Juan Ramón Jiménez. Julio Hans C. Jensen, 2012-07-01 The Spanish poet Juan Ramón Jiménez 1881 1958 Nobel laureate 1956 wrote at a key moment in literary history Since Jiménez's lyrical output covers the poetic tradition from Romanticism through Symbolism to the Avant Gardes his work can be regarded as a condensation of the modern paradigm Julio Jensen investigates the lyrical subject appearing in Jiménez's poetry as exemplary of the notion of modern subjectivity He does so by assuming a historical correlation between literature and philosophy in the sense that if philosophical discourse conceptualizes the prevailing understanding of the human being at a given moment literary discourse represents it Modern thought does not accept any other foundation than subjectivity At the same time the awareness of the subject's finitude engenders pessimism with respect to its status as world generating principle One of the primary aims of this study then is to show how Jiménez poignantly enacts this vacillation between self enthrone ment and self eradication With insightful readings of Jiménez's poetry the author opens a rich vein in the work of a writer who would serve as a central reference for later Spanish language poets such as Federico García Lorca Pablo Neruda and Octavio Paz *The Oxford Book of Latin American Poetry* Cecilia

Spanish poets Emphasis is on the modern period with five of the poets being twentieth century poets It is argued that the roots of modern poetry are to be found in Romanticism s anguished search for meaning The seven Spanish poets include Becquer Rosalia de Castro Antonio Machado Jorge Guillen Pedro Salinas Garcia Lorca and Rafael Alberti **Toward Octavio Paz** John M. Fein, 2014-07-15 The undisputed intellectual leadership of Octavio Paz not only in Mexico but throughout Spanish America rests on achievements in the essay and in poetry In the field of the essay he is the author of more than twenty five books on subjects whose diversity esthetics politics surrealist art the Mexican character cultural anthropology and Eastern philosophy to cite only a few is dazzling In poetry his creativity has increased in vigor over more than fifty years as he has explored the numerous possibilities open to Hispanic poets from many different sources The bridge that joins the halves of his writing is a concern for language in general and for the poetic process in particular Toward Octavio Paz defines this process of creation through a close examination of the books that represent the summit of the poet s development three long poems and three collections It is intended for readers of varied poetic experience who are approaching Paz s work for the first time By studying the relationship of the parts of the poem particularly structure and theme Fein traces the poet s growth through approaches to the reader each embodied in a separate work From the divided circularity of Piedra de sol through the intensification of the subject of Salamandra the multiple meanings of Blanco the polarities of Ladera este and the literary solipsism of Pasado en claro to the silences of Vuelta Paz has shaped his audience s responses to his work through suggestion rather than control The result is not only a new poetry but a new receptivity
