Sociology A Liberating Perspective:

Sociology Alex Liazos,1985 **Liberation Sociology** Joe R. Feagin,Hernan Vera,Kimberly Ducey,2015-11-17 Many people of all ages today continue to be attracted to sociology and other social sciences because of their promise to contribute to better political social and moral understandings of themselves and their social worlds and often because they hope it will help them to build a better society In a world of new movements and deepening economic inequality following the Great Recession this new edition is vital It features dozens of new examples from the latest research with an emphasis on the next generation of liberation sociologists The authors expand on the previous edition with the inclusion of sections on decolonisation paradigms in criminology critical speciesism and studies of environmental racism and environmental privilege There is an expanded focus on participatory action research and increased coverage of international liberation social scientists Work by psychologists anthropologists theologians historians and others who have developed a liberation orientation for their disciplines is also updated and expanded The Old Testament: A Liberation Perspective Anthony R. Ceresko,1992 Nietzsche and Critical Social Theory ,2019-12-09 Nietzsche and Critical Social Theory Affirmation Animosity and Ambiguity brings together scholars from a variety of disciplinary background to assess the salience of Nietzsche for critical social theory today In the context of global economic crises and the rise of authoritarian regimes across the U S and Europe the question asked by these scholars is why Nietzsche now Containing several innovative interventions in the areas of queer theory political economy critical race theory labour history hip hop aesthetics sociology the Frankfurt School social movements studies science and technology studies pedagogy and ludic studies this volume pushes Nietzsche studies in new directions seeking to broaden the appeal of Nietzsche beyond philosophy and political theory **Beyond Sociology's Tower of Babel** Bernard S. Phillips,2001 To look outside the discipline of sociology is to find little credibility given to the field as science Bernard Phillips argues that we are learning to see ever more clearly the contradiction between scientific standards and what in fact has been achieved by sociology Instead of knowledge based on the full range of our findings we have separate pieces of knowledge located within the diverse areas of the discipline and fads and fashions in the ideas and terms we use with relatively little cumulative development This has led many to question whether any scientific method can be applied to human behavior If the arguments and alternative interpretations in this book on the problematic nature of sociology s use of scientific method prove to be credible and fruitful then the implications are profound For example the conclusions drawn for every single social science study that has ever been conducted would be open to reinterpretation because they fail to take into account systematically the enormous complexity involved within any given instance of human behavior Our present approach assumes implicitly that the pieces of the human jigsaw puzzle can at some point be put together so as to yield a coherent picture Yet as Phillips shows if each piece is itself deficient then no coherent picture emerges when we attempt to put the pieces together Refusing to take the current fragmentation of sociology as

inevitable Phillips offers a clear vision through a series of heuristic web images of how sociologists might achieve the cumulative development and credibility that are the hallmarks of any science His research draws heavily on the works of classical and contemporary theorists philosophers and historians of science as well as on postmodernist critiques and responses to postmodernism This reconstruction will be useful for courses in method in the study of the classical tradition of sociology Bernard Phillips was introduced to sociology at Columbia University by C Wright Mills A former professor of sociology at Boston University cofounder of the ASA Section on Sociological Practice and founder of the Sociological Imagination Group his publications emphasize methodology and theory *The Political Theory of Liberation Theology* John R. Pottenger,1989-01-01 Discusses the religious and political context of liberation theology the state of the Latin American economy Marxist Christian tensions and the ethics of reform *Psychology of Liberation* Maritza Montero,Christopher C. Sonn,2009-04-28 Since the mid 1980s the psychology of liberation movement has been a catalyst for collective and individual change in communities throughout Latin America and beyond and recent political developments are making its powerful transformative ideas more relevant than ever before Psychology of Liberation Theory and Applications updates the activist frameworks developed by Ignacio Martin Baro and Paulo Freire with compelling stories from the frontlines of conflict in the developing and developed worlds as social science and psychological practice are allied with struggles for peace justice and equality In these chapters liberation is presented as both an ongoing process and a core dimension of wellbeing entailing the reconstruction of social identity and the transformation of all parties involved both oppressed and oppressors It also expands the social consciousness of professionals bringing more profound meaning to practice and enhancing related areas such as peace psychology as shown in articles such as these Philippines the role of liberation movements in the transition to democracy Venezuela liberation psychology as a therapeutic intervention with street youth South Africa the movement for representational knowledge Muslim world religion the state and the gendering of human rights Ireland linking personal and political development Australia addressing issues of racism identity and immigration Colombia building cultures of peace from the devastation of war Psychology of Liberation demonstrates the commitment to overcome social injustices and oppression The book is a critical resource for social and community psychologists as well as policy analysts It can also be used as a text for graduate courses in psychology sociology social work and community studies **History of Structuralism: The sign sets, 1967-present** François Dosse,1997 Content Description Includes bibliographical references and index *Women, from Subjection to Liberation* Rekha Pandey,1989 **Social Forms/Human Capacities (RLE Social Theory)** Philip Corrigan,2020-07-26 This is an exhilarating book written by one of sociology s most imaginative theorists and critics Professor Corrigan proceeds by turning old answers into new questions He draws on a rich tradition of thought from sociology philosophy structuralism post structuralism and literary criticism to explore major ongoing problems in everyday life moral regulation schooling the capitalist world economy intellectuals and the problem of difference

masculinity The result is one of the most dazzling contributions to critical sociology published in recent years **The Women's Liberation Movement** Kristina Schulz,2017-07-01 For over half a century the countless organizations and initiatives that comprise the Women s Liberation movement have helped to reshape many aspects of Western societies from public institutions and cultural production to body politics and subsequent activist movements This collection represents the first systematic investigation of WLM s cumulative impacts and achievements within the West Here specialists on movements in Europe systematically investigate outcomes in different countries in the light of a reflective social movement theory comparing them both implicitly and explicitly to developments in other parts of the world Cultivating Transformative Reconciliation Line Merethe Skum,John Klaasen,Bernd Krukpa,Ray Aldred,2024-10-29 Are Truth and Reconciliation Commission processes enough to achieve reconciliation This volume discusses issues that arise once the task of reconciliation emanates from the limited scope of a specific Truth and Reconciliation Commission and into the larger society and political system that originated it Scholars spanning several research fields from law to history to theology discuss how transformative reconciliation can be cultivated in a society using decolonization and other perspectives along three lines by specifying transformative issues and processes in law and politics by criticizing historical perspectives on the past and its concepts as deliberations of the status quo and by instilling the inherent dynamics of truth and reconciliation processes as permanent features within broader society The volume embarks on an investigation of the Norwegianization policy a historical framework that brought injustices upon minority groups such as the Sami and Kvens Norwegian Finns in Norway and parallel groups in Sweden and Finland It extends its exploration to analogous unjust policies in South Africa Canada and various other contexts Within the complex web of cultural social political and economic struggles stemming from colonial policies the roles of religion politics research institutions and civil society are critically examined *New Perspectives on Anarchism* Nathan J.
