable of understanding and interpreting local and regional development What are the main policy interventions and instruments How do localities and regions attempt to effect development in practice What kinds of local and regional development should we be pursuing This book addresses the fundamental issues of what kind of local and regional development and for whom frameworks of understanding and instruments and policies It outlines what a holistic progressive and sustainable local and regional development might constitute before reflecting on its limits and political renewal With the growing international importance of local and regional development this book is an essential student purchase illustrated throughout with maps figures and case studies from Asia Europe and Central and North America

*Globalism* Manfred B. Steger,2002 Globalism The New Market Ideology rejects the notion that we find ourselves at the end of ideology and that democracy has won Instead Steger argues that the opening decade of the 21st century will constitute a teeming battlefield of clashing ideologies The chief protagonist is the dominant neoliberal market ideology Steger calls globalism After identifying and evaluating the five central claims of globalism including assertions that globalization is inevitable nobody is in charge of globalization and globalization benefits everyone Steger offers an overview of the counterclaims made by anti globalist forces Visit our website for sample chapters

**Understanding Globalization** Kavous Ardalan,2017-09-08 This book discusses eight dimensions of globalization world order culture the state information technology economics production development and Bretton Woods Institutions from the perspective of four diverse sociological paradigms functionalist interpretive radical humanist and radical structuralist This multi perspective approach forces readers to abandon their preconcieved assumptions and allows them the opportunity to view globalization through

new eyes Kavous Ardalan argues that social theory can usefully be conceived in terms of these four key paradigms because each one is founded upon different assumptions about the nature of social science and each one generates useful theories concepts and analytical tools This method facilitates distancing from one's favored paradigm and appreciating other available approaches to better understand social phenomena The knowledge of paradigms increases awareness of the boundaries and limitations of each individual paradigm While most books on the topic focus on particular aspects of globalization from specific viewpoints this fair and unbiased volume provides readers with a balanced understanding of globalization

Public Services Or Corporate Welfare Dexter Whitfield, 2001-01-20 Explains the need for public ownership and the welfare state in the face of increasing globalization

**Critical Political Studies** Colin Leys, 2002 A collective picture of modern capitalism suggests that economic prospects political costs and implications for human development and freedom under this system are grim indeed However the possibility of an alternative viewpoint and an alternative system provide grounds for optimism The authors in Critical Political Studies challenge the neo liberal pro market ideology that has arisen in the age of the so called post communist new world order wrestling with the implications of globalization democratization and the politics of radical social change Written as a tribute to the remarkable intellectual career of Colin Leys the debates in this book deal with some of the most pressing problems confronting the majority of citizens in both first world and third world contexts Their contributions provide the confidence to pursue new possibilities that permit a more optimistic if critical outlook Topics covered include contemporary debates about globalization and the nation state African development prospects for British socialism after Blair social movements and current issues in political and social theory Contributors include Laurie Adkin University of Alberta Abigail Bakan Bruce Berman Queen's University Manfred Bienefeld Carleton University Alex Callinicos University of York UK Bonnie Campbell University of Quebec at Montreal Michael Chege University of Florida Radhika Desai University of Victoria Lauren Dobell PhD candidate Oxford University Phil Goldman Queen's University Banu Helvacioğlu Bilkent University Turkey Robert Jessop University of Lancaster UK Colin Leys emeritus Queen's University Eleanor MacDonald Marguerite Mendell Concordia University Leo Panitch York University Anne Phillips London School of Economics and Political Science and John Saul Atkinson College York University
